## **SPECIFICATIONS GUIDE**

Effective February, 2018  
Supersedes all prior versions

## MORE HANDS-ON

Design is a process to be embraced, so dig deeper into what's next from Diamond®. Explore the thinking behind our new door styles. See how further expansions and continuous innovation help streamline your project and simplify your life. Ask questions. Then turn the answers over in your imagination. And when inspiration takes hold, don't let go. Because, like our cabinetry, ideas are what you make of them.

cabinetry by  
**Diamond**®

From Lap Pools to

Evans

**MEANT FOR EACH OTHER**

The best partnerships are those that happen naturally. A traditional raised-panel door, Evans is designed to effortlessly pair with Perkins, our new contemporary flat panel style we'll introduce to you shortly. And unlike its predecessor, its availability has been expanded to include more wood types. Complementary qualities that make Evans and company that much easier to sell and order.

**EVANS****SPEC BOOK PAGE 13**

Evans features a profiled, slab drawer front and is available in Maple, Cherry, Oak and Hickory.

**EVANS**

*Maple Sahara*

**LIFE IN TRANSITION**

Change is inescapable, so run with it. This is the idea behind Perkins, our newest flat panel door made readily available across multiple wood species. As with our aforementioned style option, it's designed to close the gap between past and present, while opening up many more simple, inspirational mix-and-match opportunities.

**PERKINS****SPEC BOOK PAGE 17**

Perkins features a profiled, slab drawer front and is available in Maple, Cherry, Oak and Hickory.

**PERKINS**

*Maple Sahara*

Kodiak & Grizzly

Antler

## KODIAK & GRIZZLY

### SPEC BOOK PAGE 23

As consumer preferences move from warm tones to cool neutrals, we pursued a premium process to arrive at showstoppers Kodiak and Grizzly. These new, richly-finished options, featuring deep browns with gray undertones, fill your need for more aggressive dark wood finishes. And they mix well with modern hues, while drawing out the inherent beauty and variation in wood grains across all types.

Kodiak and Grizzly are available on Maple, Cherry, Alder, Rustic Alder, Oak and Hickory.

**KODIAK**  
*Bailey Maple*

**GRIZZLY**  
*Bailey Maple*

## ANTLER

### SPEC BOOK PAGE 28

Presenting a sleek, vertical Beech wood grain appearance with tones ranging from warm whites to gray tans. Designed to enhance our modern Graniti slab door style, Antler provides a lighter color option and opens your design to a variety of cabinet frame and box color options, as well as premium trim items to complement your design. A light laminate has never felt more in its element.

Antler cabinet box color options include Cloud and White, and Morel on Cherry, Maple, Oak and Hickory.

**ANTLER**  
*Graniti Wood Grain Laminate*

Breman Maple Moonstone

## MATCHING LAMINATE ENDS FOR LAMBSWOOL AND MOONSTONE

SPEC BOOK PAGE 25

If you like the sound of reduced potential order errors and field installation costs, you'll love the sight of our two newest ways to create perfectly matched cabinetry ends.

**LAMBSWOOL**

*Julien Maple Door with  
Slab Drawer Front*

**MOONSTONE**

*Julien Maple Door with  
5-Piece Drawer Front*

## CUSTOM DOORS EXPANSION

### DOORSLAB

SPEC BOOK PAGE 539

We've opened our custom sized door program to include three modern slab styles. Doors arrive with hinge routing complete and ready for your specialized application.

**GRANITI**  
*Wharf Finish*

**TRANTER**  
*Obsidian Finish*

**WIXOM**  
*High Gloss White Finish*

## ENHANCED GUIDE FOR PULL-OUTS

SPEC BOOK PAGES 232, 328, 494

Four of your favorite pull-out cabinets have been upgraded to change the current side-mount guide to an undermount SmartStop guide. Not only will there be easier installation and adjustment in the field, but improved functionality as well. Includes Base Pantry Pull-out, Base Utensil Pantry Pull-out, Hearth Pier Pull-out, and Vanity Pull-out.

## SSO PROGRAM ENHANCEMENT

The Special Sales Order Program has been enhanced with the addition of SP. (Special Product) codes in 2020 to allow for easier ordering and tracking of SSO orders. Contact Customer Service for engineering approval and quote prior to placing order.

Ridgefield

Crandall

Monterey

**MORE EXPANSIONS, FEWER EXCEPTIONS**

To further streamline your sales and design process, we wanted to see how far we could go to simplify our door style selection. The result: Those options with limited availability were eliminated while styles most popular with consumers were given access to an expanded list of wood species. Mix and match. Done and done.

**RIDGEFIELD EXPANSION**

**SPEC BOOK PAGE 17**

Once available exclusively in Maple, this popular transitional style now includes your choice of Cherry and Oak wood types.

CHERRY OAK

**CRANDALL EXPANSION**

**SPEC BOOK PAGE 11**

Hickory, Alder and Rustic Alder species options offer more ways to put a modern spin on this popular door style. Also available in Maple, Cherry and Oak.

HICKORY ALDER RUSTIC ALDER

**MONTEREY EXPANSION**

**SPEC BOOK PAGE 16**

Introducing Oak into the current wood species options for Monterey, already in Maple and Cherry, means you have one fewer design obstacle to overcome.

OAK

Base Easy Reach Cabinet with Adjustable Shelves

## WALL BOX COLUMN PULL-OUTS IN NEW HEIGHTS

WBCPO.., WBCPO.. OL  
SPEC BOOK PAGES 186-188

When elbow room is at a premium, pull-outs prove highly effective at tucking away extra pantry items or a large spice collection. And where a standard 30" high option won't cut it, four taller size options, 33", 36", 39" and 42", help you rise to the challenge.

## BASE EASY REACH CONFIGURATION OPTIONS

BERAS..  
SPEC BOOK PAGE 300

Adjustable criss-cross design shelves accommodate taller items without sacrificing space or compelling you to put a Lazy Susan in the corner.

## TRAY DIVIDER AS AN ACCESSORY

TDKIT..  
SPEC BOOK PAGE 601

Any of the five available heights can be field-trimmed for a tailored fit, during or after install. The many choices are yours. Requires a full top. Standard construction is Natural Maple Laminate, while APC and WLI are also available.

## WALL BOX COLUMN PULL-OUT AND BASE CABINET TIERED DRAWER FOR K-CUP® STORAGE

WBCPOKCUP.., WBCPOKCUP..OL, B18KCUPL/R, 3DB18KCUP,  
4DB18KCUP

SPEC BOOK PAGES 190, 192, 242, 316, 320

Someone had to think up a more hospitable space for modern beverage stations and the requisite K-Cups® and drink accoutrement. So, we created two. A Wall Box Column Pull-out with available Overlay Filler options and a Tiered Drawer offer multiple dimension and configuration options to keep your countertops uncluttered and critical pick-me-ups conveniently within reach.

*K-Cup® is a registered trademark of Keurig Green Mountain, Inc.*

## BASE FOOD STORAGE ORGANIZER CABINET™

B..FSCOL/R

SPEC BOOK PAGE 268

What a great idea; a smarter container for food containers. This welcome advance in cabinetry storage provides greater visibility and access to both containers and lids. Plus, it comes in two convenient widths for more design flexibility—another common challenge, conquered.

## BASE WASTEBASKET EXPANSION

BWB152, BWB15FH2, BWB15FHRT2

SPEC BOOK PAGES 320-322

Twin 27-quart wastebaskets, available in three 15" wide configurations, make it easy to send trash and recycling packing, while pulling the most out of limited interior space.

## BASE CABINET WITH MIXER LIFT OFFERING SMART STOP FEATURE

B..FHMIXSC,MIXFHSC..

SPEC BOOK PAGE 276

Who knew baking could be so hard on your back? This smooth-gliding, soft-closing innovation eliminates the need for unnecessary bending, stooping and potentially dangerous lifting.

# PANTRY WALK-THROUGH CABINET

PWT..

SPEC BOOK PAGE 394

Tall cabinets feature full height doors and are built without backs or bottoms to create a walk-through design that matches your choice of cabinetry. So, rather than disrupt design continuity, create customized pantry doorways to serve as a cohesive element that enhances your room.

# SHIPLAP WOOD HOODS

JWHSIPSTR..., JWHSIPT..., JWHSIPCB

SPEC BOOK PAGES 214-216

Choose our Shiplap Straight or Tapered Hood to achieve the farmhouse look without incurring extra cost or complexity in sourcing the necessary materials. Both are compatible with all existing blowers and are available with or without matching corbels. Then pick one of three or four standard widths, and trim the height as you see fit.

## COVE CORBELS

CORBELCOVE..

SPEC BOOK PAGE 586

Cove Corbels in two sizes and five wood types support your design aspirations with the perfect balance of flexibility, reliability and affordability. The streamlined design pairs nicely with Shaker or transitional designs. Available in Maple, Alder, Cherry, Hickory and Oak.

## OVERLAY FILLERS COMPATIBLE WITH MODIFIED FULL OVERLAY DOORS

OL3..MFO, OL6..MFO

SPEC BOOK PAGES 529, 531

Clean lines are hallmarks of contemporary design. Consistently providing you with more options that are compatible with the MFO modification door heights and eliminate the need for field modification is classic Diamond.

## DRAWER BOX AND GUIDE IMPROVEMENTS

Smoother guides and wider boxes that extend beyond the face frame make our drawers that much sturdier to better handle the welcome increase in overall volume. More storage and better performance!

## WALL CABINET 24" AND 27" HEIGHT CHANGES

**SPEC BOOK PAGES 100-108**

A half-inch can make all the difference. By adjusting our 23.5" and 27.5" high Wall Cabinets to actual 24" and 27" heights, we eliminated the need to figure in size differences or use fillers when stacking. Wall Cabinets use the correct height dimension, while Tall Cabinets and Tall Panels with upper sections aligning with these Wall Cabinets use new nomenclature with "AH" for Aligned Height.

## NATURAL INTERIOR ON WHITE CABINETS

**SPEC BOOK PAGE 30**

As far as consumers are concerned, natural wood grain laminate interiors that prove equally durable and cleanable are the way to go. Still want white? Order it as a modification using the WLI modification with APC orders.

*Note: Change effective 4/9/2018.*

## MATCHING INTERIOR PLYWOOD FOR DECORATIVE DOORS IN 2020

For added convenience and fewer delays due to ordering errors, Matching Interior Plywood (MIP) will now be automatically selected in 2020 for Cut-for-Glass, Mullion and Aluminum Frame Doors. When MIP is not desired, simply choose the NOMIP option. Orders not created with 2020 are not affected.

## CUSTOM APPLIANCE CUT-OUTS ON NEW TALL OVEN CABINETS

ACS

SPEC BOOK PAGE 40

Site installers are in no hurry to incur the costs and inconvenience of cut-out errors. Custom cut-outs make the whole process—from order to install—considerably more straightforward, regardless of appliance choices. The smart choice was to make Appliance Cut-out Single available on new Narrow Stile Oven Cabinets with 1.5" wide frame stiles.

## DISCONTINUATIONS:

### Door Styles:

Bradshaw in Alder and Rustic Alder  
Covington in Oak  
Brighton in Oak

# DIAMOND® WARRANTY SHEET

---

## LIFETIME LIMITED WARRANTY

Diamond® Cabinetry warrants the original consumer purchaser for as long as they own their home that the Diamond Cabinetry products will be free from defects in material and workmanship under normal use. This warranty is only applicable to products used in residential applications within the United States and is not transferable to subsequent owners.

---

Should defects in material or workmanship exist during the applicable warranty period in any Diamond Cabinetry product, Diamond Cabinetry will elect at its discretion to either repair or replace the defective material or component, free of charge. This warranty covers only parts and materials of the products supplied by Diamond Cabinetry. Not covered under this warranty are counter tops, appliances, plumbing fixtures, etc. or the costs, including labor, to remove and reinstall materials and related components such as fittings, appliances, etc.

This warranty shall become void if the cabinets are in any way modified, improperly installed or damaged prior to or during the installation. Furthermore, this warranty will not apply to cabinets damaged by misuse, neglect, abuse, acts of God, exposure to moisture, exposure to extreme temperatures or the effects of normal wear and tear.

Natural woods may vary in color, characteristics and exhibit subtle changes as they age. For example, painted face frames may eventually have visible cracking around the joint area and cabinet colors may darken or lighten over time. Sunlight, smoke, household cleaners and other environmental conditions may also affect the color match over time. These variations are considered to be the nature of the material in relation to their environmental exposure and are not covered under this warranty.

Diamond Cabinetry reserves the right to alter design, specifications and material without obligation to make similar changes to products previously manufactured.

The repair(s) or replacement(s) are contingent upon the current product offerings of styles and construction options within the Diamond Cabinetry products at the time of the warranty claim. If a warranty claim is filed after a Diamond Cabinetry product becomes obsolete; Diamond Cabinetry reserves the right to honor the warranty in one of the following fashions:

1. To replace the affected component with a new component of the same style.
2. To replace the affected component and any other component(s) in the residential application to achieve a uniform appearance with a similar and comparable product style of the originally purchased style.

If components are replaced, Diamond Cabinetry cannot guarantee that the finish of these replacements will exactly match the finish and appearance of the components in the residential application. This is due to the changes that occur during the woods' natural aging process, affecting its color and grain.

THIS WARRANTY IS THE EXCLUSIVE WARRANTY OF DIAMOND CABINETRY AND IS IN LIEU OF AND DIAMOND CABINETRY DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

This warranty gives you specific legal rights and you may have other rights, which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

To obtain replacement(s) under this limited warranty, first contact your authorized Diamond Cabinetry dealer or distributor, who will arrange for inspection of the cabinet. A dated sales receipt as proof of purchase is required to obtain benefits from this warranty. If you have difficulty obtaining assistance, please write to:

MasterBrand Cabinets, Inc. Attn: Consumer Affairs, One MasterBrand Cabinets Drive, Jasper, IN 47546

# TERMS AND CONDITIONS

## DIAMOND® CABINETS LIFETIME LIMITED WARRANTY AND GENERAL INFORMATION

Prices and specifications in material, construction and design are subject to change without notice as conditions require, or as improvements are developed.

