About Us

173
Index
Place matters because work matters. The work we do brings meaning and purpose to our lives.

The people we work with matter, too. They are: Our community. Our source of inspiration and encouragement. Our partners in learning and innovation. Our reminder that what we do makes a difference.

The places where we work matter more than ever. They need to help us work better together. They need to help us collaborate better, concentrate better, create better, experiment better, learn better.

Place matters because people matter. The places where we come together need to care for the physical, cognitive and emotional wellbeing of people. They need to provide us choice and control over where and how we work. They need to respect and reflect who we are as individuals, teams and organizations.

They need to be places that make us proud of who we are, what we do and how we work.

Love How You Work.
Work is a social activity. Informal spaces that promote impromptu conversations can stimulate the brain and enhance creativity.

Balance the desire for openness with spaces for solitude and focused work, allowing individuals to get into the flow free from distractions.
Place matters because work matters. The work we do bring meaning and purpose to our lives.
The people we work with matter, too. They are:
Our community.
Our source of inspiration and encouragement.
Our partner in learning and innovation.
Our reminder that what we do makes a difference.
The places where we work matter more than ever.
They need to help us work better together.
They need to help us collaborate better,
concentrate better, create better, experiment better,
learn better.
Place matters because people matter.
The places where we come together need to care
for the physical, cognitive and emotional wellbeing
of people.
They need to provide us choice and control over where
and how we work. They need to respect and reflect
who we are as individuals, teams and organizations.
They need to be places that make us proud of who
we are, what we do and how we work.
Love How You Work.

Your office is a canvas that expresses your brand
and culture to your customers and your people. It
conveys who you are and what you value. We can
help you create an office where people will find
inspiration, meaning and purpose. An office where
people will thrive and ideas flourish.

How you choose to express this is up to you. We’re
here to help you with fresh new looks to reimagine
your office.

Microsoft

Microsoft is the leading platform and productivity company for the mobile-first, cloud-first world, and its mission is to empower every person and every organization on the planet to achieve more. Steelcase and Microsoft share a passion for helping people at work. Together, we understand how the integration of place and technology can unlock creativity.

Steelcase

At Steelcase, we bring human insight to business by studying how people work, wherever they work. Those insights can help organizations achieve a higher level of performance, by creating places that unlock the promise of their people. Our goal is to help organizations create spaces that support how they work. Our passion is helping people love how they work.

Coalesse

At Coalesse, we are welcoming people back to the office by making thoughtfully crafted furnishings to create great spaces and inspire great work. Led by insight and driven by design, we cultivate a balance between intent and intuition, beauty and utility, comfort and choice – to create destinations that bring new life to work.

PolyVision

For more than 60 years, PolyVision has consistently produced durable and sustainable CeramicSteel surfaces that stand the test of time even in the most demanding environments. From chalkboard and whiteboard surfaces in more than 8,000,000 classrooms to architectural cladding in train and metro stations, tunnels, hotels and hospitals, PolyVision CeramicSteel spans more than 185 million square meters of architecture around the world.

Bolia.com

Bolia is a contemporary Danish furniture designer and maker who puts creativity at the heart of everything they do. Steelcase and Bolia have a shared love for design, quality and creativity. Together, we transform offices into inspiring and homely work environments.

At Steelcase, our passion is to understand how work is changing and its impact on people. We are constantly exploring how the workplace can help people thrive.
For over 105 years, we’ve imagined new possibilities and better experiences for people at work.

This constant curiosity means we’re always looking for what’s next, experimenting with new concepts and staying true to the principle that people are at the center of everything we do.

Through our passion for user-centered research, we are the leaders in understanding work, workers and the workplace. We offer the most comprehensive range of furniture, architecture and technology solutions. We are a global company, with an extensive and experienced distribution network that allows us to deliver great experiences to our customers, at both a local and global level.
About Us

- 1,800 global patents
- 700 issued in EMEA*
- 110,000+ companies served globally
- 2 Global Learning + Innovation Centers
- 15 Global Manufacturing Facilities
- 24 Global WorkLife Centers
- 7 Global Business Centers

*Data from November 2017

Our curiosity drives our commitment to research—we've invested more than $110 million in research, design and development activities over the past three years. Our innovations have been rewarded with more design and utility patents than any other industry manufacturer and have earned Steelcase consistent recognition through awards such as Red Dot.

What We Do

We design and manufacture innovative products and applications for the world’s leading organizations in business, education and health. We also partner with other leading brands to enrich our portfolio and increase the choices we provide to our customers.

Steelcase offers a full range of services to support customers throughout the workplace lifecycle. We are active from the initial exploration of needs to the procurement of solutions, continuing after move-in with product management and ongoing space measurement. Our portfolio of services helps us understand scope, explore options, apply the right solutions and ensure your investment is delivered, installed, maintained and optimized.

We offer the largest production capacity of any manufacturer in the industry. Our facilities are strategically located in North America, Europe, the Middle East, Africa and Asia Pacific, so we can deliver the right solutions in a timely, cost-effective manner.
What Matters to Us

We are committed to social, economic and environmental sustainability, to delivering the consistent quality that leading organizations demand from their partners, and to being a great place for our people to work.

Sustainability is core to who we are. We use it as a lens to drive growth and innovation. It impacts the opportunities we explore and how we design our products. It guides the global investments we make—in communities, in diversity and inclusion, in our people and in helping our customers and suppliers become more sustainable.

We are a global company with an extensive and experienced distribution network that allows us to deliver great experiences to our customers—wherever they are.

All global suppliers are subject to a Supplier Code of Conduct—a comprehensive document that includes our expectations and requirements dealing with many aspects of human rights, fair labor practices and environmental sustainability.

We were an early member of the Circular Economy 100 (CE100) and have been a UN Global Compact participant since 2009.

Our sustainability performance is assured through 20+ third-party verified programs and certifications covering operations, facilities, materials and products, globally.

Our rigorous commitment to quality is also exemplified by the Steelcase warranty. No one in the industry offers a warranty as broad, deep or as extensive.

We are driving toward our operational goal of reducing our environmental footprint by 25% by 2020.

Renewable energy investments equal to 100 percent of global electricity use.

Our sustainability performance is assured through 20+ third-party verified programs and certifications covering operations, facilities, materials and products, globally.
