

## WALL BEDS

Valet Custom Cabinets & Closets will create a custom-designed wall bed system just for you. Select from our large variety of attractive finishes and decorative door fronts to achieve a style and look that both meets your budget and complements your home. One of our experienced Designers will also be glad to assist you in a design for optional cabinetry that can incorporate everything from bookcases and wardrobe space to a built-in home office.

### FACTS AND FEATURES

**EXTREMELY EASY TO USE:** The tested counterbalancing design of our bed mechanism allows our wall bed to easily and safely open and close with the simple pull of a finger. This critical feature is accomplished with the utilization of a patented bed frame, which provides superior strength with minimal weight.

**DURABLE AND SAFE:** The Valet Custom Cabinets & Closet's wall bed system is engineered to ISO 9002 standards, which means you will be purchasing a bed that has passed the most demanding of engineering standards; a bed system that, because of the ISO 9002 rating, can be marketed around the world. Our bed is rated for up to 1200 lbs. and specifically designed to be used on a *daily* basis without needing constant maintenance and adjustments. Fitted with tempered steel springs, our bed mechanism is qualified to perform flawlessly for as long as you own it.

**COMFORTABLE HEIGHT:** Many wall beds are only 18" above the floor when opened. The Valet Custom Cabinets & Closets wall bed, with our exclusive extended legs, rests very close to a standard bed height at 21" above the floor or higher depending upon the mattress selection. The added height of our bed makes it much easier to get in and out of, especially for senior citizens.

**MATTRESS COMPATIBILITY:** Unlike most European wood-slat support systems that require specialty lightweight foam mattresses, our platform-type foundation will support any top quality brand mattress up to 11" in height. With our bed we offer a high quality spring-coil mattress with an advanced foam encased design in both Firm and Plush styles. This is also a *worry-free* mattress that never needs turning and has a \$650 retail value on a Queen-sized mattress.

**RANGE OF SIZES AND FUNCTION:** Our wall beds are available in *twin, full, and queen* sizes in both *vertical* and *side* tilt orientations. *King* size beds are also available, but only in *vertical-tilt* orientation. All vertical-tilt beds except Kings are available with our exclusive wall bed table.

## WALL BED DIMENSIONS

### VERTICAL TILT WALL BEDS

<u>Size</u>	<u>Width</u>	<u>Height</u>	<u>Depth</u>	<u>Protrusion into Room</u>
Single/Twin	44.50"	82.50"	17.75" or 23.75"	87.00" or 93.00"
