

StaffCall IQ® Pager
StaffCall IQ Pager & Charger

StaffCall IQ® Pager

The StaffCall IQ server pager is designed as the most robust pager for your paging system. Inform staff by sending detailed text messages with up to 7 lines of text. Save time by automating communications with up to 10 pre-programmable text or image alerts.

If a sleek look and feel are important to you, the full color display and low profile belt clip give a first-class impression. Show off your brand with a custom jpeg logo visible on the display screen.

Additional Features

The StaffCall IQ Pager is extremely flexible and integrates with other paging systems and software applications.

UHF Technology

Up to 2 miles of line-of-site coverage with unique ID to prevent signal interference.

Display Company Logo

Upload your company logo to be displayed on the TFT display for a custom look and feel.

Flexible Programming Options

Change pager programming over air, via charger, via micro USB connector or software.

Supports Larger Teams

4-digit pager number capability for large enterprises. Communicate with multiple departments and teams.

Smart Alerts

Out-of-Range and Search ensure guest contact and minimize pager loss.

Ample Storage

Save and store important messages with a generous 8 cap code storage capacity.