All orders are subject to credit approval.

To avoid errors, orders should be filled out on Diamond Cabinet forms.

**All cabinets are manufactured to individual order and cannot be cancelled or changed after manufacturing has begun. Cycle ship orders cannot be changed after the cut-off date.**

Returns will not be accepted without prior written authorization.

Diamond cabinets carry a Lifetime Limited Warranty. This limited warranty does not cover misuse\*, improper storage, improper installation, labor costs or defects incurred during installation, storage or transportation. We reserve the right to repair or replace any defective material after field inspection by our representative. For complete warranty details, please refer to the Diamond Warranty Document.

A product count and inspection must be performed before signing the Bill of Lading. Shortage, obvious damage and occurrences of mishandling must be noted on the Bill of Lading before it is signed. Replacement orders must then be made with Diamond Customer Service. A signed Bill of Lading with no notations will indicate a complete and damage free shipment.

Sales are only to approved, authorized accounts.

Please make reference to the cabinet selection guide for information pertaining to characteristics of wood. This information will tell you the reactions that natural woods might develop under certain conditions after product is finished.

### DISCONTINUED PRODUCT POLICY

60 days minimum notice to reps and customers announcing the discontinuation of a product line.

Product will no longer be available for order after the discontinuation date. Only warranty orders will be considered. Even with warranty orders we will have the option to replace customer's defective product with the same discontinued product they originally purchased, or replace all doors originally ordered with a current product that is similar in appearance.

## CHARACTERISTICS OF WOOD TYPES

No matter which species you choose for your new kitchen or bath cabinetry, please keep in mind that no two pieces of wood are exactly the same. Stains are likely to exaggerate the difference between open and closed grains and other markings in wood. Grain variation and color change should be expected. As hardwood ages, it will darken when exposed to different types of light. Color differences or changes in wood can also be caused by exposure to harsh chemicals, extreme heat or moisture. Additionally, wood species exhibit other defining characteristics, such as mineral deposits/streaks, knots, sap runs, pin holes and wormholes. These markings make the wood unique and contribute to its enduring beauty.

**Alder** has a straight fine textured grain similar to Cherry and Maple. Although classified as a hardwood, it is moderately light in weight and considerably softer than other species. Therefore, care must be taken as it will dent and mar easily. Alder may exhibit grain and color variations, sapwood can be distinguishable from the heartwood, tight pin knots are sometimes present.

**Cherry** is characterized by its red undertones, but may vary in color from white to a deep, rich brown. Cherry is a close-grained wood with fairly uniform texture, revealing pin knots and curly graining. All wood will age with time and the finish will darken. This is especially true for Cherry. This is a sought-after quality in Cherry cabinetry, and those who select it expect this evolution.

**Hickory** is a strong, heavy hardwood known for distinctive graining patterns. Contributing to its dramatic appearance is a wide variation in color and streaking, ranging from white to dark brown. This contrast in color can appear in a single door panel. Hickory also contains random knots and wormholes that further contribute to a varied appearance. These exaggerated characteristics are to be expected and are considered desirable in Hickory cabinetry.

**Maple** is a close-grained hardwood that is predominately white to creamy-white in color, with occasional reddish-brown tones. While Maple typically features uniform graining as compared to other wood species, characteristic markings may include fine brown lines, wavy or curly graining, bird pecks and mineral streaks. These traits are natural and serve to enhance Maple's natural beauty.

**Oak** is a strong, open-grained hardwood that ranges in color from white to pink and reddish tones. Streaks of green, yellow and even black may appear due to mineral deposits. Oak may also contain wormholes and wild, varying grain patterns. This distinct graining is considered a desirable quality.

**Rustic Alder** is characterized by its light brown and reddish undertones and may contain a variety of pin holes, open and closed knots of various sizes and colors, small cracks, bird pecks, mineral streaks, and grain variation. Some knots may have small holes through the panel. Larger holes will not be filled. In addition, the wood will contain color difference caused by variations in minerals found in the soil, creating visible mineral tracks.

**Sound Closed Knot** (not moveable) – Expected in Rustic Alder up to approximately 3" diameter.

**Sound Knot with Cracks** – Expect sound knots with open cracks up to approximately 1" in length.

**Open Knot** (through door) – Expected in Rustic Alder with open area up to approximately 3/4" diameter.

Note: 3/4" diameter is about the size of a penny. Holes created by open knots pass completely through the door and are desirable for this rustic look.

**Unsound Knot** (moveable core) – Not to be expected.

**Knot Cluster** (cluster of tight sound knots) – To be expected in Rustic Alder.

**Worm Holes/Pin Holes** (can go through door) – Can be expected on Rustic Alder up to approximately 1/4" diameter.

**Worm Tracks** – Can be expected on Rustic Alder in sizes up to approximately 1/8" wide by 8" long.

## CHARACTERISTICS OF GLAZING/PAINT

### Characteristics of Glazing

A professional layer of glaze can add another layer of beauty to your cabinets. First, our craftsmen apply a wood toner, which accentuates the grain's natural attributes. We then add the glaze, by hand, adding depth, dimension and an understated sheen that's guaranteed to endure.

### What to expect from glazed cabinetry...

- Glazing will range from a consistent, even appearance to varied coverage.
- You should expect the result to yield a subtle to dramatic look based on the complexity of a cabinet door's design, as glaze may collect in the corners and grooves.
- Printed materials and online, electronic presentations can only do so much. It's important to both see and touch actual finished samples to ensure your satisfaction.

### Characteristics of Paint or Opaque Finish

Paint may develop hairline cracks in the finish, most notable around the joints. This is a result of natural expansion and contraction of the genuine hardwoods used in the manufacturing of this product. Hairline cracks are not considered a defect in the cabinetry or finish.

## CHARACTERISTICS OF SPECIALTY LAMINATES

**Specialty Laminates** feature design leading, high definition wood grain or high gloss laminates on doors, drawer fronts, overlay fillers, and Premium trim items. The surfaces are laminate based materials with an integrated top coat that provides superior beauty, durability, and performance while meeting or exceeding all of the KCMA performance standards. The core panel material is made of MDF to ensure a consistent and stable product. Additional coordinating trim items in the cabinet box color are also available.

A heat shield is required to separate all laminate products from heat producing units to be in compliance with cabinet warranty.

## CHARACTERISTICS OF PURESTYLE™ & THERMOFOIL

**PureStyle™** is the process of wrapping durable laminate materials around door frames and select trim and premium mouldings resulting in products with crisp styling features and a surface that provides abrasion resistance and meets/exceeds all of the KCMA performance standards. PureStyle™ products are wrapped (versus form pressed onto a Medium Density Fiberboard (MDF) slab like thermofoil) and has a clear, integrated top coat for superior durability. The lineals and core panel material are made of MDF to ensure a consistent and stable product.

These doors offer the durability of a laminate and the beauty of paint and finished wood while bringing peace of mind to those who care about creating a better environment—both inside and outside of their homes.

Textured wood grain PureStyle™ doors feature design leading, high definition wood grain laminates on doors, drawer fronts, overlay fillers, and Premium trim items. The surfaces are laminate based materials with an integrated top coat that provides superior beauty, durability, and performance while meeting or exceeding all of the KCMA performance standards. The core panel material is made of MDF to ensure a consistent and stable product. Additional coordinating trim items in the cabinet box color are also available.

**Thermofoil** doors and drawer fronts feature a shaped MDF core covered with a seamless vinyl material on the face and edges, and a melamine layer on the back. The vinyl material is applied to the MDF with an adhesive, and heat and pressure are used to create a product with excellent wear and heat resistance properties.

## DIAMOND CABINETRY'S 12-STEP FINISHING PROCESS

- 1. Wood Selection** – The selection of the finest woods including Alder, Cherry, Hickory, Maple, Oak, and Rustic Alder is the essential first step of Diamond's 12-step finishing process.
- 2. Sanded to Perfection** – Our sanding utilizes a fine grit paper, both with and against the wood grain. This process is completed on a vacuum table, allowing for a wood surface that is free of dust particles.
- 3. Achieving Natural Wood Tone** – Toner is applied to selected finishes, enhancing the naturalistic wood appearance.
- 4. Stain Application** – A hand-sprayed deep penetrating stain is evenly applied to all surfaces for even coverage on all profiles.
- 5. Removal of Excess Stain** – The wood is hand-wiped to remove excess stain, emphasizing the cabinet's natural wood grain.
- 6. Catalyzed Sealer** – A tough, clear, catalyzed sealer is hand-sprayed on to protect the grain from moisture.
- 7. Drying Process** – For added durability, the sealed wood is oven cured to lock in the beauty of wood.
- 8. Hand-Sanded** – To achieve an ultra-smooth finish, we hand-sand the material one last time.
- 9. Dust Removal** – The resulting loose dust particles are removed from the surface of the wood.
- 10. Catalyzed Top-Coat** – A premium quality catalyzed clear top-coat is applied to protect the wood from environmental elements.
- 11. Final Top Coat Cure** – The top-coat is cured to guarantee the strongest, most beautiful finish.
- 12. Final Inspection** – This last inspection is very thorough, ensuring quality and beauty. Our gift to you is that every cabinet is crafted with care.

## HUMIDIFICATION

The natural response of wood to changes in humidity is much more dramatic than most people realize. Here is a table showing (a) how much a cabinet door panel is likely to shrink in a low humidity environment, (b) how much a cabinet door is likely to expand in excess humidity, and (c) the total potential range of dimension changes from a muggy summer to a cold dry winter.

### Total Potential Movement (inches) of solid wood panels

Species	Panel Dimension (inches)	(a) Winter	(b) Summer	(c) Annual Range
Alder/Rustic Alder	19.75	-0.27	0.25	0.52
Cherry	19.75	-0.26	0.25	0.51
Hickory	19.75	-0.34	0.31	0.65
Maple	19.75	-0.49	0.10	0.59
Oak	19.75	-0.32	0.31	0.63

Notice the annual dimension change for a solid wood panel can approach three-quarters of an inch! For this reason, cabinet doors are typically manufactured at a targeted range of 40% – 50% relative humidity. This usually works very well because even low humidity environments stay between 20% and 70% in normal years with typical cooking and washing activities.

In extremely cold, dry winters, some doors can be exposed to conditions that are below 20% relative humidity for weeks at a time. Exposure to sustained conditions such as these would cause panels to shrink and will not be considered defective. New construction intensifies this issue since the heat is on but no one is living in the home to raise the humidity levels. Conversely, where in-home humidity exceeds 70% relative humidity for extended periods of time, panels will swell and this will not be considered defective.

### Steps Consumers Can Take To Protect Real Wood Furnishings

- **Keep an eye on the humidity inside the home.** Reasonably accurate digital thermometers-hygrometer units are available to measure humidity.
- **Maintain the humidity at or above 20% when the temperature is below 20°F and over 35% when the temperature is above 20°F.** Some ways this may be accomplished are installing a whole-house humidifier on the furnace, running a portable humidifier in key rooms, or placing pans of water near the heat registers.
- **Don't over-do it.** Significant condensation on windows is a sign the humidity levels are too high for outside temperature conditions.
- **Recognize that finished wood responds to humidity over several days to several weeks.** It takes time before the wood returns to normal after any correction to the environment.

### WOOD DUST WARNING:

When cutting, sanding, sawing, or shaping cabinets or wood products, you are likely to generate wood dust. For your own safety, we recommend that you wear a protective mask to prevent breathing wood dust. We also recommend eye protection to avoid injury by flying wood chips or sawdust during cabinet installation.

### CARB COMPLIANCE:

Diamond is committed to offering solutions that meet or exceed air emissions rules and regulations. All composite wood products used in the construction of our cabinets for end panels, shelves, tops, bottoms, backs, toe-kicks, and corner blocks are compliant with the California Air Resources Board (CARB) regulations for formaldehyde emissions.

## DOOR STYLE SPECIFICATIONS

### Arch/Cathedral

- 9" wide wall cabinets will come in Arch or Cathedral if an Arch or Cathedral door style is selected.
- Base cabinets ordered in Arch/Cathedral will have Square doors.

### Cherry

- When Cherry door styles are ordered, it is recommended to apply a finished end option or a veneer end panel for exposed ends due to the natural aging of Cherry.

### Maple

- When an Opaque finish or an Opaque Glaze finish is specified, the door and/or drawer front center panel may be constructed of Medium Density Fiberboard (MDF), except when LaGrange or Liberty styles, or when Distressing or Heirlooming are specified. MDF provides a smoother finish when painted, and is more resistant to warping, expansion, and contraction.

### Rustic Alder

- See trim section for availability of Rustic characteristics on trim items.

### All Door Styles

- All doors and drawer fronts are 3/4" thick unless otherwise noted.

### Door and Drawer Front Side Profiles

- Veneer and MDF components are shown with grey shading on side profiles. Solid wood components do not have shading.

### Wood Grain

- Shaker door styles (Liberty and Montgomery) have a vertical grain direction on the drawer front center panel.
- Graniti drawer fronts have vertical grain.
- See reference images for wood grain direction on all other door styles.

