M.a.R.S Program

Maintenance and Repair Services

Protect Your Investment & Extend the Life of Your Roof!

From the first day your roof is installed, it begins to age. Your roof's life cycle is influenced by weather, physical damage, foot traffic and neglect.

The National Roofing Contractors Association recommends periodic maintenance and repair be performed at least twice a year.

Regardless of roof type or condition, whether or not West Roofing Systems installed it, we can provide maintenance and repair services for all of a your roofing needs in a timely manner.

Metal Systems

Smooth BUR Systems

TPO Systems

Gravel BUR Systems

EPDM Systems

SPF Systems

Ongoing maintenance to your roof will yield long-term savings by extending the roof system's life.

The M.a.R.S. Program offers three levels to fit your roofing needs.

Level 1

- Visual Roof Inspection
- Cleaning of Drain Baskets and Gutters
- Roof Inspection Report

Level 2

All from Level 1 plus...

- Debris Removal
- Small General Repairs Performed
- Inspection Report for Larger Repairs
- All Seams & Flashings of Roof Top Units Inspected
- Leak Guarantee of no more than 3 visits* (*excluding larger repair areas*)

Level 3

All from Level 2 plus...

- All Visual Repairs Performed
- Completed Roof Inspection Report with New Roof Cost
- CAD Drawing of Roof
- All Seams & Flashings on Roof Inspected
- Infrared Roof Survey
- Leak Guarantee of no more than 5 visits*

**Guarantee extends beyond the initial repair work and covers the cost for 3-5 additional service visits.*
