**Gehan Homes Selects Clare As Their Smart Home & Security Partner**

*The Clare smart home & security platform will be installed in Gehan Homes.*

**Sarasota, FL, August 23, 2018** – Gehan Homes will be offering Clare as a base-standard feature in select communities, including some found in the Austin, Dallas-Fort Worth, Houston, San Antonio, and Phoenix areas.

“With all the smart home products available to today’s homeowner, it can be overwhelming for customers to discern what features are most used, which brands are most reliable, and what products are easily compatible. Gehan Homes invested considerable time and research to determine these features for our homebuyers to eliminate the guesswork in choosing home automation functionality.” Says Christina Lombardo, Marketing Director at Gehan Homes.

“We chose Clare products for their integration capabilities, ease-of-use, and reliability. Our partnership with Clare products allows our customers to have the best of safety, convenience, and energy-efficiency in one, easy-to-use system.” Said Lombardo.

Smart home technology of today is moving away from being a luxury-only experience. Massive investment from tech giants like Google, Amazon, Samsung, and others have sparked a race to find the perfect smart home formula that appeals to the homeowner; one that Clare has been perfecting and simplifying since 2009.

“We’re excited to increase the depth and breadth of our partnership with Gehan Homes,” Says Kristopher Sherman, VP of Sales at Clare Controls. “The Clare Smart and Secure offering will increase the value, safety, and enjoyment for Gehan homeowners for many years to come.”