## PREMIUM COLOR PALETTE

	OPTION NAME	DESCRIPTION/LIMITATIONS	MATCHING LAMINATE ENDS <sup>▲</sup>	DISTRESSING AVAILABILITY	HEIRLOOMING AVAILABILITY
Wood Tone Stains	<b>Grizzly</b> 	A deep brown finish with grey undertones and beautiful depth.	✓	✓	N/A
	<b>Kodiak</b> 	A dark brown finish with grey and yellow undertones and a deep, rich hue.	✓	✓	N/A
	<b>Storm</b>	A semi translucent stone grey finish that allows the natural tones and characteristics of the wood to show through.	N/A	✓	✓
Wood Tone Glazes	<b>Black Forest</b>	A two tone finish. A medium toned finish that is highlighted with a dark glaze.	✓	✓	N/A
	<b>Coffee</b>	A two tone finish. Dark glaze over a warmer toner that emulates a soft, old-world look and enhances the door profiles.	✓	✓	N/A
	<b>Palomino</b>	A two tone finish. A light toned finish that is highlighted with a dark espresso glaze. The glaze is meant to be seen primarily in the profiled areas and has minimal affect to the overall color.	✓	✓	N/A
	<b>Whiskey Black</b>	A warm finish with a rich dark patina to create a true reproduction of a period style antique.	✓	✓	N/A
Opques*	<b>Black</b>	An opaque black finish which embodies a consistently dark and cool hue.	N/A	✓	✓
	<b>Cloud</b>	A cool grey opaque finish.	✓	✓	N/A
	<b>Coconut</b>	A warm white opaque finish.	✓	N/A	N/A
	<b>Dover</b>	A clean and inviting opaque white color with the slightest hint of a grey undertone.	✓	N/A	N/A
	<b>Egret</b>	A darker, off-white finish on the cooler grey side.	✓	✓	N/A
	<b>Forest Floor</b>	A rich brown opaque finish reminiscent of its name.	N/A	✓	✓
	<b>Juniper Berry</b>	A pale antique blue opaque finish.	N/A	✓	✓
	<b>Lambswool</b>	A light, neutral toned khaki opaque.	✓	✓	N/A
	<b>Maritime</b>	A dark, navy tone opaque.	N/A	✓	✓
	<b>Moonstone</b>	A mid-grey opaque with cool, pale-blue undertones.	✓	✓	✓
	<b>Pearl</b>	A subtle creamy white color.	✓	N/A	N/A
	<b>Seaside</b>	A turquoise blue opaque.	N/A	✓	✓
	<b>White</b>	A subtle white color.	✓	N/A	N/A
Opaque Glazes*	<b>Amaretto Crème</b>	When glaze is applied, the opaque (Cloud, Coconut, Dover, Egret, Lambswool, Maritime, Moonstone, or Pearl) is highlighted with a dark brown glaze.	✓	✓	✓***
	<b>Grey Stone</b>	When glaze is applied, the opaque (Cloud, Coconut, Dover, Egret, Lambswool, Maritime, or Pearl) is highlighted with a grey glaze.	✓	✓	✓***
	<b>Oasis</b>	A two toned finish, applying a turquoise blue opaque finish enhanced with a coffee colored glaze. The glaze accents the profiles and accentuates the overall color of the door.	N/A	✓	✓
	<b>Tidal Mist</b>	A two tone finish, applying a pale antique blue opaque finish enhanced with a light brown glaze to create a shadowing effect. The glaze accents the profiles and accentuates the overall color of the door to emphasize the highs and lows.	N/A	✓	✓
	<b>Toasted Almond</b>	When glaze is applied, the opaque (Cloud, Coconut, Dover, Egret, Lambswool, Maritime, Moonstone, or Pearl) is highlighted with a medium brown glaze.	✓	✓	✓***

<sup>▲</sup>In Distinction construction, cabinets will have matching laminate ends. Where not available, ends will be Natural Maple laminate and a finished end treatment would be needed for an exposed end.

\*On wood products, normal movement is typical due to change in climatic conditions. This will cause hairline cracks at stile, rail and panel joints. This hairline cracking is a normal characteristic of opaque or painted finishes and will not be considered a reason for product replacement. Finish agreement required, see page 430.

\*\*\*Available on Maritime and Moonstone only.

UNFINISHED				
	OPTION NAME	DESCRIPTION/LIMITATIONS	DISTRESSING AVAILABILITY	HEIRLOOMING AVAILABILITY
Standard Finish	Unfinished	Must upgrade to PE or APC. When cabinets are finished by an outside source, finish is not covered under warranty. Interiors of cabinets will be Natural Maple laminate for PE and clear coated hardwood veneer for APC. For finishable interiors, MIP must be specified.	✓	N/A

FINISH TECHNIQUES		
	OPTION NAME	DESCRIPTION
Techniques	Distressing	Provides a rustic look through the carefully crafted application of distressing characteristics such as dents, wormholes, chisel marks, and other signs of wear on solid wood doors, drawer fronts, face frames, and <b>selected</b> trim items (veneer parts will not be distressed). The distressing technique creates a finish with unique and appealing imperfections, similar to those of time-worn antiques. Distressing characteristics are more visible with glaze finishes (face frames and trim items without detailed profiles will not feature glaze hang-up on distressed areas). Not available to order with Coconut, Dover, Pearl, and White.
	Heirloom	Available on select finishes. The finish will be sanded through the base coat to expose the surface of the wood. This type of sand through on the edges and profiles creates a naturally worn appearance. If a finish is chosen with a glaze, the glaze will be applied after the sanding has been done. This will enhance those areas of exposed wood to take on the darker characteristic of the applied glaze. Not available on Bailey, Monterey, and Trystan.  Select trim pieces will feature Heirloom characteristics. See Trim section for availability.

Cherry laminate sides are intentionally 15-20% darker than face frames and doors at the time of manufacture to compensate for the expected darkening of face frames, doors, etc., as they are exposed to natural sunlight.

▲In Distinction construction, cabinets will have matching laminate ends to match the cabinet box color. Where not available, ends will be Natural Maple laminate and a finished end treatment would be needed for an exposed end.

## THINGS TO REMEMBER ABOUT FINISHED ENDS AND CABINET INTERIOR FINISHES

On cabinets with PLYWOOD ENDS (PE) or ALL PLYWOOD CONSTRUCTION (APC) modifications, cabinet sides are plywood with an unfinished veneer exterior. You can finish the exposed ends in your kitchen with one of several decorative options, as follows:

1. Leave the ends UNFINISHED if the cabinets are installed against each other or against the wall.
2. Purchase a 1/4" VENEER SKIN for field installation. This brings the cabinet side flush with the face frame.
3. Specify FURNITURE FINISHED PLYWOOD ENDS (FPEB). See page 34 for details.
4. Specify AUTHENTIC ENDS (AUTHL or AUTHR) or Face Frame and Door on End (FFDL or FFDR). See page 34 for details.
5. Specify cabinets with FINISHED ENDS (FB), factory installed. Both ends of the cabinet use 1/2" plywood veneer panel that is factory finished on the exterior to match the door and frame.
6. Purchase Wall, Base or Tall END DECORATIVE DOOR PANELS (WED, BED, TED). These are a skin and a door that can be attached to finish the exposed end. This will extend the total cabinet run by the thickness of the door.
7. Purchase a Wall MESSAGE CENTER. This will extend the cabinet run by the thickness of the panel or storage shelf.
8. Cabinets specified with MIP have matching veneer interior and exterior. Some cabinets are provided with standard MIP construction, such as:

Wine Rack Cabinets	BOC, BOD - Base Open Cabinets
Wall China Display Cabinets	WOC - Wall Open Cabinets
CPU Base Cabinet	Bookcase Cabinets
9. All Wall Organizer and Wall/Base Spice Drawer Cabinets are frameless doweled construction and feature 3/4" furniture board with matching finished veneer interior and exterior.

## CONSTRUCTION FEATURES

	DISTINCTION (DST)	PLYWOOD ENDS (PE)*	ALL PLYWOOD CONSTRUCTION (APC)*
<b>Doors &amp; Drawer Fronts</b>	See "Door Styles" pages 8-21 for door and drawer front configuration and construction details.		
<b>Face Frames</b>	3/4" solid hardwood.		
<b>I-Beam Braces</b>	1/2" furniture board dadoed into face frame, end panels and back panels.		Plywood dadoed into face frame, end panels and back panels.
<b>Cabinet Sides</b>	1/2" furniture board with Natural Maple interiors. Exteriors are laminate that match the color of the face frame, with exception of Black, Forest Floor, Juniper Berry, Maritime, Oasis, Seal, Seaside, Storm, and Tidal Mist.	1/2" unfinished veneer plywood with Natural Maple interiors.	1/2" unfinished plywood with clear coated hardwood veneer interior.**▲
	Optional Furniture Finished Plywood Ends (FPEB) modification: Cabinets will have 3/4" finished veneer end panels to achieve a Furniture End appearance. See page 34 for more details.		
<b>Cabinet Tops &amp; Bottoms</b>	1/2" furniture board with Natural Maple interior and exterior surfaces.		1/2" plywood with clear coated hardwood veneer interior and exterior.**▲
<b>Cabinet Backs</b>	3/8" furniture board with Natural Maple interior. Base cabinets have 3mm system holes for easy drawer and tray installation.		3/8" plywood with clear coated hardwood veneer interior.**▲ Base cabinets have 3mm system holes for easy drawer and tray installation.
<b>Adjustable Shelves</b>	3/4" furniture board with Natural Maple to match interiors. Shelves are adjustable in wall and base cabinets unless otherwise noted.		3/4" plywood with clear coated hardwood veneer to match interiors.** Shelves are adjustable in wall and base cabinets.
<b>Finish</b>	Multi-step finishing process where the finished components are sanded, stained, and sealed before a catalyzed top coat is applied.		
<b>Hinges</b>	<b>Smart Stop™</b> fully concealed, integrated cup hinge with self-closing feature; 6-way adjustable. Hinge features deactivation option. Some cabinets utilize a 170° or 107° 4-way adjustable hinge. See page 418 for details.		
<b>Drawer Box and Roll Tray Construction</b>	All Styles: Four-sided clear coated hardwood. Corners are dovetailed and glued. Drawer bottom is 5.2mm laminated plywood fully captured in box sides, front and back.		
<b>Drawer and Roll Tray Guide</b>	Double fully concealed, ball bearing, self-aligning, full extension guide with <b>Smart Stop™ self-closing mechanism</b> and fast clip removal system. Smart Stop engages when the drawer or roll tray is approximately 2" from closing, applying resistance to the self-closing mechanism. Optional (Roll Trays): EasyTrax™ (ET) height adjustment system. All guides have a maximum weight capacity of 90 lbs. Drawers and roll trays have a maximum weight capacity of 15 lbs. per square foot.		
<b>Toekick</b>	Unfinished furniture board toekick to allow application of finished toeboard materials. A variety of laminate and wood toeboard skins and baseboard mouldings available in 8' lengths; see ACCESSORIES section. When APC is selected, toekick will be plywood.		
<b>Warranty</b>	Lifetime limited warranty. Please see written warranty for detailed information.		
<b>Interior Cabinet Components</b>	A few interior components are manufactured from laminated furniture board because they provide for the most durable, aesthetic application. Some examples include the BCFW48SP (swing-out shelf), SLS33/36 (fixed shelf), and PY18/36 (swing-out and door mounted racks).		

### DISTINCTION CABINET CONSTRUCTION

See page 31 for Plywood Ends and All Plywood Construction.

### DISTINCTION DRAWER CONSTRUCTION

See page 31 for Plywood Ends and All Plywood Construction.

\*All plywood components meet ANSI/HPVA HP-1 standards and may contain MDF or particleboard.

\*\*White Laminate Interior (WLI) modification is available on White cabinets to replace the clear coated hardwood veneer with White laminate.

▲ Cabinets with limited interior visibility, such as Drawer Bases (2DB., 3DB., 4DB.), appliance cabinets without doors, and others may have a laminated plywood cabinet interior.

Orders for cabinets with non-compatible modifications will not be processed. Please contact customer service for more details.  
 ✓Represents compatible modification(s) and upgrade(s).  
 \*When a cabinet is specified with FPEB in a design where PE has been selected for the entire kitchen (through Styles & Pricing Tab and Construction Options menu), use Attachments to specify PE for all other cabinets instead of selecting it for the entire kitchen.  
 \*\*AUTHL compatible with FDDR, and AUTHR compatible with FDDL.  
 †DFF5PC, DFR5PC, DFSLB, and DPSRR only available on selected door styles. See pages 8-21 for availability.  
 ‡INVFRR not compatible with RT on utility cabinets.

## DRAWER AND DOOR OPTIONS

See page 30 for modification compatibility. Requests for non-published modifications may be treated as a Special Sales Order which will require feasibility, leadtime review and approval. Please check with your customer service representative before placing your order.

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS
<b>Door Panel - Solid Reverse Raised (DPSRR)</b>	Most cabinets and panels with doors. Available on Montgomery only.	Replaces Montgomery veneer flat door center panel with a solid reverse raised center panel. Drawer fronts are not affected by this door option.
<b>Modified Full Overlay (MFO)</b>	Most wall and tall cabinets and some panels with doors	Reduces the size of a Full Overlay door by 3/4" allowing for a top face frame reveal of 1" to allow for face mount moulding application. Overlay Fillers are available in MFO heights to align with doors, see pages 342 and 344 for OL..MFO. Not compatible with Add Toekick modification. When Authentic End(s) are ordered in conjunction with Modified Full Overlay, the Authentic End will match the face frame reveal. Not available on Aluminum Frame Doors. Not available on Catalina, Graniti, Tranter, Trystan, Wixom, Worthen and partial overlay styles. Not available on Selena mullion doors.
<b>Scooped Drawer (SCPDRW) (SCPDRWB) (SCPDRWL) (SCPDRWR)</b>	Most base cabinets	Replaces top drawer box with a 2" high drawer box to allow for clearance of cooktops, etc. Only top drawer will be modified when specified on drawer bases. On base cabinets with two top drawers, L, R, or B must be specified. Increases clearance for cooktops from 2" to 3 3/8". When SCPDRW is selected on 2DB18-2DB42, top drawer will utilize a 6 3/8" high drawer box, creating a clearance of 6 5/8" for the cooktop. Not available on Worthen.

### DOOR PANEL - SOLID REVERSE RAISED (DPSRR)

### MODIFIED FULL OVERLAY (MFO)

### SCOOPED DRAWER (SCPDRW/SCPDRWB/SCPDRWL/SCPDRWR)

## END PANEL MODIFICATIONS

See page 30 for modification compatibility. Requests for non-published modifications may be treated as a Special Sales Order which will require feasibility, leadtime review and approval. Please check with your customer service representative before placing your order.

