

COMPANY PROFILE

VoxSmart is a global telecommunications technology company and the acknowledged pioneer of mobile voice recording. Our product VSmart™ is a proprietary, patented and award-winning multichannel mobile compliance platform for heavily regulated industries. We believe passionately in enabling mobility and helping our clients increase productivity, reduce risk and improve transparency. We know that enabling enterprise mobility requires delivery by an experienced team, an obsession with end-user experience and, above all else, execution with a ruthless focus on security and service quality.

VoxSmart is looking for experienced and talented full-stack JavaScript developers to join the team developing application and server assets on Node.js, Electron, React and Angular platforms. You will have the opportunity to grow as we continue to expand the team.

THE IDEAL CANDIDATES WILL HAVE:

- ✓ Proven demonstratable experience of front- and back-end JavaScript development.
- ✓ A grasp of trends in front- and back-end JavaScript frameworks, tools and development.
- ✓ A bachelor's or higher degree in Computer Science, Mathematics or a related discipline.
- ✓ A flexible nature combined with common sense and a professional and enthusiastic attitude.
- ✓ The ability to prioritize, manage time, and deliver on commitments, in an agile team context.
- ✓ The ability to work independently, and yet to seek help and to clarify issues with the team when appropriate.
- ✓ An infectious passion to create the best possible user experience, an eye for the big picture, and an eye for detail.

SIGNIFICANT EXPERIENCE WITH ONE OR MORE OF THE FOLLOWING:

- ES6/ES2017 JavaScript
- React+Redux and/or Angular 1, with Bootstrap, CSS and responsive design
- Node JS and Express
- Webpack, Babel, Jest and other testing frameworks
- OAuth2 and other authentication technologies
- SQL (Postgres or MySQL), NoSQL (DynamoDB or other)
- Client libraries such as D3, Google Maps, Moment, JQuery, bare DOM
- Back-end libraries and tools such as Passport and Swagger, AWS, especially IAM, DynamoDB, S3, SNS, SQS
- Java, on server or on Android

In return for your time, energy and willingness to contribute across areas, VoxSmart will offer a fast-moving RegTech, FinTech, start-up style environment, an opportunity to help shape the future of the team, a competitive salary and lots of opportunities for learning and training on these and other technologies.

To apply for this position please email JOBS@VOXSMART.COM stating which position you are applying for in the subject field.
