

Steelpress Sp. Z o.o.

Taxback International have transformed how we reclaim VAT on our travel spend. Prior to working with Taxback International, Steelpress Sp. Z.o.o's VAT reclaim process required time and VAT expertise that we didn't have in-house. We discovered we were missing out on a high volume of smaller claims because we simply couldn't dedicate the adequate resources to them.

Taxback International implement their VAT reclaim solution easily and with no disturbance to our operations. It was like they weren't even there. They have provided us with a complete solution and we are safe in the knowledge that we are no longer missing out on this additional revenue stream. VAT reclaim is now pain free and we simply watch our reclaim grow year on year.

The customer care provided by Taxback International is second to none. The world class client relationship means that any VAT queries are answered efficiently without effecting our everyday activities.
