Notable LSU Achievements in Your Region

- LSU Shreveport partners with key community stakeholders such as Barksdale Air Force Base Global Strike Command and the Economic Accelerator Program to strengthen the region, encourage innovation, and attract and retain the best and brightest talent.
- In the last academic year, 12 patent applications derived from research at LSU Shreveport, with undergraduate students having a direct connection to at least nine.
- LSUHSC-S is home to three Centers of Excellence: Feist-Weiller Cancer Center, Center of Excellence for Arthritis and Rheumatology, and Center for Cardiovascular Diseases and Sciences.
- LSUHSC-Shreveport's Annual Feist Weiller Cancer Center Family Day offers free cancer screening and cancer prevention, smoking cessation, and healthy meal preparation classes.
- Through a partnership with LSU Shreveport and Bossier Schools, grant funding is used to strengthen clinical practice for middle to high school math and science candidates and to mentor teachers. High school students are exposed to eight weeks of hands-on research activities under the supervision of LSUHSC-S faculty members who serve as program mentors.
- The nine-parish Northwest Louisiana area is home to the LSU AgCenter's Hill Farm Research Station in Homer, the Pecan Research Station, Red River Research Station, and nine AgCenter extension offices.
- Ag Magic at the State Fair is conducted annually to increase agriculture awareness among the general public and school groups. During the three weeks of the fair each year, over 50,000 participants take part in interactive displays.

- LSU Health Shreveport has 24 residents training in family medicine at Ochsner LSU Health Monroe Medical Center. Five additional residency programs rotate through Monroe Medical Center.
- LSU AgCenter 4-H agents serve over 20,000 K-12 students in the Northeast Louisiana region.
- The Macon Ridge Station near Winnsboro consists of 815 acres dedicated to row crop production and raising cattle with the goal to improve profitability of agriculture, the region's largest industry.
- The Sweet Potato Station located on 300 acres in Chase is the only sweet potato research station in the world and supports the \$75 million industry by producing virus-free foundation seeds farmers can plant to keep their crops healthy, sustaining the industry.
- The Northeast Research Station, consisting of 550 acres located near St. Joseph, is dedicated to conservation tillage, crop production, and pest management to aid regional farmers and conduct research benefiting agricultural productivity while protecting the environment.
- Nutrition programs are thriving under the statewide Healthy Communities program: a joint program with LSU AgCenter, Pennington Biomedical, and Southern University Ag Center aimed at improving the health profile of a parish population by promoting healthy eating and physical activity and providing access to healthy foods and recreational facilities.

- LSU Health Shreveport has 24 residents training in family medicine at Ochsner LSU Health Monroe Medical Center. Five additional residency programs rotate through Monroe Medical Center.
- LSU AgCenter 4-H agents serve over 20,000 K-12 students in the Northeast Louisiana region.
- The Macon Ridge Station near Winnsboro consists of 815 acres dedicated to row crop production and raising cattle with the goal to improve profitability of agriculture, the region's largest industry.
- The Sweet Potato Station located on 300 acres in Chase is the only sweet potato research station in the world and supports the \$75 million industry by producing virus-free foundation seeds farmers can plant to keep their crops healthy, sustaining the industry.
- The Northeast Research Station, consisting of 550 acres located near St. Joseph, is dedicated to conservation tillage, crop production, and pest management to aid regional farmers and conduct research benefiting agricultural productivity while protecting the environment.
- Nutrition programs are thriving under the statewide Healthy Communities program: a joint program with LSU AgCenter, Pennington Biomedical, and Southern University Ag Center aimed at improving the health profile of a parish population by promoting healthy eating and physical activity and providing access to healthy foods and recreational facilities.

