SAP® mergers, acquisitions, divestitures? A breeze with EPI-USE Labs SLO services.

Your IT landscape is subject to the pressures of constant change. EPI-USE Labs brings a bank of expertise and intellectual capital to help you navigate through landscape transformation.

Why EPI-USE Labs?

EPI-USE Labs is a specialist solution and software development company. Our vision is to optimize the performance and management of SAP® data and processes. Through our unique technical know-how honed by the realities of global business, and fired by a passion to innovate, we create tailored solutions. Underlying the above is a strong, "walk-the-extra-mile" support service enjoyed by all our customers.

EPI-USE Labs offers:

- a team of specialists that is competent to overcome any complication
- the benefits of powerful technology
- speed through superior software that delivers unrivalled performance
- an option to rent Data Sync Manager™ if you don't yet own the software

The reality of business today is one of constant mergers and divestitures. For SAP teams this presents difficulties because SAP systems need re-aligning with business direction and goals and consequently require skills outside of normal company expertise. EPI-USE Labs specializes in extracting the right data and migrating it rapidly, to enable the transformation of the SAP Landscape.

Fast carve-outs, minimal impact

For divestitures, EPI-USE Labs offers carve-out services for SAP ERP and HCM systems. Our product-driven approach and methodology means that carve-outs are accomplished in as little as one month. Importantly, this has minimal impact on the Sell- or Buy-side entity.

For the Sell-side entity, our services will remove the company to be split off so thatthe SAP landscape reflects the divested business.

The Buy-side entity must decide how to absorb the acquisition into their landscape. EPI-USE Labs can assist by providing three different integration solutions: a) Historical Reference System, b) Side-by-Side Landscape, and c) Technical System Consolidation.

Tailored solutions for your exact needs

In addition to mergers and acquisitions and divestitures, EPI-USE Labs offers SAP Landscape Transformation services to optimize your landscape. These include HCM decoupling from ERP, HCM consolidations, landscape optimization for SAP HANA® deployments and landscape-wide data strategy implementation.

We understand that every project is unique, so we will tailor a solution leveraging powerful products and experienced consultants to ensure you receive the best value from your investment.
