

Phelps Dunbar LLP

The VAT reclaim process requires time, expert VAT knowledge and the language capabilities to deal with global tax offices, that Dunbar LLP just didn't have.

Working with Taxback International over the past 3 years has maximised our VAT reclaim, increasing cash flow into our bottom line. Taxback International analyse each transaction to understand why they are ineligible for VAT reclaim and identify simple actions that our employees can implement to ensure that we collect compliant invoices going forward, thereby increasing our VAT reclaim year on year.

Taxback International's innovative technology seamlessly integrates with Phelps Dunbar LLP and with no disturbance to our operations. The customer care provided by Taxback International is second to none. The world class relationship means that any VAT queries are answered efficiently without effecting our everyday activities.

Alice Terry, Phelps Dunbar LLP.
