3 cap options

High-end look

Fill the marketplace with e-juice packaging from Carow. Whether shopping for an economical solution or high-end look, Carow Packaging offers a variety of e-liquid systems. Just choose the following:

1. Dispensing format: pipette or e-liquid tip
2. Bottle type: Boston Round in cobalt, amber or flint for the pipette; PET or LDPE for e-liquid tip
3. Cap: regular, tamper-evident or push-turn/tamper-evident

You're done. Let Carow navigate it from here!

LDPE System Carow offers three systems to meet your e-juice refill packaging needs.

A soft, translucent, bottle with a long, thin tip makes for a squeezable and economical option.

- Bottle:** 10, 15 and 30ml standard
- Tip:** E-liquid dispensing tip
- Cap:** Regular, or certified child resistant

*Fillers are required by the CPSC to provide their own independent testing.

PET System

A clear PET bottle and a long, thin tip provide a squeezable yet professional look.

- Bottle:** 5, 10 and 15ml standard
- Tip:** E-liquid dispensing tip
- Cap:** Push-turn/tamper-evident

Glass System

A glass bottle and dropper pipette combine to make a high-end package with substantial hand feel.

- Bottle:** 5, 10, 15 and 30ml standard
Other sizes available
Amber, cobalt and flint
- Dropper:** Glass or plastic
- Cap:** Regular, tamper-evident, push-turn/tamper-evident