- LSU has a combined research portfolio of \$488 million across its flagship campus, the LSU AgCenter, and Pennington Biomedical Research Center.
- LSU is in the elite one percent of U.S. universities having land-, sea-, and space-grant status.
- LSU is home to the nation's largest working model of the lower Mississippi River, where faculty study how river mud moves to speed up land growth and slow down erosion.
- LSU's flagship campus enrolls more than 1,400 high school students across the state in dual enrollment courses, allowing them to earn both LSU and high school credit at the same time.
- LSUHSC-NO employs over 180 physician faculty who are instrumental in treating the area's underserved community at Our Lady of the Lake and Woman's Hospital.
- Pennington Biomedical Research Center hosts educational health and wellness events such as the Irene W. Pennington Wellness Day for Women and the Parkinson's Conference.
- LSU AgCenter partners with the Sugar Cane League and USDA on numerous projects, including plant development, harvesting techniques, and soil fertility, to support the \$998.3 million industry.
- AgMagic at LSU AgCenter, held annually for the last 15 years at the Parker Coliseum on the flagship campus, brings school groups and the public together to experience agriculture, learning about where food and fiber comes from. This event reaches 10,000 to 12,000 individuals a year.

- LSU Shreveport partners with key community stakeholders such as Barksdale Air Force Base Global Strike Command and the Economic Accelerator Program to strengthen the region, encourage innovation, and attract and retain the best and brightest talent.
- In the last academic year, 12 patent applications derived from research at LSU Shreveport, with undergraduate students having a direct connection to at least nine.
- LSUHSC-S is home to three Centers of Excellence: Feist-Weiller Cancer Center, Center of Excellence for Arthritis and Rheumatology, and Center for Cardiovascular Diseases and Sciences.
- LSUHSC-Shreveport's Annual Feist Weiller Cancer Center Family Day offers free cancer screening and cancer prevention, smoking cessation, and healthy meal preparation classes.
- Through a partnership with LSU Shreveport and Bossier Schools, grant funding is used to strengthen clinical practice for middle to high school math and science candidates and to mentor teachers. High school students are exposed to eight weeks of hands-on research activities under the supervision of LSUHSC-S faculty members who serve as program mentors.
- The nine-parish Northwest Louisiana area is home to the LSU AgCenter's Hill Farm Research Station in Homer, the Pecan Research Station, Red River Research Station, and nine AgCenter extension offices.
- Ag Magic at the State Fair is conducted annually to increase agriculture awareness among the general public and school groups. During the three weeks of the fair each year, over 50,000 participants take part in interactive displays.

Notable LSU Achievements in Your Region

- LSU has a combined research portfolio of \$488 million across its flagship campus, the LSU AgCenter, and Pennington Biomedical Research Center.
- LSU is in the elite one percent of U.S. universities having land-, sea-, and space-grant status.
- LSU is home to the nation's largest working model of the lower Mississippi River, where faculty study how river mud moves to speed up land growth and slow down erosion.
- LSU's flagship campus enrolls more than 1,400 high school students across the state in dual enrollment courses, allowing them to earn both LSU and high school credit at the same time.
- LSUHSC-NO employs over 180 physician faculty who are instrumental in treating the area's underserved community at Our Lady of the Lake and Woman's Hospital.
- Pennington Biomedical Research Center hosts educational health and wellness events such as the Irene W. Pennington Wellness Day for Women and the Parkinson's Conference.
- LSU AgCenter partners with the Sugar Cane League and USDA on numerous projects, including plant development, harvesting techniques, and soil fertility, to support the \$998.3 million industry.
- AgMagic at LSU AgCenter, held annually for the last 15 years at the Parker Coliseum on the flagship campus, brings school groups and the public together to experience agriculture, learning about where food and fiber comes from. This event reaches 10,000 to 12,000 individuals a year.

Notable LSU Achievements in Your Region

- LSU holds more than \$65 million in research grants dedicated to protecting Louisiana's coast.
- LSU AgCenter has led seafood safety training for 3,000 processors, packers, wholesalers, and harvesters for two decades and launched a mobile training lab through its Louisiana Sea Grant Initiative to educate commercial fishermen about cutting-edge industry practices.
- LSU holds more than \$8 million in research grants dedicated to protecting Louisiana's \$4.6 billion seafood industry.
- LSU holds more than \$8 million in aquaculture-related research grants intended for research on catfish, oysters, alligators, and more with the goal of making Louisiana's aquaculture industry more competitive in the global market.
- LSU holds over \$30 million in grants aiding oil and gas discovery, extraction, processing, and storage and \$12 million related to biofuels produced in Louisiana.
- LSU AgCenter is teaming with the Department of Wildlife & Fisheries to prevent aquatic weeds from overtaking waterways in Southwest Louisiana and the entire state.
- LSU AgCenter partners with the Sugar Cane League and USDA on numerous projects, including plant development, harvesting techniques, and soil fertility, to support the \$998.3 million industry.

