- Earned Value Management Professionals, certified by PMI
- Lean Six Sigma Consultants
- Project Management Professionals (PMP)
- Preferred JBoss Certified System Integrator
- Oracle Certified Professionals (OCA, OCP, Exadata)

OVERVIEW

Over the past decade, advancements in information technology (IT) have empowered organizations with more efficient and effective tools. This has placed IT at the core of virtually every business process.

AEM understands the challenges faced in maintaining an IT infrastructure with limited budgets and numerous ongoing, high-priority initiatives. Our responsive and knowledgeable technical experts deliver value-added services for enterprise solutions across technology stacks.

Our clients turn to AEM because we reduce risk on high-profile projects with predictable and repeatable processes. Our experts manage the IT operations of client application environments, implement cloud technologies, and modernize and secure information systems. We provide end-to-end data solutions that ensure concise and secure maintenance, management, comprehension, and use of the information that drives success in organizations.
