## Webinar: Driving Organizational Agility: PMO Leaders Rev Your Engines!

Watch this webinar on-demand to learn how to take the driver seat of your organization's business agility.

# TOM RAPER

---

## Director of Product Solutions @ KeyedIn Solutions

- Leads KeyedIn product solutions to help PMO leaders and project teams identify and solve business problems with innovative solutions
- Spent eleven years at Changepoint working with the Changepoint and Daptiv Solutions in Field Enablement, Product Management, and Customer Success teams
- Owner of Technical Consulting firm for thirteen years related to project accounting systems, infrastructure, and custom development efforts tied to those solutions.

# Agenda

---

-  Why Organizational Agility Matters
-  How the PMO can support this and where to focus efforts
-  3 key areas to improve PPM for greater Organizational Agility
-  Wrap Up / Q & A

# CHANCE

**Organizational Agility:** the ability for an organization to renew itself, adapt, change quickly, and succeed in a rapidly changing, ambiguous, turbulent environment

- Things change, people change, and needs change. Being agile and adaptable will differentiate those that succeed and those that don't.
- How you respond and meet needs in a "new normal" will shape your organization and your business for years to come.

# Does Organizational Agility Look Like This?

---

More agility means less stability (and vice-versa)

Aiming for a happy medium between the two

Teams dedicated to each effort (bi-modal)

# Bringing Stability and Agility Together

---

Stability as the foundation of agility

As each improves, the stronger the other becomes

Teams empowered to be agile *and* predictable

# Assess Your Organizational Agility

# So What's the Strategy Now?

How is our productivity going to be affected and what about our off-shore partners?

What should we delay or stop now ?  
What's the impact?

How much time are we going to lose with absences, can we claim it back?

How does operating remotely affect things?

