

Amberline Sp. Z o.o.

We have been using Taxback International for over 5 years now and it is a relationship that we are confident will continue to grow and develop.

When Taxback International approached Amberline Sp. Z o.o and conducted a free health check, auditing all invoices, the results were surprisingly. Amberline Sp. Z o.o were losing out on a large percentage of potential VAT reclaim. Taxback International's in-depth and specialist knowledge has helped reduce our VAT leakage, and we're now safe in the knowledge that we are compliant and transparent across all the entities that Taxback International deal with on our behalf.

By working with Taxback International, we receive improved visibility and a professional account management system to answer our queries at any time. Additionally, it has allowed us to concentrate on our core business while creating an additional revenue stream through their foreign VAT reclaim process.

They have maintained the same great service over the course of our dealings with them, offering us a competitive fee structure and new technologies that increase our VAT reclaim year on year.