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS
<b>Authentic Ends (AUTHL) (AUTHR)</b>	Most wall, base, tall, and vanity cabinets	<p>Modifies cabinet end panel(s) with applied decorative door(s) onto FPEB upgraded end panel(s).</p> <p>Includes FPEB modification — If AUTHL or AUTHR upgrades are specified, the opposite end panel is also FPEB.</p> <p>Available on most cabinets with depths of 9", 12", 15", 18", 21", 24" and 27". Custom doors must be specified for other depths not listed. 9" depth available on cabinets 30" high or taller.</p> <p>12" and 15" high wall cabinets will have double door configuration on 21" and 24" deep applications.</p> <p>For tall cabinets, non-miter doors have two panels on the bottom door.</p> <p>Decorative door for wall and tall cabinets will match style chosen on order, i.e., arch, cathedral or square.</p> <p>27" deep cabinets will have double door configuration. Office base cabinets (29" high) will have double door configuration when specified on 24" deep cabinets.</p>
<b>Face Frame and Door on End (FFDL) (FFDR)</b>	Most wall, base, tall, and vanity cabinets	<p>Creates a working door on the end of the specified cabinet. Opposite end panel will be FPEB.</p> <p>Side cabinet configuration will match front configuration.</p> <p>On Base and Tall cabinets, recessed toe space is standard on the side specified with FFDR or FFDL (if any flush toekick modification is specified, FFD side of cabinet will also be flush). 12" deep cabinets specified with FFDL or FFDR and FTKAV or FTKFV will receive a standard flush toekick.</p> <p>Full depth shelves standard. Glass shelves not compatible with the FFD modification.</p> <p>Doors will always be hinged on the back of the cabinet. Option not available on both ends of cabinet. Not available on peninsula cabinets.</p> <p>Available on cabinets in depths of 12", 15", 18", 21", and 24".</p> <p>If glass is specified, the FFD door will also be glass. When ordered with MD on 12" deep cabinets, the FFD door will be Cut for Glass.</p>
<b>Finished Ends (FB)</b>	Cabinets with PE or APC modification; both ends will be finished	Creates a matching finished 1/2" veneer plywood exterior.
<b>Furniture Finished Plywood* Ends (FPEB)</b>	Most wall, base, tall, office, and vanity cabinets	Replaces standard cabinet ends with 3/4" finished veneer end panels to achieve a Furniture End appearance. Both exterior sides are finished. Includes PE upgrade and standard laminate interior. Order APC for clear coated hardwood veneer interior. Matching Interior Plywood (MIP) is available. Not available with extended stiles or on cabinets with frameless construction.

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS
<b>Increased Depth (ID)</b>	Most wall and vanity cabinets	Increases the depth of wall and vanity cabinets in 1" increments to a maximum depth of 24". Increased depth wall cabinets should be either floor mounted or stacked to maintain stability. Any specified shelving is included and is always full depth. Wall peninsula cabinets may be increased in 1" increments to 18" maximum.
	Most base, tall, and vanity cabinets without drawers or roll trays	Increases the depth of base, tall, and vanity cabinets without drawers or roll trays in 1" increments to 27". When depth beyond 24" is desired on tall cabinets, the 24" deep cabinet must be modified. Any specified shelving is included and is always full depth.
	Oven Cabinets	Increases the depth of oven cabinets in 1" increments to a maximum depth of 27". When oven cabinets with drawers are increased, drawer depth will not change. Any specified shelving is included and is always full depth.
	End panels	Increases the depth of end panels in 1" increments to a maximum depth of 36". 31"-36" depths available on plywood panels only. AEL/AER panels are only available in 3" increments up to a maximum depth of 36".
<b>Reduced Depth (RD)</b>	Most base, tall, and vanity cabinets with drawers or roll trays	Reduces the depth in 1" increments to a minimum depth of 12". Any specified shelving is included and is always full depth. The dimension is specified as the distance from the front of the face frame to the back of the cabinet.
	Most base, tall, and vanity cabinets without drawers or roll trays	Reduces the depth in 1" increments to a minimum depth of 6". If reduced depth to 8" or less, toekick will not be included. Any specified shelving is included and is always full depth. The dimension is specified as the distance from the front of the face frame to the back of the cabinet.
	Most wall cabinets	Reduces the depth in 1" increments to a minimum depth of 6". Any specified shelving is included and is always full depth. The dimension is specified as the distance from the front of the face frame to the back of the cabinet. Wall top hinge cabinets can only be reduced to 9" depth minimum.
	End panels	Reduces the depth in 1" increments to a minimum depth of 6".
	Roll tray kits	Reduces the depth in 1" increments to fit a minimum cabinet depth of 12".

See page 30 for modification compatibility. Requests for non-published modifications may be treated as a Special Sales Order which will require feasibility, leadtime review and approval. Please check with your customer service representative before placing your order.

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS
<b>Add Toekick (ADDTK)</b>	Most wall cabinets	<p>Creates a 4 1/2" toekick on the front of cabinet. Cabinet top changes to use I-Beam construction when ADDTK is selected. ADDTK with reduced depth is available on cabinets 9" deep or larger.</p> <p>Peninsula cabinets are available with ADDTK 15" deep and larger. Depths of 14" and less will not have ADDTK available.</p> <p>Furniture drawers will be available with ADDTK option down to a reduced depth of 12".</p> <p>All cabinets will feature square doors to match cabinets on order. If arch door style is ordered, 20/20 layout will show arch doors, however, square doors will be sent.</p> <p>Available with compatible toekick modifications. See the Modification/Upgrade Compatibility Chart on page 30 for details.</p>
<b>Flush Toekick (FTK) (FTK.FNT.P) (FTK.P)</b>	Most base, tall, and vanity cabinets, and wall cabinets with ADDTK	<p>Extends the face frame to the floor eliminating the toe space. Not available when either RECTKL or RECTKR modifications are used. Not available on 93" or 96" tall cabinets due to separate pedestal base toekick.</p> <p>When FTK is ordered with the Peninsula modification, only the working drawer side will receive a flush toekick.</p> <p>When FTK.FNT.P is ordered with the Peninsula modification, both sides will receive a flush toekick.</p> <p>When FTK.P is ordered with the Peninsula modification, only the peninsula side will receive a flush toekick.</p>

See page 30 for modification compatibility. Requests for non-published modifications may be treated as a Special Sales Order which will require feasibility, leadtime review and approval. Please check with your customer service representative before placing your order.

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS
<b>Flush Toekick Arch (FTKAV) (FTKAV.P) (FTKAV.FNT.P)</b>	Most base, tall, and vanity cabinets, and wall cabinets with ADDTK	Creates an arch flush toe space. Valance replaces standard toekick creating a full open area beneath cabinet floor. When FTKAV.FNT.P is ordered with the Peninsula modification, both sides will receive an arch flush toekick. When FTKAV.P is ordered with the Peninsula modification, only the peninsula side will receive an arch flush toekick. Not available on 93" or 96" tall cabinets due to separate pedestal base toekick.
<b>Flush Toekick Furniture (FTKFV) (FTKFV.P) (FTKFV.FNT.P)</b>	Most base, tall, and vanity cabinets, and wall cabinets with ADDTK	Creates a furniture flush toe space. Valance replaces standard toekick creating a full open area beneath cabinet floor. When FTKFV.FNT.P is ordered with the Peninsula modification, both sides will receive a furniture flush toekick. When FTKFV.P is ordered with the Peninsula modification, only the peninsula side will receive a furniture flush toekick. Not available on 93" or 96" tall cabinets due to separate pedestal base toekick.

## TOEKICK MODIFICATIONS (cont'd)

See page 30 for modification compatibility. Requests for non-published modifications may be treated as a Special Sales Order which will require feasibility, leadtime review and approval. Please check with your customer service representative before placing your order.

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS
<b>Loose Toekick (TKP)</b>	Most tall cabinets	Available on 84", 87", and 90" tall cabinets. Removes and ships the toekick separately. Not compatible with other toekick modifications. Pedestal is designed to create a Recessed Left or Right Toekick (RECTKL or RECTKR) application during field installation, or can be centered. Pedestal must be covered with toeboard material.
<b>Recessed Island Toekick (RECTKALL)</b>	Most base and vanity cabinets, and wall cabinets with ADDTK	Creates a 3 3/8" recessed toekick on the right, left, and back of cabinet. The entire toekick area will have non-matching material and requires any exposed toekick area to be covered.
<b>Recessed Toekick on Back or Side (RECTKBK) (RECTKL) (RECTKR)</b>	Most base and vanity cabinets, and wall cabinets with ADDTK	Creates a 3 3/8" recessed toekick on the back (RECTKBK), left (RECTKL), or right (RECTKR). When either the RECTKR or RECTKL are used, FTK is NOT available. The entire toekick will have non-matching material and requires any exposed toekick area to be covered. On RECTKL and RECTKR, the back will have a 1/2" recessed offset and non-specified side will have a 1/2" recessed offset to allow for application of toeboard material.  93" and 96" tall cabinets have RECTKL or RECTKR standard on loose pedestal. For recess toekick applications of both left and right, order RECTKL.R. On 9" wide cabinets, only one side can be recessed. RECTKBK only available on cabinets at least 15" deep.

### LOOSE TOEKICK (TKP)

## TOEKICK MODIFICATIONS (cont'd)

See page 30 for modification compatibility. Requests for non-published modifications may be treated as a Special Sales Order which will require feasibility, leadtime review and approval. Please check with your customer service representative before placing your order.

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS
<b>Toekick Drawer (DRWTK)</b>	Most cabinets with a standard toekick, and wall cabinets with ADDTK	Replaces standard toekick with a toekick drawer. Available on most 21"-24" deep cabinets in 18", 21", 24", 27", 30", 33", and 36" widths that have standard toekick construction. Front of toekick drawer is unfinished, allow enough toeboard to cover. 1" clearance below toekick drawer. Exterior dimensions of drawer are 3 3/8" tall and 15" or 18" deep. Toekick drawer uses a push to open full extension guide, does not have soft-close feature.
<b>Toekick Vacuum (VACL) (VACR) (VACTK)</b>	Most base cabinets with a standard toekick	Prepares cabinet for field installation of a 120V compact vacuum cleaner into the toekick area of base cabinets and includes vacuum shipped with cabinet order. Toekick area is routed for vacuum to be inserted and screwed into place. VACTK prepares the cabinet for vacuum installation in the center of the front toekick. VACL prepares the cabinet for vacuum installation in the center of the left end panel, in the toekick area. VACR prepares the cabinet for vacuum installation in the center of the right end panel, in the toekick area. Flooring installation must be compatible with the vacuum by ensuring the bottom of the cabinet is flush with the top of the flooring to allow clearance for the tray to open for changing the bag. The flooring should either be installed under the cabinets or the cabinets can be raised to the flooring level. Vacuum is 120V-60Hz, rated current of 5 amps, and rated input power is 650W. Cord is 10 ft. from the right side of the unit and features a standard 3-prong plug for use in any household outlet. Includes a 0.5 gallon vacuum bag and filter installed along with five replacement bags and one replacement filter. Additional packs of replacement bags available, see VACBAG on page 412. Includes two plastic covers for field installation (stainless steel look and white). Built-in switch can be gently tapped to turn the unit on, a 10 second timer will automatically turn the unit off. Should not be installed in a sink base, bathroom, outdoors, or in other wet environments. Do not expose to moisture, rain, or snow. Do not pick up water or sweep water into the vacuum. VACTK is available on most base cabinets with a 22" minimum depth and 18" minimum width. VACL and VACR are available on most base cabinets with a 21" minimum depth and 21" minimum width.

## TOEKICK MODIFICATIONS (cont'd)

See page 30 for modification compatibility. Requests for non-published modifications may be treated as a Special Sales Order which will require feasibility, leadtime review and approval. Please check with your customer service representative before placing your order.

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS
<b>Void Toekick (VTK)</b>	Most base, tall, and vanity cabinets	Removes the toekick. Only available when the cabinet has a standard toekick (not available when flush toekick is standard or when cabinet has a separate pedestal base). When ordered on 84", 87", or 90" tall cabinets, pedestal will not be included.  When VTK is specified on cabinets to be used with a countertop, cabinets must also be supported from the floor, not just attached to the wall. Failure to properly install cabinets in this situation will void the warranty.

## CONFIGURATION MODIFICATIONS

See page 30 for modification compatibility. Requests for non-published modifications may be treated as a Special Sales Order which will require feasibility, leadtime review and approval. Please check with your customer service representative before placing your order.

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS
<b>Cabinet Front Only (CFNTO)</b>	Most cabinets with a face frame	Creates a door and/or drawer front assembled with a frame. Doors are attached with the specified hinges and drawer fronts are cleated.
<b>Cabinet Frame Only (CFRMO)</b>	Most cabinets with a face frame	Creates a cabinet frame only. No box, doors, or drawer fronts are included.
<b>Peninsula (P)</b>	Most wall and base cabinets	Creates a peninsula cabinet that is 1/4" deeper than the standard cabinet depth. If ID or RD is specified, cabinet will be 1/4" deeper than specified cabinet depth.  Any cabinet with a toekick must be at least 15" deep (either standard with a toekick or when ADDTK is specified).  Single door cabinets are hinged on the same cabinet end, for example a W1230L will feature a Left hinge on the front side and a Right hinge on the peninsula side.  Not available on tall cabinets (oven, utility, and pantry) or multi-drawer base cabinets.  Cabinets with drawers can only be reduced in 3" increments.

