## Content

Introduction...1 Included...1 Installation options...2 Setting up the ClareHome Touch Panel...3 Customizing the panel space...7 Warranty Information...7 Support...7

#### Last modified: 01/30/19

## Introduction

Thank you for choosing Clare Controls. In today's competitive marketplace, we can appreciate that you have many choices for your home automation needs.

This document is intended as a quick-start guide, not a full product guide. For more information, view the full <u>*ClareHome Touch Panel Release Notes* (DOC ID</u> <u>1775)</u>.

## Included

The following items are included with the ClareHome Touch Panel.

- 1 × Power supply
- 1 × Mounting bracket
- 1 xTabletop stand
- 2 × Stand grips
- 2 × Base grips
- 4 × Screws
- 4 × Wall anchors

## **Installation options**

Select an installation option.

#### Installation option 1: Desktop

Option 1 uses the included panel tabletop stand.

#### To desktop mount the panel:

1. Insert the kickstand to the rear of the panel. The stand pops into place, locking to the panel.

**Note:** There are 2 options for tabletop stand orientation. Each option results in a different viewing angle.

**Orientation 1:** Insert the stand into the panel with the tail facing down, creating a downward facing arc. This gives the panel a more forward-facing view, close to a 60° angle.

**Orientation 2:** Insert the stand into the panel with the tail facing upward, creating a curve upward. This gives the panel a more upward-facing view, close to a 30° angle.

2. Slide a stand grip onto each slot on the stand.

**(Optional)** To prevent the panel from sliding, attach the included non-slip base grips. Place one base grip on each corner of the panel.

- 3. Plug the included power supply into the rear of the Android panel.
- 4. Plug the opposite end of the power supply into an electrical outlet.

The tablet automatically powers up.

#### Installation option 2: Wall mounted

Option 2 requires the panel to be wall mounted. Use the included screws and metal plate to mount the panel flush with the wall.

#### To wall mount the panel:

- 1. Place the mounting bracket against the wall, ensuring that it is in the desired location and close to an outlet.
- 2. Using 2 of the included screws and a power drill, securely attach the bracket to the wall.
- 3. Plug the included power supply into the rear of the ClareHome panel.
- 4. Slide the panel onto the mounting bracket.
- 5. Plug the opposite end of the power supply into an electrical outlet.

The tablet automatically powers up.

# Setting up the ClareHome Touch Panel

Once the panel is installed, connect the panel to the home's Wi-Fi network.

To setup the panel:

- 1. Tap the screen.
  - or –

Press the power button on the right-side of the panel.

ClareHome loads and the Viewing full screen pop-up displays.

- 2. Tap GOT IT.
- 3. Tap **Allow** to ensure that ClareHome has access to the device's location. **Note:** ClareHome uses the location of the device for timers and events.

4. Tap **Change** to select your time zone.

5. Select your time zone.

You now have access to your project.

# **Customizing the panel space**

Once the panel is connected to the home's Wi-Fi network, customize your space.

To add smart icons to your panel's space:

- 1. Tap My Devices to view a list of all your devices categories.
- 2. Tap to select the device category, and then tap the **Plus**  $\bigcirc$  icon to add the desired device to your panel's space.

To add devices, configure Scenes, Schedules, Notifications, Automations, and configure other ClareHome settings, see the full <u>*ClareHome Touch Panel</u>* <u>*Release Notes* (DOC ID 1775)</u>.</u>

## Warranty Information