What are the IT/Security risks of the new ways of working

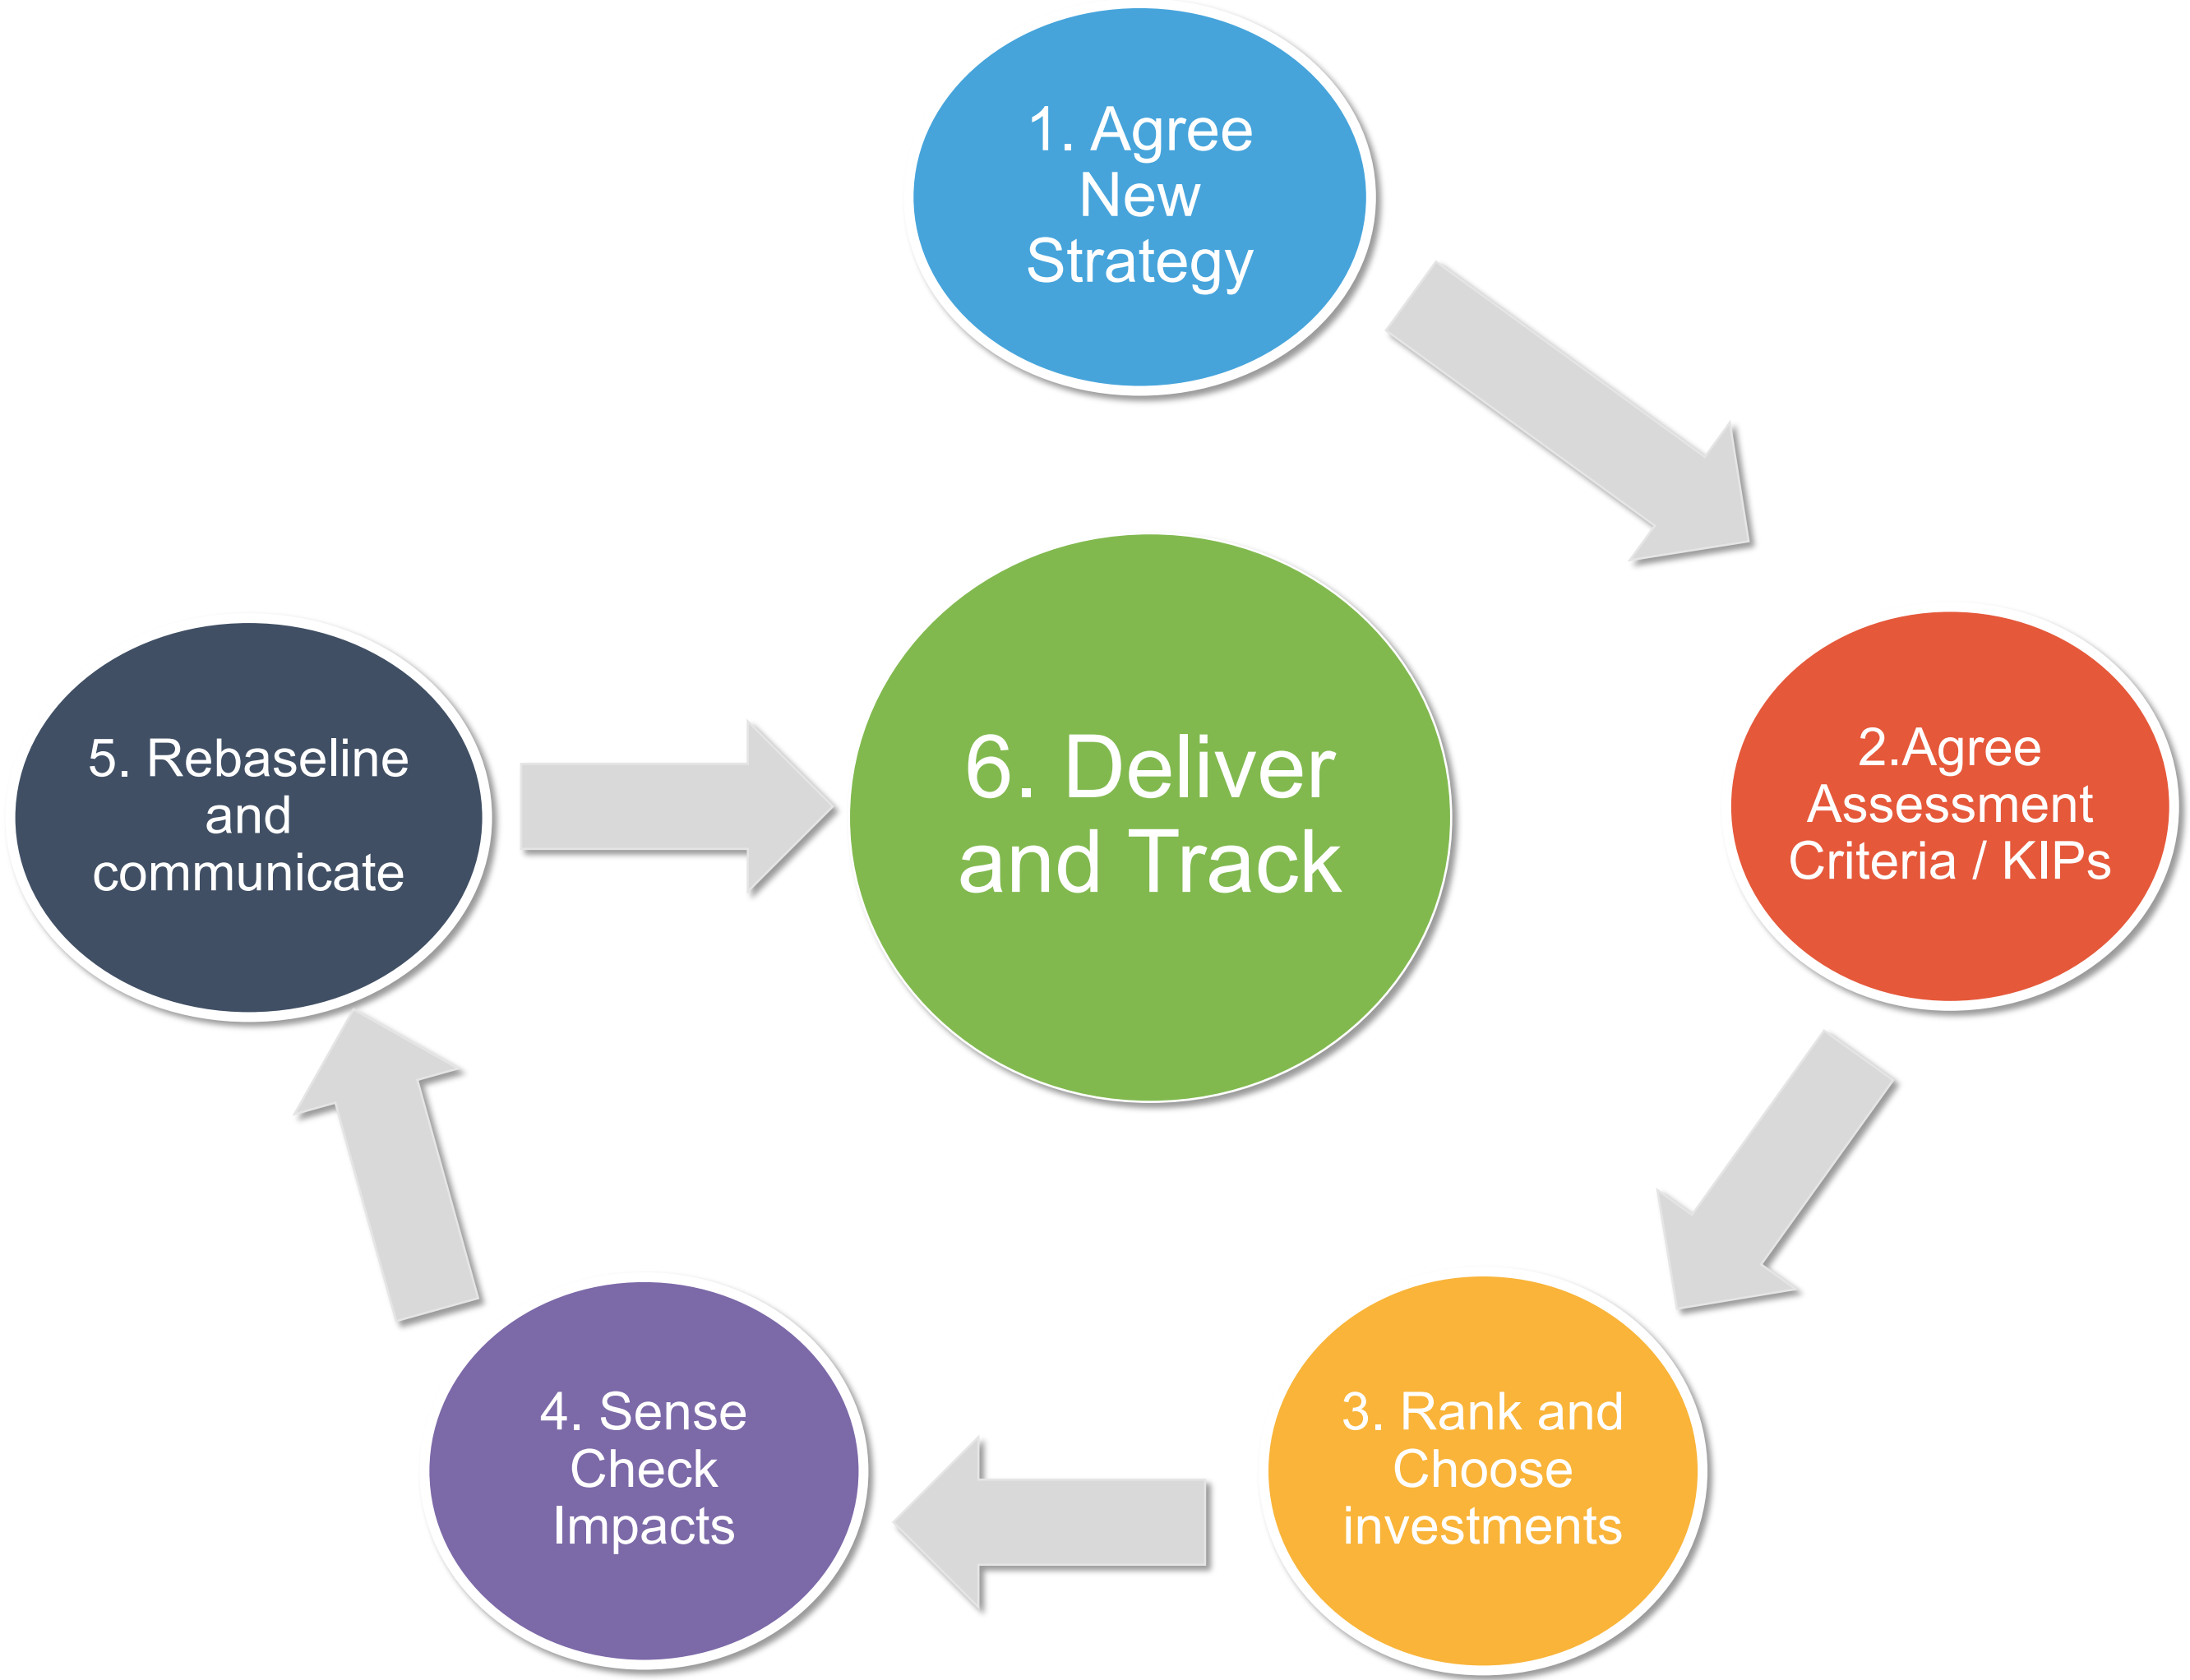

Which new projects should we be doing to respond to the challenges & Strategy

How well does our portfolio stack up against our new Strategy...?

What's the new budget?

What if it all changes again next month ?

# Key Steps to Reprioritize

1

**Agree New Strategy**

Review the current strategy and KPI's against the new reality.