Notable LSU Achievements in Your Region

- LSU has a combined research portfolio of \$488 million across its flagship campus, the LSU AgCenter, and Pennington Biomedical Research Center.
- LSU is in the elite one percent of U.S. universities having land-, sea-, and space-grant status.
- LSU is home to the nation's largest working model of the lower Mississippi River, where faculty study how river mud moves to speed up land growth and slow down erosion.
- LSU's flagship campus enrolls more than 1,400 high school students across the state in dual enrollment courses, allowing them to earn both LSU and high school credit at the same time.
- LSUHSC-NO employs over 180 physician faculty who are instrumental in treating the area's underserved community at Our Lady of the Lake and Woman's Hospital.
- Pennington Biomedical Research Center hosts educational health and wellness events such as the Irene W. Pennington Wellness Day for Women and the Parkinson's Conference.
- LSU AgCenter partners with the Sugar Cane League and USDA on numerous projects, including plant development, harvesting techniques, and soil fertility, to support the \$998.3 million industry.
- AgMagic at LSU AgCenter, held annually for the last 15 years at the Parker Coliseum on the flagship campus, brings school groups and the public together to experience agriculture, learning about where food and fiber comes from. This event reaches 10,000 to 12,000 individuals a year.

Notable LSU Achievements in Your Region

- The LSU AgCenter's Southeast Research Station—a state-of-the-art dairy operation with the latest in time-saving and cost-saving equipment—is at the center of the dairy-producing region of both Louisiana and Mississippi and, through a Memorandum of Understanding, serves both states.
- Located in Washington Parish, LSU's Lee Memorial Forest consists of over 1,200 acres of managed timberland and is a vital research and teaching resource for the LSU AgCenter.
- The LSU AgCenter's Hammond Research Station focuses on the nursery industry and is home to the Louisiana Super Plants Program, which studies plants that thrive in certain parts of Louisiana.
- LSU faculty from various fields are testing new, low-cost residential construction materials to protect the homes of low-income families in hurricane-prone coastal areas.
- Using advanced methods, LSU predicts how relative sea level rise, tides, wind waves, and hurricane storm surge affect flood maps and insurance rates and coastal development.
- LSU Health Sciences Centers rank No. 5 nationally for keeping Louisiana students in state for medical studies and keeping physicians in Louisiana upon graduation.
- LSUHSC-NO houses Louisiana's oldest and largest medical school and only dental school as well as the No. 4 nursing school in the nation.
- The Shell Youth Wetland Education Program (SWYEP) began in 2010 as a partnership with Louisiana Sea Grant, 4-H Youth Wetland Program, and Shell Robert Training Facility to teach Tangipahoa Parish youth about wetlands associated with plants, animals, and habitat importance. A total of 450 youth and 75 adults have participated in this event.

- The LSU AgCenter's Southeast Research Station—a state-of-the-art dairy operation with the latest in time-saving and cost-saving equipment—is at the center of the dairy-producing region of both Louisiana and Mississippi and, through a Memorandum of Understanding, serves both states.
- Located in Washington Parish, LSU's Lee Memorial Forest consists of over 1,200 acres of managed timberland and is a vital research and teaching resource for the LSU AgCenter.
- The LSU AgCenter's Hammond Research Station focuses on the nursery industry and is home to the Louisiana Super Plants Program, which studies plants that thrive in certain parts of Louisiana.
- LSU faculty from various fields are testing new, low-cost residential construction materials to protect the homes of low-income families in hurricane-prone coastal areas.
- Using advanced methods, LSU predicts how relative sea level rise, tides, wind waves, and hurricane storm surge affect flood maps and insurance rates and coastal development.
- LSU Health Sciences Centers rank No. 5 nationally for keeping Louisiana students in state for medical studies and keeping physicians in Louisiana upon graduation.
- LSUHSC-NO houses Louisiana's oldest and largest medical school and only dental school as well as the No. 4 nursing school in the nation.
- The Shell Youth Wetland Education Program (SWYEP) began in 2010 as a partnership with Louisiana Sea Grant, 4-H Youth Wetland Program, and Shell Robert Training Facility to teach Tangipahoa Parish youth about wetlands associated with plants, animals, and habitat importance. A total of 450 youth and 75 adults have participated in this event.

