SERVICE CHARGES

eSirius for Service Charges is a web-based tool for managing service charges for the Lab Animal Facility.

eSirius for Service Charges enables:

DATA ACCURACY

- Automatically pulls in service charges from the Vet Care application
- Allows creation of service groups and packages
- Program-specific services and rates can be created during setup
- Quickly and easily make adjustments to service charges
- Automatically bill service/supply groups or packages by category and billable item

DATA ACCESSIBILITY

- Run on-demand queries for current and historical service and supply requests/charges
