

The Incredible Radiant Keystone Series Pools

The Centerpiece
of Your Backyard!

Radiant
POOLS™

simply brilliant.

Come On In, the Water Feels Great!

Radiant Pools R-10 insulated walls resist heat loss more efficiently than any other type of pool wall. With a Radiant Pool and the use of a solar cover, heat gained from the sun is retained, enabling your pool to heat the water up faster and keep the water warmer longer, extending the swimming season by up to 2 months.

R-Value Comparison of Swimming Pool Wall Panel Materials

	R-Value at 2" Thickness	Thickness Needed for R-10 Insulating Value
Wood	2.50	6.99"
Aluminum	0	11,242"
Steel	0	2,297"
 Radiant Pools Insulated Panels	10	2"

R-Value is a measure of a material's resistance to heat flow. The higher the R-value of a material, the greater its insulating capability.

Energy-efficient insulated wall panels not only make the Radiant Pool more comfortable, it can yield long-term financial rewards in energy cost savings. For more details, ask your dealer for our Energy Savings Brochure.

Reduce the impact of your life and lifestyle on the health of the planet. And save money in the process. Install a Radiant Pool and

Make an investment that makes a difference.

There's no need to spend your hard earned money on gas when you can own the Energy Efficient Environmentally Smart Radiant Metric Pool. No travelling to the beach when you can vacation in your own backyard everyday. You save money, energy and emissions. It's an investment in your home and your life.

ENERGY STAR® helps people make smart choices that protect the environment while saving energy and money. Radiant Pools is the only pool manufacturer in the industry to become an ENERGY STAR® PARTNER. We are committed to promoting energy efficiency and the future of our planet.

Build Green, Everyone Profits!

Radiant Pools is also a proud member of the US Green Building Council, working to promote building materials and practices that are environmentally responsible and create healthy places to live and work.

All Radiant Pools are manufactured with Expanded Polystyrene insulation (EPS) bonded between layers of aluminum. EPS contains no ozone damaging CFC's or HCFC's and is 100% recyclable. Aluminum is the most commonly recycled post-consumer metal in the world.

Incredible Warranty

Radiant Pools offers a NON-PRORATED, FULLY TRANSFERABLE LIFETIME WARRANTY against manufacturing defects for as long as you own your pool. If the original purchaser should sell their pool, whether directly or through the sale of their home, the new owner is issued their own lifetime warranty certificate. This option adds value when you sell your home!

Compare our warranty to any other pool. You won't find another manufacturer who offers you this kind of confident warranty on their pool. We stand behind our product so that you can relax and enjoy your pool without worry.

With a Radiant Pool, you always get true value and real peace of mind.

Incredible Engineering

Wall Panel Cross Section
(actual size)

2" EPS Foam
Insulation

Acrylic Coated
Aluminum Panels

Taking from the same technology used to build airplanes and spacecraft, the Radiant Pool is a structural insulated panel constructed of an 2" EPS foam core bonded between two sheets of durable acrylic-coated aluminum that resists oxidation and corrosion. The exceptionally strong Radiant Pool offers superior insulation that keeps the water warm through solar energy.

This incredibly lightweight patented panel is easy to handle for quick installation. For greater structural integrity and long term value, a Radiant Pool is a wise backyard investment. It is simply brilliant.

Incredible Versatility

Today, residential lots offer many landscape challenges. With the superior wall construction of the Radiant Pool you have options. The incredible Keystone Series Pool can be installed all inground or semi-inground. Sloped terrain is no longer a problem.

A minimum of 26" of the pool wall must be below the ground. You can add a full deck and railing system to this amazing pool

and enjoy the look and feel of an inground pool for a fraction of the price. No other pool offers you this type of construction and versatility.

The Radiant Keystone Series Pool varied sizes and installation options allow it to comply with the requirements and restrictions of many homeowner's associations regarding swimming pools.

The Radiant Keystone Series Pool is available in 42", 48" and 52" wall heights with different shapes and sizes to fit your backyard style.