2

**Agree Assessment Criteria / KPIs**

Establish Assessment Criteria linked to the new Strategy/KPIs.

3

**Rank and Choose Investments**

Rank investments against the new criteria and align to the target budget.

4

**Sense Check Impacts**

Capacity checks - Can we deliver it?  
Dependency checks - What else is impacted?

5

**Re-baseline and Communicate**

Communicate and align the organisation.

6

**Deliver and Track (ongoing)**

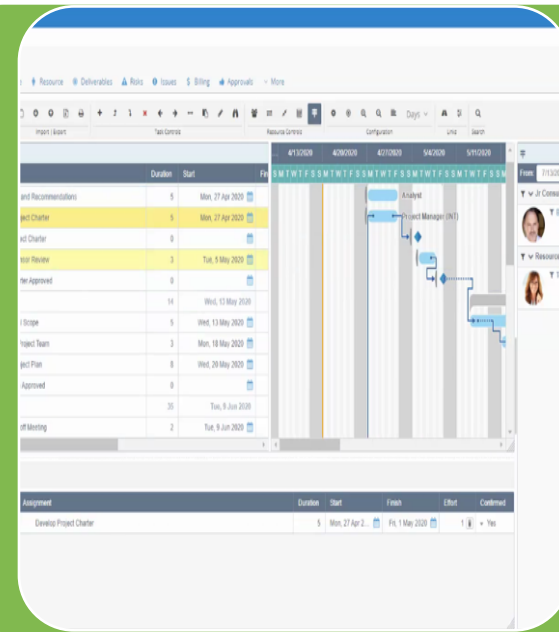

Control through visibility in a time of increased scrutiny.

# Leveraging PPM to Increase Agility

## Portfolio Management

- Prioritization
- What-If Scenarios

## Resource Management

- Agile Team Resourcing
- Analysis

## Communication

- Dashboards and Reporting
- Project Collaboration

# Portfolio Level Management

- **Funding the right projects**
  - KeyedIn project intake and scoring
- **Return expectations on the rise**
  - ROI reporting
- **Every project must align to business goals**
  - Value-based scoring and prioritization

# Agile Not Just in Projects

- **Ensure projects being funded have the right resources**
  - KeyedIn resource capacity planning
- **Make changes to resource plan mid-flight with the best possible course forward**
  - What-If scenarios and modeling
- **Predict constraints and make decisions**
  - Skills database and tracking

# Rapid Adjustments, Minimal Disruption

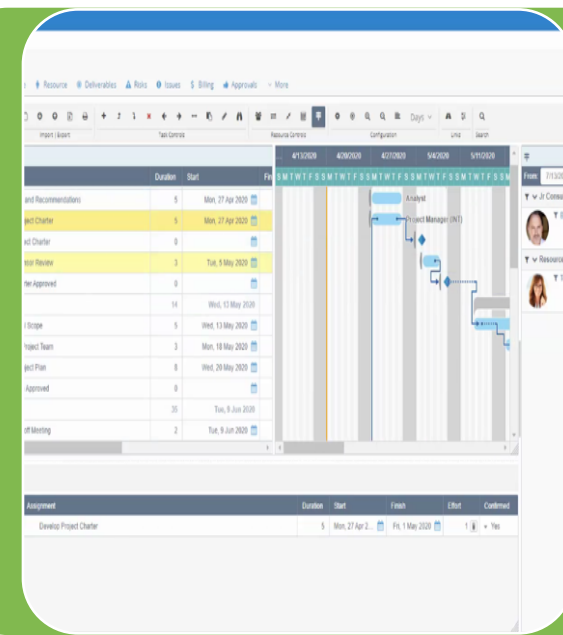

- **Decisions require visibility – the more information the better**
  - Dashboards and drill down information
- **Actionable Insights<sup>®</sup> and deployment**
  - Swift re-planning and required adjustments
- **Centralized Communication**
  - Project collaboration and data analysis

# Poll - Leveraging PPM to Increase Agility

## Portfolio Management

- Prioritization
- Analysis

## Resource Management

- Agile Team Resourcing
- What-If Scenarios

## Communication

- Dashboards and Reporting
- Project Collaboration

- Founded in 2011
- HQ is in Minneapolis, MN; offices in Manchester, UK, San Francisco, CA
- Serving 500+ global customers; 1 million users; NPS score: 9/10
- 2019 Gartner Peer Insight Customer Choice

CEO - LAURI KLAUS

**50%**  
**IMPROVEMENT**  
Speed of Reporting

**60%**  
**INCREASE**  
Forecast Accuracy

**50%**  
**SAVINGS**  
Project Management Cost

# Additional Resources
