Cloud native business intelligence

BI

Delivering superior metrics and deep insights into your data, by consolidating databases across all of your operations and converging them into one data warehouse. Visualize your total business KPI's with drill-down and drill-up capability.

Understand and visualize your data in multiple dimensions. Get insights across business segments and departments for a more comprehensive picture of what drives your organization.

xnBI:

- ▼ Mobile-ready business platform
- ▼ Scalable & flexible
- ▼ Draw relationships between your customers & operations
- ▼ Converge disparate systems to form one reporting platform
- ▼ Understand and apply your data
- ▼ Slice, filter, drill-down & visualize data into many dimensions
- ▼ Identify high & low value performers by customer type
- ▼ Single or multi-property deployment
- ▼ Leveraging Microsoft Power BI
- ▼ Web front-end

Business Intelligence

A cloud native business intelligence system for the accommodation, hospitality and food service industries, assisting small independents through to multi-region operations.

xnBI provides a single reporting and analytics platform across core segments of your business, to show you company-wide views and trends to enable quick and agile decision-making.

Visualize and analyze your data, be it historical, current, or future. Draw relationships between different business units to get a deeper insight of your metrics, be that customer and guest-centric, revenue and cost basis, or transactions and bookings.

xnBI supports effective decision-making through multi-dimensional reports and dashboards.

xnBI features:

- ▼ **Centralized | single site through to multi-property**
- ▼ **Multi-currency supported**
- ▼ **Advanced analytics and drill-down**
- ▼ **Runs on tablet, mobile and PC**
- ▼ **Further querying and analysis to Microsoft Excel**
- ▼ **Converge disparate systems to one common platform**
- ▼ **Multiple data sources (e.g. pms, pos, spa, finance, inventory, survey, etc.)**
- ▼ **Alerts, KPI's and exception reporting**
- ▼ **Analyze historical, curent and future data**
- ▼ **Learn cost and revenue trends and optimize your operations**
- ▼ **Leverage the xn Data Warehouse (xnDW)**

Scalable

xnBI's native architecture delivers a stable, high performing platform that scales from a small independent property to large multi-regional chains.

Unified

Designed with both single and multi-property environments in mind and can run across multiple operating systems, browsers and mobile devices.

Optimized

An unparalleled experience by enabling scheduled or on-demand reporting, exception reporting and alerts, drill down and up, revalue by different currencies, filter and segment, and much more.
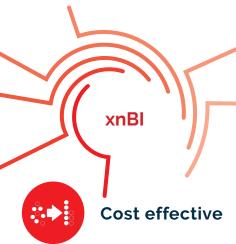

Data tells you a unique story, yours.

Cloud-based reporting, analytics, KPI's and insights on-demand.

Connected

Converge your data together in one central data warehouse (xnDW) to enable a single platform to report and analyze your data be that property management, point of sale, activity management, finance, and numerous other systems.

Simplified

Empowering you to discover insights hidden in your data. Find and share meaningful metrics and analytics with pre-built reports, dashboards and visualizations, built-in AI capabilities, tight Microsoft Excel and other integration. Be informed. Make faster decisions.

xnBI

Reliable

Built on Microsoft Power BI, an industry leading BI platform. Minimize data loss and enhance the quality and depth of your reporting, KPI's and analytics.

Cost effective

Significantly lower your reporting and application costs, by eliminating disparate systems, and enabling a single reporting platform, scaled to your needs.

xn protel

Xn protel Systems is a global hospitality management software company specialising in property management, central reservations, point of sale, business intelligence & activity management solutions. Our highly functional, cloud-native and open systems provide the latest technology and flexibility. They help world-class hospitality companies in over 50 countries to optimise revenue generation, simplify service operations and enhance the quality of guest communications.

Our next generation, global solutions are robust, highly scalable, feature-rich and backed by outstanding customer service and support. Our dedicated team of highly experienced hotel, hospitality and technology experts work hard to understand customers' needs and the issues they face. Located across our extensive network of offices in the UK, Asia, Australia and Middle East, our specialists provide the best advice, solutions and support to make sure customers meet the needs of local markets and achieve their business goals.

We are committed to:

Creating open systems: Working closely with our customers and partners we adopt industry standard protocols to break down traditional integration barriers. Creating truly open, flexible solutions that support guests' growing appetite to be more in control of their stay.

Developing cloud-native products. Our newest technologies are born in the cloud. That means our customers benefit from the latest innovations, can take full advantage of mobile and achieve a lower cost of ownership.

Being easy to do business with. We understand the frustration that comes with unresponsive and inflexible suppliers. We're not like that. And we don't take our customers for granted. A customer-centric approach is in our DNA, from preparing quotations through to resolving support calls.