- All aluminum doors will be full overlay with miter construction.
- Cabinet face frame and end panels will be matched to the finish specified.
- Cabinet will have standard interior or can be ordered with MIP option.
- Aluminum and Brushed Stainless doors have an anodized finish.
- White and Oil Rubbed Bronze doors have a powder coated finish.
- Frost glass and matching panel are installed in door. Removal of glass or matching panel will void warranty.
- Door rails are 2 1/4" wide.
- All Aluminum Frame door options are represented by ALF in Door Options availability grids.
- ALFM and ALFBSM frames and center panels are created with different manufacturing processes, which results in a slight difference in the appearance of each surface. The frame is an anodized aluminum extrusion, and the center panel is a double sided metal sheet applied to a hard-bore core.
- When a decorative door option is chosen in 20/20, Matching Interior Plywood (MIP) is a preselected option. If MIP is not desired, it can be deselected by choosing NOMIP.

6" x 6"  
1 Center Diamond

Glass Types:

- A) 1/8" Clear
- B) Frost Etch 100

Metal Type:

3/16" H-Ch Zinc Proglaze2 (all)

- Suggested to use with Square doors.

## Lonsdale

Heights > 9"  
Two Stars

Heights 6" to 9"  
One Star

Minimum Size  
6" x 6"

Glass Type:

- A) Seedy Clear 100Sdy

Metal Type:

3/16" H-Ch Zinc Proglaze2 (all)

## Lanai

Widths > 16"  
4 Vertical Columns

Widths > 11" to 16"  
3 Vertical Columns

Widths 6" to 11"  
2 Vertical Columns

Glass Type:

- A) 1/8" Clear

Metal Type:

3/16" H-Ch Zinc Proglaze2 (all)

## Lyndhurst

Widths > 11"  
3 Vertical Bars  
Equally Spaced

Widths 6" to 11"  
1 Vertical Bar  
Centered

Glass Type:

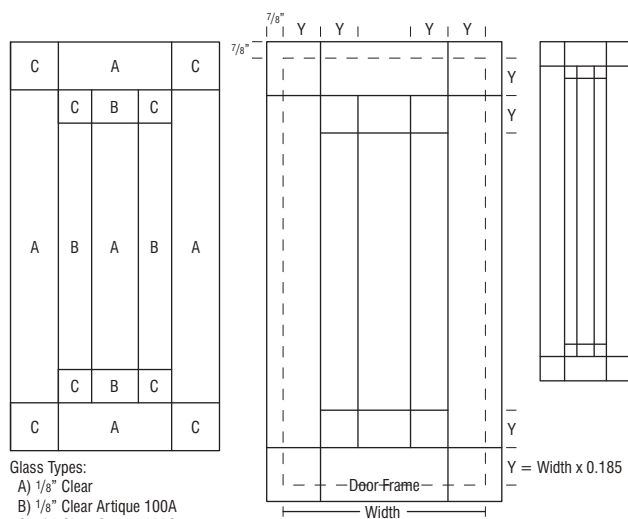

- A) Clear Rough Rolled 100RR

Metal Type:

3/16" H-Ch Zinc Proglaze2 (all)  
Black Patina Finish

Minimum Size 6" x 12"

## Pavillion

Glass Types:  
 A) 1/8" Clear  
 B) 1/8" Clear Artique 100A  
 C) 1/8" Clear Granite 100G

Metal Type:  
 3/16" H-Ch Round Zinc Proglaze2 (all)

- Suggested to use with Square doors.

## Quincy

Glass Types:  
 A) Clear Waterglass 100W  
 B) 3/16" Clear with 1/2" Bevel  
 C) Clear Faceted Jewel

Metal Type:  
 3/16" H-Ch Zinc Proglaze2 (all)

Minimum Size 6" x 10"

- Suggested to use with Square doors.

## Portico

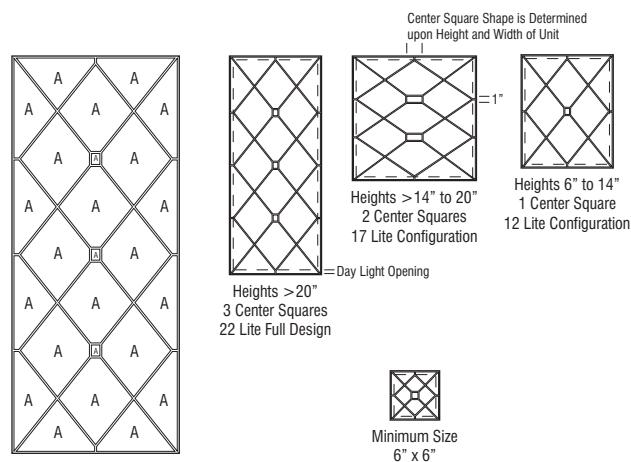

Glass Types:  
 A) 1/8" Clear  
 B) 3/16" Clear with 1/2" Bevel

Metal Type:  
 3/16" H-Ch Zinc Proglaze2 (all)  
 Black Patina Finish

Minimum Size 6" x 12"

## Waterbury

Glass Type:  
 A) Clear Waterglass 100W

Metal Type:  
 3/16" H-Ch Zinc Proglaze2 (all)  
 Black Patina Finish

Wickford

Widths >9"

Widths 6 1/2" to 9"  
1 Vertical Column  
Centered

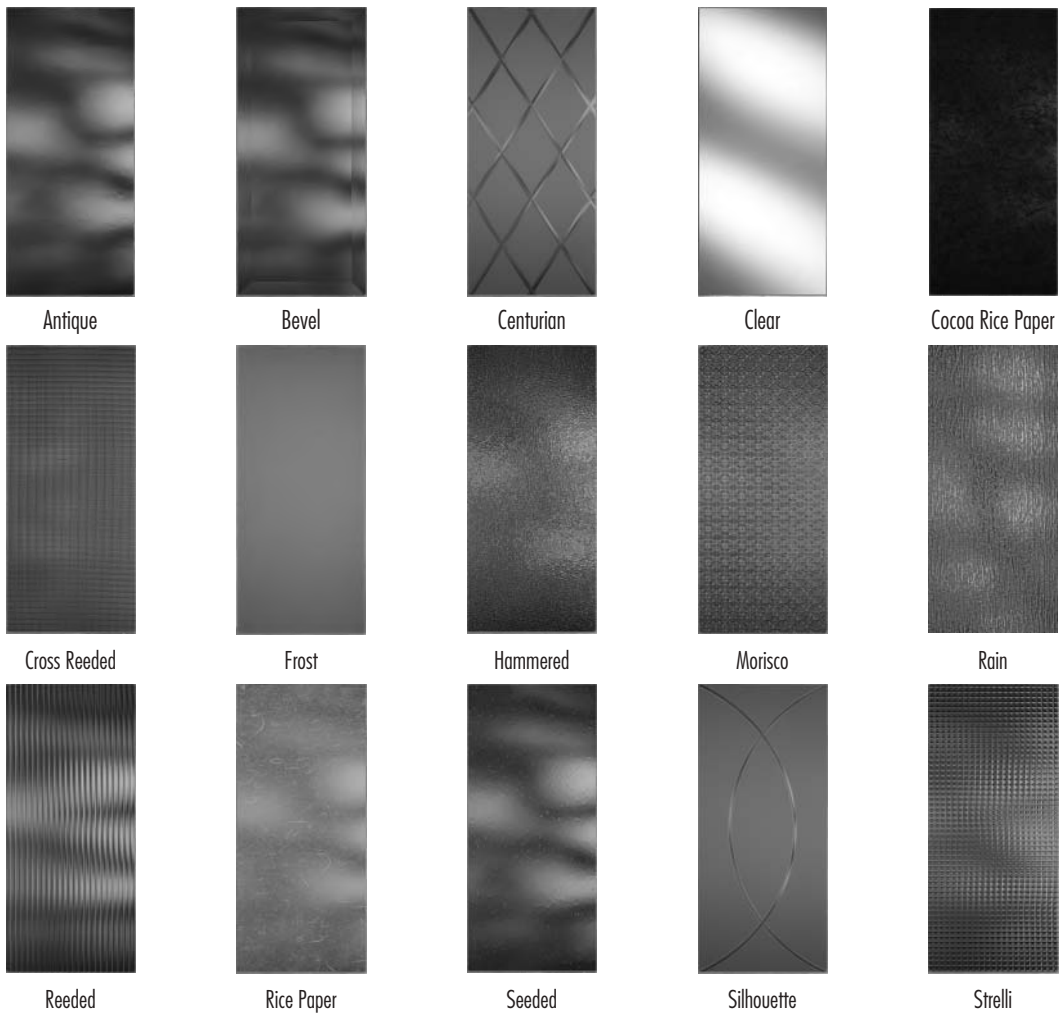

Minimum Size  
6 1/2" x 10"

Glass Types:  
A) Clear Artique 100A  
B) Clear Granite 100G

Metal Type:  
3/16" H-Ch Round Zinc Proglaze2 (all)

- Suggested to use with Square doors.

# INSTALLED TEXTURED GLASS PANELS

- Textured glass panels available in Catalina only when Mullion Door is ordered because Cut for Glass Door is not available.
- Cut for glass door must be ordered separately. See page 52.
- For glass shelf kits, see page 409.
- On order acknowledgment, decorative glass selection will be shown with selected CG modification.
- When textured glass is ordered for use in wall top hinge (WTH) or wall vertical lift (WVL) cabinets, glass design will be turned horizontally and may not match desired pattern.
- All glass is fully tempered or has a safety lamination.
- Textured glass panels will be factory installed when ordered with a CG door.
- Door frame may reduce amount of glass shown.
- No changes or cancellations will be accepted after 24 hours from acknowledgment of order.

93" *	90 31/32"	91 23/32"	92 17/32"
96" *	93 29/32"	94 5/8"	95 13/32"

\*Separate pedestal base included with cabinet to be installed after cabinet is in an upright position.

# DIAMOND CABINETRY'S DESIGN CHECKLIST

73

## CONSTRUCTION OPTIONS

Consider exposed end options:

- ☐ Modify exposed cabinet ends to PE or APC.
- ☐ Adding a veneer finished end (FB) will age uniformly with the rest of the kitchen.
- ☐ Apply 1/4" veneer skin to hide 1/4" reveal. This will allow the ends to age uniformly with the rest of the kitchen and will make it flush.
- ☐ Apply decorative door kit (BED, WED, TED). This kit includes 1/4" veneer skin, decorative doors, and screws for field installation.
- ☐ Upgrade exposed cabinet ends with Authentic Ends (AUTHL/AUTHR) or Furniture Finished Plywood Ends (FPFB) Modification.

## WOOD AND FINISH CHARACTERISTICS

Review specific details with the customer:

- ☐ Mineral Streaks, Birdseye Dots, Grain Variations (especially Hickory and Rustic Alder).
- ☐ Color Variations/Darkening (especially Natural/Light Cherry).
- ☐ Finish Variations (Glazes are "consistently inconsistent"), hairline cracks may develop at frame joints on painted frame.
- ☐ Underside of cabinets are Natural Maple. Use light rail or cabinet panel edge and skin to hide, especially when designing with peninsula wall cabinets. For cabinets that are bridged between taller adjacent cabinets, specify PFINBTMB modification. See page 38 for more details.

## LOGIX

Review storage and usage needs with Customer. See chart on pages 76-77 for more Logix.

- ☐ Cooking Solutions:
  - Wall Spice Rack Cabinet
- ☐ Storage Solutions:
  - SuperCabinet™
  - Base Rotating Deep Bin
  - Pegged Dish Organizer
  - Wall Message Center
- ☐ Clean-up Center:
  - Trash/Recycle Basket Base

## CLEARANCES

- ☐ Add fillers between end cabinets and walls on full overlay door styles.
- ☐ Allow space between door/window trim and end cabinets for countertop and top moulding overhang.
- ☐ Include refrigerator door hinges in overall refrigerator height when placing cabinets above it.

Maintain a minimum clearance of 3" by pulling blind corners as follows:

- ☐ Full Overlay: 1 1/4", Standard Overlay 1/2". (More is needed in certain situations such as when adjacent to an appliance or when using oversized pulls or knobs.)
- ☐ Allow sufficient clearance (3") on each side of accessory cabinets (such as roll-out trays, swing-out units, etc.). Doors on these cabinets must open fully for accessories to be functional.
- ☐ Ensure the height between the cooktop and range hood is 24" to meet NKBA guidelines.

Qualify customer carefully on upper cabinet/microwave advantages/disadvantages as follows:

- ☐ Minimum of 18" from cooktop to upper cabinet/above the range microwave which allows for easy access to either, but less room over back burner.
- ☐ Minimum of 21" from cooktop to upper cabinet/microwave which allows for access to large pots on back burner of cooktop, but longer reach to microwave.

## FILLERS

- ☐ Place fillers toward end of run where least conspicuous if needed.
- ☐ Attach overlay fillers on top of the base, wall, or tall fillers when using full overlay door styles to maintain a consistent reveal. Don't forget to include blind corner fillers.
- ☐ Add a filler at least 6" wide to accommodate a decorative onlay when the filler is used as valance.

## VARYING HEIGHTS AND DEPTHS

- ☐ Also increase the depth of a wall cabinet run when you increase the height (so moulding on adjacent cabinet will kill into the side of the taller cabinet).
- ☐ Skin the sides of tall cabinets to keep adjacent base and wall cabinets out from reveal of tall cabinet.
- ☐ Add increased depth on tall end panels for a built-in look for deep refrigerators.
- ☐ Account for the additional support needed for wall cabinets with a depth of 18" or greater. This can be achieved by installing a soffit or end panels.

## MATCHING INTERIOR CABINETS/GLASS OPTIONS

- ☐ Verify cut for glass or mullion door option is available on desired cabinet size. (See pages 52-55 for available cut for glass/mullion door sizes.)
- ☐ Verify glass insert option is available for desired cut for glass door size chosen.
- ☐ Verify matching interior option has been selected for all open or glass cabinets.
- ☐ Use light rail and skin to hide color variation between bottom of cabinets with and without matching interior.
- ☐ Verify mullion door lite grid matches customer expectations.

## MOULDINGS

- ☐ Order rosettes and plinths in beaded or fluted styles to match fillers.
- ☐ Verify correct amount of crown moulding has been ordered.
- ☐ Order toekick caps.
- ☐ Order extra scribe.

