

An aerial view of an aircraft carrier's deck, showing a fighter jet on the runway. The image is overlaid with a semi-transparent blue filter. The text "WINNING PROPOSALS" is prominently displayed in the center.

WINNING PROPOSALS

The #1 Proposal Pricing and Cost Analysis Software Used by Government Contractors and Federal Agencies

FAST

Pricing managers and analysts using PROPRICER™ can often complete even the most complex cost proposals, which previously took many days, in just hours.

ACCURATE

PROPRICER™ replaces homegrown and "excel based" pricing tools which inevitably accumulate calculation errors over time. Maintain a permission based library of direct and indirect rates.

FLEXIBLE

Unlike homegrown Excel-based spreadsheet systems, PROPRICER™ includes powerful reporting capabilities that enable you to respond to virtually any RFP requirement. Input and share data in real-time, or make last minute changes easily.

About Us

INDUSTRY PROVEN

A true partner in proposal pricing, PROPRICER™ has the tools, features, and services to help you win more business.

CUSTOMER DRIVEN

PROPRICER™ has become the industry leading proposal pricing solution because we listen to our customers. With over 30 years in the proposal pricing business, our team has become adept at turning our customers' needs into innovative product features to help them save time and create winning proposals with efficiency and accuracy.