Notable LSU Achievements in Your Region

- LSU has a combined research portfolio of \$488 million across its flagship campus, the LSU AgCenter, and Pennington Biomedical Research Center.
- LSU is in the elite one percent of U.S. universities having land-, sea-, and space-grant status.
- LSU is home to the nation's largest working model of the lower Mississippi River, where faculty study how river mud moves to speed up land growth and slow down erosion.
- LSU's flagship campus enrolls more than 1,400 high school students across the state in dual enrollment courses, allowing them to earn both LSU and high school credit at the same time.
- LSUHSC-NO employs over 180 physician faculty who are instrumental in treating the area's underserved community at Our Lady of the Lake and Woman's Hospital.
- Pennington Biomedical Research Center hosts educational health and wellness events such as the Irene W. Pennington Wellness Day for Women and the Parkinson's Conference.
- LSU AgCenter partners with the Sugar Cane League and USDA on numerous projects, including plant development, harvesting techniques, and soil fertility, to support the \$998.3 million industry.
- AgMagic at LSU AgCenter, held annually for the last 15 years at the Parker Coliseum on the flagship campus, brings school groups and the public together to experience agriculture, learning about where food and fiber comes from. This event reaches 10,000 to 12,000 individuals a year.

Notable LSU Achievements in Your Region

- LSU has a combined research portfolio of \$488 million across its flagship campus, the LSU AgCenter, and Pennington Biomedical Research Center.
- LSU is in the elite one percent of U.S. universities having land-, sea-, and space-grant status.
- LSU is home to the nation's largest working model of the lower Mississippi River, where faculty study how river mud moves to speed up land growth and slow down erosion.
- LSU's flagship campus enrolls more than 1,400 high school students across the state in dual enrollment courses, allowing them to earn both LSU and high school credit at the same time.
- LSUHSC-NO employs over 180 physician faculty who are instrumental in treating the area's underserved community at Our Lady of the Lake and Woman's Hospital.
- Pennington Biomedical Research Center hosts educational health and wellness events such as the Irene W. Pennington Wellness Day for Women and the Parkinson's Conference.
- LSU AgCenter partners with the Sugar Cane League and USDA on numerous projects, including plant development, harvesting techniques, and soil fertility, to support the \$998.3 million industry.
- AgMagic at LSU AgCenter, held annually for the last 15 years at the Parker Coliseum on the flagship campus, brings school groups and the public together to experience agriculture, learning about where food and fiber comes from. This event reaches 10,000 to 12,000 individuals a year.

Notable LSU Achievements in Your Region

- LSUHSC-NO houses Louisiana's largest medical school and only dental school as well as the No. 4 nursing school in the nation.
- LSU Health Sciences Centers rank No. 5 nationally for keeping Louisiana students in state for medical studies and keeping physicians in Louisiana upon graduation.
- The LSUHSC-NO is home to eight Centers of Excellence, including the Alcohol and Drug Abuse Center, the Cardiovascular Center, the Epilepsy Center, the Eye Center, the Louisiana Vaccine Center, the Neuroscience Center, the Oral and Craniofacial Biology Center, and the Stanley S. Scott Cancer Center.
- LSU holds over \$30 million in grants aiding oil and gas discovery, extraction, processing, and storage and \$12 million related to biofuels produced in Louisiana.
- LSU holds more than \$8 million in research grants dedicated to protecting Louisiana's \$4.6 billion seafood industry.
- LSU holds more than \$65 million in research grants dedicated to protecting Louisiana's coast.
- LSU faculty from various fields are testing new, low-cost residential construction materials to protect the homes of low-income families in hurricane-prone coastal areas.
- Using advanced methods, LSU predicts how relative sea level rise, tides, wind waves, and hurricane storm surge affect flood maps and insurance rates and coastal development.
