

Call Button Paging

1 and 4 Call Button Paging solutions allow for clear, instant and direct messages and alerts. Your communication needs are critical when it comes to both your work crew and discerning guests. Offering the best range in the industry, we use 12 FCC Shared License Frequencies for "hassle-free" legal operation with no interference.

Providing guest hospitality within a secure environment is a complex process yet one that has to be accomplished as discreetly as possible.

Get messages to the right people at the right time. Cement long-standing guest loyalty by providing the best service.

Additional Features

Concise, Specific Messaging

Streamline communications and provide personalized service.

Wide Coverage

With the iStation transmitter, get reliable coverage up to 2 miles.

Calm, Stress-Free Environment

Instant, silent and discreet paging eliminates noisy overhead systems and enhances guest experience.

Easy Installation & Operation

Pre-programmed and customizable system allows for plug-and-play installation and operation.

Individual & Group Messaging

Communicate specific requests to both individuals and assigned groups for increased efficiency.

1 Call Button Transmitter
