Typical CEO Definition

“Good business leaders create a vision, articulate the vision, passionately own the vision, and relentlessly drive it to completion...as a CEO the expectation is to primarily deliver long term, risk adjusted shareholder value.”

Jack Welch,
Ex-CEO,
General Electric
But a CEO’s Reputation Can’t Rely on Financial Results

“Reputation Institute’s statistical analysis suggests that some 35% of a CEO’s legacy can be explained by financial performance, with the remaining 65% by non-financial criteria.

A great CEO’s legacy is never as one-dimensional as the ledger.”

Dr. Charles Fombrun, How Do You Rank the World’s Best CEOs?, HBR 2015
Companies that prioritize CSR have a stronger corporate and CEO reputation than those who focus on financial metrics.
No Longer the Era of the Celebrity CEO

Celebrity CEOs focus on personal brand, populism, and character – these CEOs are used to predominantly focus on leading with products and innovation.
Headwinds are Changing CEO Expectations

There is a new era emerging in which the intangibles of reputation are driving political, social, and economic change and giving CEOs reason to reconsider their role.
2018: Increasing CEO Turnover

CEO turnover in 2018 is the highest it has been in 8 years – over 132 CEOs stepped down in January 2018.

In our data 4% of measured CEOs have been replaced.

As CEOs are before replaced, are companies hiring the right new CEOs?

New Definition of a CEO

“Society is demanding that companies, both public and private, serve a social purpose. To prosper over time, every company must not only deliver financial performance, but also show how it makes a positive contribution to society.”

Larry Fink,
Chairman and CEO, Blackrock
2018 Letter to CEO’s
New Era of CEO Activism

- Good leadership is linked with societal contribution and ethical and transparent behavior.
- The highest dimension lifts among those familiar with CEOs are in the key dimensions of citizenship and governance.