## ISLANDS AND PENINSULAS

- ☐ Consider standard height bars are 34 1/2" tall and require 19" knee space. Raised bars are 42" tall.
- ☐ Consider base peninsula cabinets (P) are 24 1/4" deep and require 12" of knee space. Use back panels/doors to flush non-P cabinets with P cabinets.
- ☐ Use recess toe on sides and back or BMB8 when using multiple base cabinets to create an island.
- ☐ Use outside corner moulding if a skin is exposed on the back of the island.

## APPLIANCES

- ☐ Note for all consumers, appliances are not included with any cabinetry product.
- ☐ Do not place dishwashers next to diagonal front cabinet (interference) or next to a range (no countertop support).
- ☐ Verify refrigerator door has enough clearance to open beyond 90° so refrigerator drawers can be utilized. Refer to appliance manufacturer's specs.
- ☐ Add TF696FH, as it may be required to frame around built-in microwave ovens and other built-in items. Refer to appliance manufacturer's specs.
- ☐ Order appliance panels.

## SPECIAL CONSIDERATIONS

- ☐ Consider V-Groove skins and/or decorative doors on exposed cabinet sides in glazed kitchen.

## MISCELLANEOUS

- ☐ Order full size touch-up kit (mini touch-up kit included with standard sink base).

## TIPS TO THE INSTALLER

#10 x 2 1/2" installation screws are furnished and packaged inside all cabinets. Proper wall stud or ceiling joist installation is essential for Wall and Peninsula cabinets to support weight. Whenever possible, cabinets should be attached to each other for additional strength. Excessive weight should not be put on cabinets hung by themselves. Shimming may be required to ensure proper alignment. Wallboard alone is not strong enough to support the cabinets.

Our Warranty does not cover damage caused by improper installation. Please be sure to install cabinets properly. If you have questions, please contact your representative or customer service.

## kitchen planning guidelines

### DOOR/ENTRY

- Door opening should be at least 32" wide, requiring a minimum 2' 10" wide door.

### DOOR INTERFERENCE

- Entry door should not interfere with safe appliance operation or appliance doors.

### DISTANCE BETWEEN WORK CENTERS

- With three work centers, the total distance traveled should not be more than 26' with no single leg of the triangle less than 4' or more than 9'.
- With more than three work centers, each additional travel distance to another work center should be no less than 4' or more than 9'. Each leg is measured from the center-front of the appliance/sink. No work triangle leg should intersect an island/peninsula by more than 12".

### SEPARATING WORK CENTERS

- A tall obstacle should not separate two primary work centers. A properly recessed tall corner unit is acceptable.

### WORK TRIANGLE TRAFFIC

- Major traffic patterns should not cross through the basic work triangle.

### WORK AISLE

- The work aisle should be at least 42" for one cook and at least 48" for multiple cooks.

### WALKWAY

- The walkway width should be at least 36".

### TRAFFIC CLEARANCE AT SEATING

- Allow 32" of clearance from the table to wall/obstacle if no traffic passes behind a seated diner. If traffic passes behind the diner, allow at least 36" to edge past or 44" to walk past.

### SEATING CLEARANCE

- 30" high tables/counters should allow a 24" wide by 18" deep space for each seated diner and at least 18" knee space.
- 36" high counters should allow a 24" wide by 15" deep space for each seated diner and at least 15" kneespace.
- 42" high counters should allow a 24" wide by 12" deep space for each seated diner and at least 12" kneespace.

### CLEAN-UP/PREP SINK PLACEMENT

- With only one sink, locate it adjacent to or across from the cooking surface and refrigerator.

### CLEAN-UP/PREP SINK LANDING AREA

- Include at least a 24" wide landing space on one side of the sink and 18" on the other.
- If all the countertop at the sink is not the same height, plan a 24" landing space on one side of the sink and 3" of countertop frontage on the other, both at the same height of the sink.

### PREPARATION/WORK AREA

- Include a section of countertop at least 36" wide x 24" deep next to the sink for a work area.

### DISHWASHER PLACEMENT

- Nearest edge of dishwasher should be within 36" of nearest edge of sink. Provide at least 21" of standing space between the edge of the dishwasher and countertop frontage/appliances/cabinets which are placed at a right angle to the dishwasher.

### WASTE RECEPTACLES

- Include at least 2 waste receptacles, one near the sink and the other nearby for recycling.

### AUXILIARY SINK

- Provide at least 3" of countertop frontage on one side of the auxiliary sink and 18" on the other side, both at the same height as the sink.

### REFRIGERATOR LANDING AREA

- Include at least 15" of landing area on the handle side of the refrigerator, 15" on either side of a side-by-side refrigerator, 15" of landing space which is no more than 48" across from the front of the refrigerator, and 15" above or adjacent to any under-counter style refrigerator.

### COOKING SURFACE LANDING AREA

- Include a minimum of 12" of landing area on one side of the cooking surface and 15" on the other.
- If cooking surface is at a different countertop height than the rest of the kitchen, then the 12" and 15" landing areas must be the same height as the cooking surface.
- For safety reasons, in an island or peninsula situation, the countertop should extend a minimum of 9" behind the cooking surface if the counter height is the same height as the cooking surface.

### COOKING SURFACE CLEARANCE

- Allow 24" between the cooking surface and a protected noncombustible surface above it.
- At least 30" of clearance is required between the cooking surface and an unprotected/combustible surface above it.
- If a microwave/hood combination is used, then the manufacturer's specifications should be followed.

### COOKING SURFACE VENTILATION

- A correctly sized, ducted ventilation system is recommended for all cooking surface appliances. The recommended minimum is 150 CFM.
- Code requires that the manufacturer's specifications be followed. Minimum exhaust rate for a ducted hood is 100 CFM and must be ducted to the outside.
- Make-up air may need to be provided. Refer to local codes.

### COOKING SURFACE SAFETY

- Do not locate cooking surface under an operable window.
- Window treatments above cooking surface should not use flammable materials.
- Place a fire extinguisher near the kitchen exit away from cooking equipment.

### MICROWAVE OVEN PLACEMENT

- The ideal location for the bottom of the microwave is 3" below the principle user's shoulder, but no more than 54" above the floor.

### MICROWAVE LANDING AREA

- Provide at least 15" above, below, or adjacent to the handle side of a microwave oven.

### OVEN LANDING AREA

- Include at least 15" next to or above the oven.
- A 15" landing area that is not more than 48" away is also acceptable as long as the oven does not open into a walkway.

### COMBINING LANDING AREAS

- If two landing areas are adjacent to one another, determine a new minimum for the two by taking the longer of the two and adding 12".

*continued*

## kitchen planning guidelines (continued)

### COUNTERTOP SPACE

- A total of 158" of countertop frontage, 24" deep, with at least 15" clearance above is needed to accommodate all landing, preparation, work, and storage areas.

### COUNTERTOP EDGES

- Clipped or round corners, rather than sharp edges, are recommended on all counters.

### STORAGE

- The recommended total shelf/drawer frontage for a small kitchen (less than 150 square feet) is 1400", for a medium kitchen (151 to 350 square feet) is 1700", and for a large kitchen (greater than 350 square feet) is 2000".

Sizes:	S	M	L
Wall	300"	360"	360"
Base	520"	615"	660"
Drawer	360"	400"	525"
Pantry	180"	230"	310"
Misc.	40"	95"	145"

- The totals for wall, base, drawer, and pantry shelf/drawer frontage can be adjusted upward or downward as long as the recommended total stays the same.

### STORAGE AT CLEAN-UP/PREP SINK

- The recommended total for a small kitchen is 400", a medium kitchen is 480", a large kitchen is 560", and should be located within 72" of the centerline of the main clean-up/prep sink.

### CORNER CABINET STORAGE

- At least one corner cabinet should include a functional storage device.

### ELECTRICAL RECEPTACLES

- GFCI (Ground-Fault-Circuit-Interrupter) protection is required on all receptacles servicing countertop surfaces within the kitchen.

### LIGHTING

- Every work surface should be well illuminated. At least one wall switch-controlled light must be placed at the entrance.
- Window/skylight area, equal to at least 8% of the total square footage of the kitchen, or a total living space which includes a kitchen, is required.

## bathroom planning guidelines

### DOOR/ENTRY

- Doorway opening should be at least 32", requiring a minimum 2' 10" wide door.

### DOOR INTERFERENCE

- The door area should include clear floor space for maneuvering which varies according to the type of door and the direction of the approach.

### CEILING HEIGHT

- Bathroom floor to ceiling minimum height is 80". A shower or tub with a shower head shall have a minimum floor to ceiling height of 80" above a minimum area 30" x 30" at the shower head.

### CLEAR SPACE

- Plan a clear space of 30" from the front edge of all fixtures to any opposite bath fixture, wall, or obstacle.
- A minimum space of at least 21" is required in front of a lavatory, toilet, bidet, and tub, with a 24" minimum space in front of a shower entry.

### SINGLE LAVATORY PLACEMENT

- The distance from the centerline of the lavatory to the sidewall/tall obstacle should be at least 20".
- The minimum distance required is 15". The minimum distance required between a wall and the edge of a lavatory is 4".

### DOUBLE LAVATORY PLACEMENT

- The distance between the centerlines of two lavatories should be at least 36".
- The minimum distance required is 30".
- The minimum distance required between the edges of two lavatories is 4".

### LAVATORY/VANITY HEIGHT

- The height for a lavatory varies from 32" to 43" to fit the user.

### COUNTERTOP EDGES

- Clipped or round corners, rather than sharp edges, are recommended on all counters.

### SHOWER SIZE

- The interior shower size should be at least 36" x 36". The minimum interior shower size required is 30" x 30".

### STORAGE

- Provide adequate, accessible storage for toiletries, bath linens, grooming and general bathroom supplies.
- Storage of frequently used items should be 15" to 48" above floor.

### ELECTRICAL RECEPTACLES

- All GFCI receptacles should be located at electrical appliance points of use.

**Load bearing floors and shelves meet KCMA standards of 15 lbs. per square foot. Warranty does not cover overloading beyond this point.**

**WALL TOP HINGE, 12" HIGH**

WTH3012	3.7
WTH3612	4.4

- Utilizes doors from 30" and 36" high wall cabinets. Grain on center panels and slab doors will run horizontally and door rail configuration on non-miter doors will be unique from adjacent cabinet doors. Granite will have standard vertical grain pattern. Tranter will have standard horizontal grain pattern.
- Not available on Liberty.
- When ordered in Arch/Cathedral door styles, door will be Square.
- Art Glass not available.
- Cabinet may utilize one or two lift mechanisms depending on door size and weight. Door lift mechanism tension can be field adjusted.
- Depth can be reduced to a minimum of 9".
- Door will open a maximum of 107° due to hinges. For applications close to a ceiling, door angle can be restricted to 86° with a Hinge Angle Restriction Clip (HINGERESCLIP, see page 418).
- Lift mechanisms and mounting brackets will be visible if used with transparent textured glass.
- Lift mechanism not available for order for field installation, only available factory installed.

## WALL VERTICAL LIFT, 18" HIGH, 12" DEEP

	Full Overlay	Partial Overlay
A	16 13/16"	16 1/16"
B	17 5/16"	18 1/16"

Model	Cubic Feet
WVL3018	5.2
WVL3618	6.1

- Utilizes doors from 30" and 36" high wall cabinets. Grain on center panels and slab doors will run horizontally and door rail configuration on non-miter doors will be unique from adjacent cabinet doors. Granite will have standard vertical grain pattern. Tranter will have standard horizontal grain pattern.
- Decorative hardware required.
- See side view drawing for required clearances.
- Lift mechanism features a single motion for up and out movement with Smart Stop, tension can be field adjusted.
- Lift mechanisms and mounting brackets will be visible if used with transparent textured glass.
- Lift mechanism not available for order for field installation, only available factory installed.
- Hardware extends 1" into opening on each side.
- Art Glass not available.
- Not available on Liberty.
- When ordered in Arch/Cathedral door styles, door will be Square.

## Wall Corner Cabinets

- Wall corner cabinets may be installed flush to the wall (left) or pulled up to 3" away from wall (right) to accommodate odd dimensions in a kitchen design. In either case, the adjoining run of 12" wall cabinets plus a 3" filler will butt against the solid wood panel.
- When a cabinet is "pulled" it will use proportionally more wall space, for example, a 30" wide WC pulled 2" will use 32" of space.
- The L or R in the cabinet's nomenclature indicates the location of cabinet void.
- Blind side of wall corner cabinets cannot be installed next to a range hood or microwave shelf unit due to door interference.

NOTE: All outside stiles are 1 1/2" wide

Model	A Min. Space	B Max. Pull*	C Max. Space	D Cabinet Opening	E* Full Overlay At Min. At Max.	E Partial Overlay At Min. At Max.	F Actual Cabinet
WC24..	24"	5"	29"	7 1/2"	1 3/4" 6 3/4"	2 1/2" 7 1/2"	24"
WC27..	27"	4 1/2"	31 1/2"	9"	3 1/4" 7 3/4"	4" 8 1/2"	27"
WC30..	30"	5"	35"	13 1/2"	1 3/4" 6 3/4"	2 1/2" 7 1/2"	30"
WC33..	33"	4 1/2"	37 1/2"	15"	3 1/4" 7 3/4"	4" 8 1/2"	33"
WC36..	36"	5"	41"	19 1/2"	1 3/4" 6 3/4"	2 1/2" 7 1/2"	36"
WC39..	39"	4 1/2"	43 1/2"	21"	3 1/4" 7 3/4"	4" 8 1/2"	39"
WC42..	42"	4 1/2"	46 1/2"	24"	3 1/4" 7 3/4"	4" 8 1/2"	42"
WC45..	45"	4 1/2"	49 1/2"	27"	3 1/4" 7 3/4"	4" 8 1/2"	45"
WC48..	48"	4 1/2"	52 1/2"	30"	3 1/4" 7 3/4"	4" 8 1/2"	48"

\*Minimum/maximum space between inside edge of door and face of filler/adjoining cabinet.  
If cabinet is pulled to maximum stated dimension, filler will need to be cleated for proper attachment.

