

Case Study: Main Street Bank

Modernizing IT Infrastructure To
Empower Business

Main Street Bank

www.bankmainstreet.com

"iuvo Technologies created a solid, supportable IT architecture that we could build upon. They offer great support as well."

Bill Metras, IT/Network Manager

Executive Summary

iuvo Technologies began partnering with North Middlesex Savings Bank prior to its merger with Marlborough Savings Bank that would eventually merge to become Main Street Bank. iuvo Technologies was integral in the modernization of North Middlesex Savings Bank's technology infrastructure, which allowed the banking teams to focus on the business needs of the merger.

Challenges

North Middlesex Bank had an older technology infrastructure that was becoming difficult to support and wanted to leverage newer technology to secure and manage all endpoints. iuvo Technologies provided a level of expertise that was difficult to achieve for given staffing constraints. North Middlesex Bank needed a business partner that would take ownership of building the new IT

infrastructure to support their successful merger as well as their future IT environment.

How We Helped

Successfully merging two businesses is complex and doing it successfully involves merging people, process and technology into a new cohesive entity. When merging technologies, the goal is to achieve synergistic results by carefully integrating the best of both environments while keeping the business running. iuvo Technologies' IT design infrastructure experts prepared, planned and implemented a modern, standardized IT architecture to ensure a smooth transition towards becoming one bank. This new secure, robust infrastructure was essential to ensure their future success.

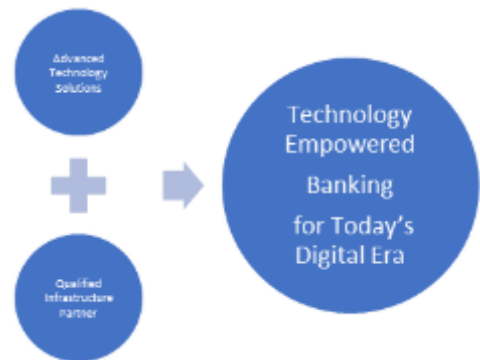

Results, Return on Investment and Future Plans

The applications, authentication and storage integration was successful and Main Street Bank is now a single entity. The results allowed the bank to maximize the advantage of the combined technology and quickly achieve business results. Main Street Bank continues to utilize the expertise of iuvo Technologies to help move their business forward.

iuvo Technologies advanced IT services helps Main Street Bank with the following:

Having an IT Partner that has expertise in the needs of community financial institutions and is invested in your success creates a competitive advantage.
