

EasyVu  
Guest Locator, Charger &  
NFC Location Cards

## EasyVu™

Enable servers and staff to accurately locate guests and provide services quicker — leading to higher profit margins.

Precise table location technology is helping restaurants provide services and food delivery faster. Happy customers are return customers and that is especially true for the hospitality industry. With the fast-casual dining trend on the rise, restaurants are competing for speed and convenience.

In healthcare, EasyVu provides operational benefits by enabling staff a reliable way to locate, track, and page visitors and family members throughout the facility.

EasyVu Guest Location System is one of the most cost-efficient and feature-rich guest trackers on the market. The ease-of-use, flexibility and unsurpassed location accuracy makes this an attractive option for businesses, hospitality and fast casual restaurants.

### Additional Features

#### Guest & Visitor Locator

Identifies in real time exactly where a guest is located.

#### Customizable Map

Design your own layout to fit your location using our simple drawing tool built in the system.

#### Paging & Tracking

Use the same system for paging guests and tracking them!

#### Easy & Flexible Setup

No other guest location system is as easy to set up and flexible to use. The adhesive NFC location card can be installed & moved anywhere.

#### Data Log Capability

Data log capability for best business decisions based on performance analytics.

#### Highly Accurate

Unlike other guest location systems, EasyVu has unsurpassed location accuracy.