**Diagonal Wall Peninsula**

Diagonals are different. All PLL, PLR, etc. designations refer to wall openings as well as hinge location. A PLL is left hinged on the kitchen (DW) side. Peninsula side is 24" wide and features butt doors. The second L or R in the product code indicates the position of the butt doors relative to the DW side.

**NOTE:**

All Peninsula wall cabinets must be fully supported by screwing into ceiling or soffit, and by screwing into adjoining cabinets. Weight load limit is 15 lbs. per square foot.

### WOOD HOOD BLOWER, 1100 CFM

BLOWER1100	10.7
------------	------

- 1100 CFM.
- One year warranty.
- Ventilator housing unit features stainless steel finish.
- Two 50 watt (120 volt) halogen lamps included.
- Satellite blower installs remotely in the interior of the home (i.e., unfinished attic area.)
- Designed to work independently from internal blowers.
- Installation instructions, warranty, and repair information included.
- External ventilation required.
- Professional installation required.
- Compatible with all Wood Hoods and Hearths.
- Includes two in-line transitions (8" x 12" to 10" round).
- Includes two removable dishwasher safe grease filters.
- Designed for use in applications up to 110,000 BTUs.

#### MODIFICATIONS

No modifications available for these products.

### WOOD HOOD BLOWER, 500 CFM

BLOWER500	4.0
-----------	-----

- 500 CFM.
- One year warranty.
- Sound rating is 8.2 sones.
- Two 20 watt (12 volt, G4 base) halogen lamps included.
- Installation instructions, warranty, and repair information included.
- Silver metallic finish.
- Three speed push button control.
- Includes two removable dishwasher safe grease filters.
- Compatible with all Wood Hoods and Hearths.
- Designed for use in applications up to 60,000 BTUs.

## 30" SUPERCABINET™ GOURMET

L G I X

Model	Cubic Feet
<b>BSCG30 L or R</b>	17.7

- Cabinets utilize 170° hinge. For sufficient pull-out clearance, 12" of adjacent space is required for door to open 170° when installed near a wall or corner.
- Integrated soft close hinge not included. Premium door mechanism included.
- L or R designates lid holder side.
- Left door features wrap/foil rack.
- Right door features cutting board and cutting board storage.
- Lid pull-out capacity is 6 lids per tray. Maximum lid diameter is 8 1/2" on bottom tray and 9 3/4" on top tray.
- Pots and Pans pull-out includes 8 dividers per tray for adjustable storage.
- Cutting board is 9 3/4" x 15 3/5".

## SINK BASE SUPERCABINET™ with TILT-OUT TRAYS

L O G I X

Model	Cubic Feet
SB30STS	17.7
SB33STS	19.6
SB36STS	21.1

- Quarter Round Reversible Shelf for left or right applications will be constructed from 3/4" thick laminated furniture board. When upgraded to APC, shelf will use clear coated veneer plywood. (Shelf shipped secure, can be positioned in left or right corner.)
- Mini Touch-Up Kit (MTUK) included. MTUK includes small touch-up marker and small fill stick.
- Includes two tilt-out trays.
- Tilt-out trays are stain resistant, moisture resistant plastic to allow storage of sponges and other cleaning materials.
- Tilt-out trays are also available as an accessory for field installation. See page 412.
- All load bearing surfaces meet KCMA standards of 15 lbs. per square foot.
- Each door features a chrome and wood two-tiered rack.
- Door rack width is 10 7/8" on 30" wide cabinet, 12 3/8" on 33" wide cabinet, and 13 7/8" on 36" wide cabinet.
- Door rack depth is 3 1/2".

### Base Corner Cabinets

- BCs use the wall space the nomenclature implies and may be pulled up to 3" to accommodate odd dimensions in a kitchen.
- Remember to use 3" filler on adjoining cabinets.
- The adjoining run of cabinets will cover the void.
- BCFW specifies full width blind corner base cabinet.
- The L or R in the cabinet nomenclature indicates the location of the void to ensure clearance; it is not recommended to place BC cabinets next to 27" deep appliances.

#### NOTE:

Full overlay styles must be pulled an additional 1 1/2" to ensure proper drawer/pull clearance.  
1 1/2" pull is not included in minimum and maximum list.

**THREE DRAWER CORNER CABINET**

Model	Cubic Feet
<b>3CDB36</b>	15.0

- Must be installed between 2 cabinets.
- Allow for proper clearance of drawer head when specifying corner drawer cabinets next to appliances.
- Will have less than 3/4" overlay side reveal for clearance purposes.
- Cabinet sides will always be Natural Maple laminate. If PE or APC is specified, cabinet sides will be unfinished.
- Exterior height of bottom 2 drawer boxes is 7 3/8".
- Utilizes 110 lb. undermount Smart Stop guides on all drawers.

A Dimension	B Dimension
24"*	0"
25"	3/4"
26"	1 3/4"
27"	2 3/4"
28"	3 3/4"
29"	4 3/4"
30"	5 3/4"

A indicates depth of adjacent appliance or cabinet.  
B indicates minimum space needed between appliance/deeper cabinet and corner drawer base to insure proper operation of drawers.  
\*Standard depth cabinet (24") does not require filler.

### OVERLAY

BBCP03 (Plain)	1.3
BBCP06 (Plain)	2.5
BBCP03OL (Overlay)	1.3
BBCP06OL (Overlay)	2.5

- Recommended to be installed between two cabinets. Can be installed on the end of a run with the use of an end panel (recommend BEPWD and BEPLAM).
- Can also be installed between a cabinet and a wall or between a cabinet and an end panel.
- Filler is included but unattached.
- Install unit before removing shipping brace and attaching filler.
- Overlay application includes profiled full overlay filler.
- Decorative hardware required on base units.
- Modifications not available.
- Toekick not included; must be built up in the field.
- If installed next to an appliance an End Panel must be installed onto the pull-out adjacent to the appliance.
- All styles feature a natural finish Smart Stop wood pull-out with adjustable shelves and chrome rail sides.
- BBCP03 and BBCP06 will not feature sand-through characteristics if ordered with Heirloom Technique.
- In order to allow proper clearance for opening and closing, allow an additional 1/8" space between adjacent cabinet face frames. The 3" wide pull-outs require 3 1/8" space and the 6" wide pull-outs require 6 1/8" space. Spacers are included with the pull-outs to allow for proper installation.
- Cannot be installed between cabinets with furniture ends (either specified with FPEB or on opposite end panel of cabinets with AUTHL/AUTHR) or with flush ends standard. When installed next to a deeper cabinet, make sure sufficient clearance is allowed for pull-out.
- For full access from both sides of unit, do not install against a wall or next to deeper appliances and cabinets.

## UNIVERSAL DESIGN SINGLE OVEN CABINET, 84" TALL, 24" DEEP

<b>OC308424UD(N)</b>	41.8
----------------------	------

- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 39 for ACS specifications). Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard Smart Stop hinges.
- On cabinets with 3" wide face frame side stiles, full overlay styles have a consistent 1/4" width frame reveal and use face mounted Smart Stop hinges. Partial overlay styles have a larger 2 1/2" width reveal, use standard Smart Stop hinges, and are not recommended for stacking applications due to misalignment of door width with cabinets above.
- Two full depth adjustable shelves are included.
- All top and bottom cross rails are 1 1/2" wide.
- Cabinet has 3" stiles on frame.
- Be sure to confirm a heat shield is built into your appliance.
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 410 for details). Oven install kit will not be included when depth is modified.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.

- AH represents upper section alignment with doors on 24" or 27" high cabinets.
- Features magnetic whiteboards on back of lower doors, one magnetic black mesh pencil holder, charging station with power strip, black plastic grommet for power cord, key hooks, and coat hooks. Accessories are field installed.
- Charging station functions as an adjustable shelf, features five cord cut-out areas and includes a UL listed power strip with three standard 110-volt plugs and one USB charging port.
- One adjustable shelf in upper section on 90" and 93", two adjustable shelves for 96", and three adjustable shelves in lower section.
- Authentic Ends are standard on one side. Specify AEL model for installation on the right side of a tall cabinet. Specify AER model for installation on the left side of a tall cabinet. Opposite end panel will feature FPEB construction (if decorative doors are desired on both sides of cabinet, order No Hinge Route doors for a Tall Pantry Pull-Out).
- Designed to be installed onto an adjacent 24" deep tall cabinet.
- For proper installation, adjacent cabinet must have FPEB or 1/4" skin applied.
- Utility cabinets with depths of 12" or less must be installed to wall studs or onto the end of another tall cabinet.
- Does not include toeboard or pedestal.
- Tall non-mitered doors will have two center panels with cross rail.
- Tranter doors greater than 48" high will be two doors doweled together.

- Three adjustable shelves included with 49 1/2" high, and four adjustable shelves included with 61 1/2" high.
- Sets on any 24", 30", or 36" wide base (B30 shown). No countertop is needed.
- Can be reduced in depth to 6".
- Because of exposed seam when stacking, FPB is not recommended.
- Be sure to use an end panel skin to connect the seam on the side of the stacked cabinets.
- Tall non-mitered doors will have two center panels with cross rail.
- Tranter doors will be two doors doweled together.

- Cabinet does not have a bottom or back. Doors are braced together, are 1/4" shorter than the cabinet for floor clearance, and use standard 107° Smart Stop hinges.
- Not available in Worthen, Trystan, and Catalina.
- Can be reduced in depth to 9" or increased in depth to 27".
- CG and glass inserts only available on upper doors of 90"-96" tall.
- Authentic Ends uses the standard tall door configuration by height and will not align with the front doors. A tall end panel skin can be used to conceal door attachment screws on the interior of the cabinet end panel (see TEPS\_ \_WD on page 355).
- Height of ceiling needs to be considered for installation, 96" high cabinet requires 99" of height for 24" deep and 100" of height for 27" deep to stand unit upright.
- Cabinet will be shipped with additional attached supports to be removed during installation.
- ICM8 (Inside Corner Moulding) can be used to conceal staples behind the face frame.
- SSM8 (Small Scribe Moulding) can be used to conceal exposed back edges of the end panels, which are not edgebanded.
- End panels will not be drilled for shelves.
- If ordered in Arch/Cathedral style on 84" and 87" tall, the top doors of 84" and 87" will feature Arch/Cathedral profile. On 90"-96" tall, only the doors on the upper section will feature Arch/Cathedral profile.

- AH represents upper section alignment with doors on 24" or 27" high cabinets.
- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 39 for ACS specifications). Doors have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard Smart Stop hinges.
- On cabinets with 3" wide face frame side stiles, full overlay styles have a consistent 1/4" width frame reveal and use face mounted Smart Stop hinges. Partial overlay styles have a larger 2 1/2" width reveal, use standard Smart Stop hinges, and are not recommended for stacking applications due to misalignment of door width with cabinets above.
- Upper section on 90" tall has one full depth adjustable shelf.
- All top and bottom cross rails are 1 1/2" wide.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Depth can be reduced to a minimum of 6". For depths of 6"-8", cabinet will not include toe kick/pedestal.
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 410 for details). Oven install kit will not be included when depth is modified.
- Oven cabinets feature an open back in cut-out area designed to improve field appliance installation.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.

# SINGLE OVEN CABINET, 93" or 96" TALL, 24" DEEP

Model	Cubic Feet
<b>OCS279324</b> (AH or N)	41.3
<b>OCS309324</b> (AH or N)	45.7
<b>OCS339324</b> (AH or N)	50.0
<b>OCS279624(N)</b>	42.6
<b>OCS309624(N)</b>	47.1
<b>OCS339624(N)</b>	51.6

- AH represents upper section alignment with doors on 24" or 27" high cabinets.
- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 39 for ACS specifications). Doors have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard Smart Stop hinges.
- On cabinets with 3" wide face frame side stiles, full overlay styles have a consistent 1/4" width frame reveal and use face mounted Smart Stop hinges. Partial overlay styles have a larger 2 1/2" width reveal, use standard Smart Stop hinges, and are not recommended for stacking applications due to misalignment of door width with cabinets above.
- Includes adjustable shelves in upper section:  
93" tall - one shelf  
96" tall - two shelves
- All top and bottom cross rails are 1 1/2" wide.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Separate pedestal base included but packaged separately on 93" and 96" tall. Pedestal is designed to create a Recessed Left or Right Toe Kick application during field installation, or can be centered. Pedestal must be covered with toeboard material.
- Depth can be reduced to a minimum of 6". For depths of 6"-8", cabinet will not include toe kick/pedestal.
- For built-in appliance support, OCINSTALKIT is included in 24" deep oven cabinets (see page 410 for details). Oven install kit will not be included when depth is modified.
- Oven cabinets feature an open back in cut-out area designed to improve field appliance installation.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.

# SINGLE OVEN CABINET, WARMING DRAWER, 93" or 96" TALL, 24" DEEP

\*Minimum rail height between oven and warming drawer is 1 1/2"

Model	Cubic Feet
OCS279324WDAH	41.3
OCS309324WDAH	45.7
OCS339324WDAH	50.0
OCS279624WD	42.6
OCS309624WD	47.1
OCS339624WD	51.6

- AH represents upper section alignment with doors on 24" or 27" high cabinets.
- Includes adjustable shelves in upper section:  
93" tall - one shelf  
96" tall - two shelves
- Full overlay styles feature concealed face mount Smart Stop hinges.
- All top and bottom cross rails are 1 1/2" wide.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Separate pedestal base included but packaged separately on 93" and 96" tall. Pedestal is designed to create a Recessed Left or Right Toe Kick application during field installation, or can be centered. Pedestal must be covered with toeboard material.
- Depth can be reduced to a minimum of 12".
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 410 for details). Oven install kit will not be included when depth is modified.
- Oven cabinets feature an open back in cut-out area designed to improve field appliance installation.

