What does the bottle neck have to do with ordering a pipette? **Everything.**

Dropper bottles feature a tamper-evident transfer ring.

Boston Round bottles do NOT have a tamper-evident transfer ring.

Dropper bottles offer:

Tamper-evident neck

One cap size for multiple capacities

Compatibility with EuroDrop®

Boston Round bottles offer:

Wide user acceptance

Readily available

Commodity pricing

Controlled dispensing any way you want it.

Glass, plastic, tamper-evident, child-resistant, markings, long or short. Carow Packaging has a vast selection of bulbs, caps and pipettes or can create a custom package to fit your needs.

Wide user acceptance of this style of dispensing makes dropper pipettes a practical choice. Pair with one of Carow Packaging's Boston Round or dropper bottles for a complete dispensing solution.

Domestic and Asian sourcing options make it easy to choose Carow Packaging for your dropper pipette needs.

See reverse side for dropper pipette options.
