

## Built. For. Business.

MindLink is a highly secure chat platform for enterprise. Our messaging suite encourages employees to drive communication and simplify decision-making wherever you are. MindLink provides mobility, security, compliance and advanced integration whilst connecting to UC platforms such as Microsoft Lync & Skype for Business.

### ENTERPRISE-GRADE SECURITY

Stay in control of your corporate data and privacy. MindLink offers enterprise-grade data security and works with all major MDM/EMM vendors to ensure your sensitive business data is protected at all times.

### COMPLIANCE ARCHIVING

MindLink's compliance & archiving capabilities allow your organisation to leverage your existing infrastructure & workflows to control, monitor, archive and search your communication channels ensuring regulatory requirements are met.

*“The MindLink platform, gives us a real step forward in terms of flexibility around remote access & integration with other tools. This will directly impact our bottom line”*

*Numis Securities*

### CROSS-PLATFORM ACCESS

Connect your remote & distributed teams and access all your important information in the office and on-the-go. Available on Windows, Mac & Linux as well as mobile devices and tablets, for Blackberry, Android & iOS.

### BUSINESS-LINE INTEGRATION

No more switching between applications - MindLink connects your messaging platform to your internal business systems: from CRM to trading platforms, from storage to project management. Integrates with:

- Social Media and RSS feeds
- Email systems
- Service Desk Systems; e.g. JIRA
- Corporate portals
- Any internal application via our Restful API

### Integration with UC Platforms

MindLink integrates with your Unified Communications platform to extend both the security and functionality of your existing solutions. MindLink integrates, amongst other platforms, with Lync & Skype for Business.

### MindLink - Built. For. Business.

*MindLink is built for business (period). Every full stop is as deliberate and purposeful as our product, platform and user experience.*
