

POWERFUL COMPLIANCE SOLUTIONS FOR INSTANT MESSAGING, GROUP CHAT, YAMMER AND ICE CHAT

MindLink Compliance is the right tool to meet your regulatory requirements & protect your business. It seamlessly transfers your one-to-one instant messaging and persistent group chat data with Lync & Skype for Business, as well as your Yammer and ICE Chat data, to legally compliant long-term archives. All message data including file attachments are archived in the same application that is used to archive email.

The result: Compliance managers and regulators have a single source for eDiscovery across various communication tools.

KEY BENEFITS

- Cost effective transport mechanism that lets you make the most of your existing search and eDiscovery application
- Enables search on a variety of different identifiers instead of just sip address
- Allows compliance managers from different teams or geographies to retrieve only the relevant information
- Reduces network strain by staggering the data transfer at peak times

"We've been impressed with the company's responsiveness, ability to work remotely and the technical capabilities of the solutions on offer."

Group One Trading LP

KEY FEATURES:

- Transfer your Group Chat & IM data with Lync & Skype for Business to your non repudiation store
- Transfer your Yammer or ICE Chat data to your long term storage
- Append additional identifier(s) including email addresses, friendly names and security identifiers in addition to SIP address
- Filter data to separate archive email addresses based on specific user attributes (e.g. location)
- Use robust and configurable scheduling capabilities (based on time since last transfer, number of messages since last transfer, etc.)

MindLink Compliance supports **Symantec Enterprise Vault, EMC Centra, Autonomy Consolidated Archive, Hitachi Data System, Microsoft Exchange Hosted Archive** and others. It can be used with any archiving solution that supports email journaling.

MindLink - Built. For. Business.

MindLink is built for business (period). Every full stop is as deliberate and purposeful as our product, platform and user experience.