OCD279024 (AH or N)	40.0
OCD309024 (AH or N)	44.2
OCD339024 (AH or N)	48.4

- AH represents upper section alignment with doors on 24" or 27" high cabinets.
- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 39 for ACS specifications). Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard Smart Stop hinges.
- On cabinets with 3" wide face frame side stiles, full overlay styles have a consistent 1/4" width frame reveal and use face mounted Smart Stop hinges. Partial overlay styles have a larger 2 1/2" width reveal, use standard Smart Stop hinges, and are not recommended for stacking applications due to misalignment of door width with cabinets above.
- Upper section on 90" tall has one full depth adjustable shelf.
- All top and bottom cross rails are 1 1/2" wide.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Depth can be reduced to a minimum of 12".
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 410 for details). Oven install kit will not be included when depth is modified.
- Oven cabinets feature an open back in cut-out area designed to improve field appliance installation.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.

- Full overlay styles feature concealed face mount Smart Stop hinges.
- All top and bottom cross rails are 1 1/2" wide.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Depth can be reduced to a minimum of 6". For depths of 6"-8", cabinet will not include toekick/pedestal.
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 410 for details). Oven install kit will not be included when depth is modified.
- Oven cabinets feature an open back in cut-out area designed to improve field appliance installation.

- AH represents upper section alignment with doors on 24" or 27" high cabinets.
- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 39 for ACS specifications). Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard Smart Stop hinges.
- On cabinets with 3" wide face frame side stiles, doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard Smart Stop hinges. When CG is specified, face frame will be visible through door if used with a translucent art or textured glass design.
- Includes adjustable shelves in upper section:  
84" tall - one shelf  
87"-90" tall - two shelves
- Base section will utilize a full depth shelf.
- All top and bottom cross rails are 1 1/2" wide.
- All toe kick areas are 4 1/2" high.
- Includes OCINSTALLKIT for microwave installation.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.

<b>OMC339024 (AH or N)</b>	48.4

- AH represents upper section alignment with doors on 24" or 27" high cabinets.
- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 39 for ACS specifications). Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard Smart Stop hinges.
- On cabinets with 3" wide face frame side stiles, full overlay styles have a consistent 1/4" width frame reveal and use face mounted Smart Stop hinges. Partial overlay styles have a larger 2 1/2" width reveal, use standard Smart Stop hinges, and are not recommended for stacking applications due to misalignment of door width with cabinets above.
- Upper section on 90" tall has one full depth adjustable shelf.
- Designed for use with separate built-in microwave above, built-in oven below. For built-in double ovens, see pages 281-288.
- All top and bottom cross rails are 1 1/2" wide.
- All toe kick areas are 4 1/2" high.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Depth can be reduced to a minimum of 12".
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 410 for details). Oven install kit will not be included when depth is modified.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.

# OVEN MICROWAVE CABINET, 93" or 96" TALL, 24" DEEP

Model	Cubic Feet
OMC279324 (AH or N)	41.3
OMC309324 (AH or N)	45.7
OMC339324 (AH or N)	50.0
OMC279624(N)	42.6
OMC309624(N)	47.1
OMC339624(N)	51.6

- AH represents upper section alignment with doors on 24" or 27" high cabinets.
- N represents Narrow Stile cabinets with 1 1/2" wide face frame side stiles and ACS modification availability (see page 39 for ACS specifications). Doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1") and use standard Smart Stop hinges.
- On cabinets with 3" wide face frame side stiles, full overlay styles have a consistent 1/4" width frame reveal and use face mounted Smart Stop hinges. Partial overlay styles have a larger 2 1/2" width reveal, use standard Smart Stop hinges, and are not recommended for stacking applications due to misalignment of door width with cabinets above.
- Includes adjustable shelves in upper section:
  - 93" tall - one shelf
  - 96" tall - two shelves
- Designed for use with separate built-in microwave above, built-in oven below. For built-in double ovens, see pages 281-288.
- All top and bottom cross rails are 1 1/2" wide.
- All toe kick areas are 4 1/2" high.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Separate pedestal base included but packaged separately on 93" and 96" tall. Pedestal is designed to create a Recessed Left or Right Toe Kick application during field installation, or can be centered. Pedestal must be covered with toeboard material.
- Depth can be reduced to a minimum of 12".
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 410 for details). Oven install kit will not be included when depth is modified.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.

# OVEN MICROWAVE CABINET, WARMING DRAWER, 93" or 96" TALL, 24" DEEP

27", 30", 33"

\*Minimum rail height between oven and warming drawer is 1 1/2"

Model	Cubic Feet
OMC279324WDAH	41.3
OMC309324WDAH	45.7
OMC339324WDAH	50.0
OMC279624WDAH	42.6
OMC309624WDAH	47.1
OMC339624WDAH	51.6

- AH represents upper section alignment with doors on 24" or 27" high cabinets.
- Designed for use with separate built-in microwave above, built-in oven below. For built-in double ovens, see pages 281-288.
- Full overlay styles feature concealed face mount Smart Stop hinges.
- One adjustable shelf included but packaged separately.
- All top and bottom cross rails are 1 1/2" wide.
- All toe kick areas are 4 1/2" high.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Separate pedestal base included but packaged separately on 93" and 96" tall. Pedestal is designed to create a Recessed Left or Right Toe Kick application during field installation, or can be centered. Pedestal must be covered with toeboard material.
- Depth can be reduced to a minimum of 6". For depths of 6"-8", cabinet will not include toe kick/pedestal.
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 410 for details). Oven install kit will not be included when depth is modified.

VANITY WALL HUNG TWO DRAWER  
SINK BASE with FALSE PANEL,  
23 1/2" HIGH, 21" DEEP

VWH2D3023.521FP	10.7
VWH2D3623.521FP	12.7

- Plumbing clearance of 15 1/16" to the top edge of the lower drawer box (6 3/8" high drawer box).
- For proper installation, cabinet must be secured on each side through both the top and bottom of the back panel into wall studs. Installation instructions and required 3 1/2" installation screws included; standard 2 1/2" installation screws are not sufficient in this application.
- 5-piece drawer front configuration will not match on door styles with unique rail widths for drawer fronts over 10" high. Check door style section on pages 8-21 for drawer rail widths by height.
- Features a full cabinet top that can be routed for sink installation.
- Approximate weight limit is 400 lbs. per cabinet (includes weight of the cabinet, countertop and contents). Proper installation is required and additional bracing may be required.
- 125 lb. full extension undermount Smart Stop guides.

## SPECIE AVAILABILITY

Specie Availability charts list the availability of each product code by specie and any substitutions that are made. Exceptions within a section are noted below the specie availability chart.

For panels with doors and/or fillers attached, specie availability is shown for the panel and filler only.

For Specie Availability, look for this chart throughout. For trim items ordered with Laminate and PureStyle™, trim items matching the cabinet box color are noted in the charts.

### OVERLAY FILLER, PREMIUM, 2 1/2" WIDE

## MODEL

**OL312P** (11 1/2"H)

**OL315P** (14 1/2"H)

**OL318P** (17 1/2"H)

**OL321P** (20 1/2"H)

**OL324P** (23 1/2"H)

**OL327P** (26 1/2"H)

**OL330P** (29 1/2"H)

**OL333P** (32 1/2"H)

**OL336P** (35 1/2"H)

**OL339P** (38 1/2"H)

**OL342P** (41 1/2"H)

**OL384P** (79"H)

**OL387P** (82"H)

**OL390P** (85"H)

**OL393P** (88"H)

**OL396P** (91"H)

**OL396FHP** (96"H)

**VOL332P** (27"H)

**DOL329P** (24"H)

- Overlays match door profile and thickness.
- Front, edges, and backs match door and drawer front construction.
- Wixom edgebanding will match door and drawer front edgebanding selection.
- Tranter overlays feature horizontal grain. Overlays greater than 48" high will be two overlays and require field assembly (allow 3/16" gap between overlays for alignment with adjacent doors).

- Full Overlay Styles only.
- Panel is 1 1/2" thick including doors. Non-operating doors are applied to 3/4" thick rail and stile frame.
- Flush Toekick standard.
- Wainscoting panel backs are not finished, but are sealed to prevent warping and cracking.
- All faces and edges will be finished.
- If order is placed in Arch/Cathedral door style, panel will have Square doors.
- For use on bars or islands, attach panel by securing the panel face frame through the inside of the applicable cabinet.
- For wall applications, the screw heads used for the panel face frame attachment to the wall can be concealed behind the doors and drawer fronts.

# DESCRIPTION

## CUSTOM HINGED DOORS

# MODEL

### Custom Doors with Hinge Routing

### DOORB L

### DOORB R

### DOORW L

### DOORW R

- Base doors (DOORB L and DOORB R) will always be square.
- Wall doors must specify square/cathedral/arch.
- Plastic mollies pressed in 8mm holes to accept screws to anchor the hinges to the back of these doors.
- Hinges must be ordered separately and specified full or partial overlay.
- Available in all door styles except Catalina, Graniti, Tranter, Trystan, Wixom, and Worthen. For Graniti, Tranter, and Wixom use DOORSLAB (see page 351). For Catalina, Trystan, and Worthen, standard door sizes must be ordered.
- Doors are finished on both sides and routed for hinges.
- CG modification available, maximum size is 23 1/2" x 43".
- Custom dimensions are required when placing order and can be specified in 20/20 or on the order form.

CUSTOM HINGED DOORS

## DESCRIPTION

## MODEL

## DECORATIVE APPLIANCE PANELS

All custom panels and doors can be ordered through 20/20. For manual orders, please fax the order form to customer service. See page 354.

Due to customized ordering, Decorative Appliance Panels may not be returned.

**Custom Panels & Doors (DAPNL.. and DADOOR..) square footage requirements are calculated by multiplying the height and width for each panel and door (square footage = width x height (in inches)/144).**

## Custom Panels

## DAPNL1/4

## DAPNL3/4

- DAPNL1/4 includes 1/4" finished veneer on MDF core, panel cut to fit appliance doors. Panels mount to the appliance using trim kits provided by the appliance supplier.
- DAPNL1/4 is finished on face only, edges are not finished.
- DAPNL3/4 kit includes 3/4" furniture board core veneer panel finished on both sides, and all four edges. Panel is cut to fit appliance doors, and mounts to the appliance using trim kits provided by the appliance supplier.
- Custom sizes available in 1/16" increments.
- DAPNL3/4 can be ordered in APC.

	Maximum Width	Minimum Width	Maximum Height	Minimum Height
DAPNL1/4	48"	5"	96"	5"
DAPNL3/4*	48"	5"	48"	5"
DAPNL3/4**	30"	5"	96"	5"

\*If DAPNL3/4 is 48" high or less

\*\*If DAPNL3/4 is greater than 48" high

Grain on panels will follow the height dimension (vertical)

## DAPNL1/4P

## DAPNL3/4P

## DAPNL1/4HGP

## DAPNL3/4HGP

- DAPNL1/4P and DAPNL1/4HGP are 1/4" thick laminated MDF panels cut to fit appliance doors. Laminated on face only, edges are not finished.
- DAPNL3/4P and DAPNL3/4HGP are 3/4" thick laminated MDF panels. Vertical and horizontal grain panels are laminated on both sides with edgebanding on all four edges. High Gloss panels have high gloss on front of panel, back of panel is white melamine. Edgebanding on all four edges will match door and drawer front edgebanding selection.
- DAPNL1/4P and DAPNL3/4P are available for use with Granite or Worthen featuring vertical grain or with Wixom featuring high gloss.
- DAPNL1/4HGP and DAPNL3/4HGP are available for use with Tranter featuring horizontal grain.
- Panel is cut to fit appliance doors, and mounts to the appliance using trim kits provided by the appliance supplier.
- Custom sizes available in 1/16" increments.

Model	Panel Type	Maximum Width	Minimum Width	Maximum Height	Minimum Height
DAPNL1/4P	Vertical Grain or High Gloss	48"	5"	96"	5"

Overlay Application (no Backer Panel)

Framed Application

## Square Profile:

## DADOORB

## Arch/Cathedral Profile:

## DADOORW

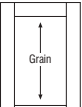

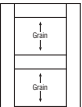

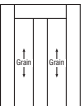

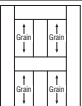

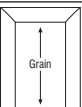

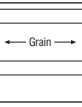

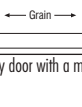

## Horizontal Grain, Square Profile:

## DADOORHG

- DADOORB is a custom sized door with a square door profile (Arch & Cathedral styles will always be square).
- DADOORW is a custom sized door with the door profile matching the selected door style profile (Arch & Cathedral styles will be Arch/Cathedral).
- DADOORHG is a custom sized door with a square door profile (even when ordered in an Arch or Cathedral style). Stiles and rails are built as doors with a single center panel.
- DADOORHG center panel grain runs horizontal.
- DADOORHG will utilize a flat panel on raised panel styles when width or height is less than 10".
- Includes a 3/4" thick door made to a custom size for the appliance front. No backer panel included.
  - Some appliances require a .10" spacer and/or a 1/4" backer panel.
  - The 1/4" backer panel may be ordered separately (see DAPNL1/4).
- All doors will be specified "NO HINGE ROUTE". Backs may have identification marks, be unfinished, and have 3/16" diameter holes used during finish processing. For these reasons, these doors are not suitable for use as cabinet doors.
- DADOORB and DADOORW not available in Catalina, Graniti, Tranter, Trystan, Wixom, and Worthen. DADOORHG not available in Catalina, Graniti, Liberty, Tranter, Trystan, Wixom, and Worthen. For Decorative Appliance Panels, standard door sizes must be ordered.
- Custom sizes available in 1/16" increments.
- CG modification available, maximum size is 23 1/2" x 43" for DADOORB and DADOORW, and 43" x 23 1/2" for DADOORHG.

## ARCHITECTURAL ACCENTS

All embellishments marked with the follow these guidelines:

### Program Details

- Products are shown with availability and exceptions noted.
- Items will be shipped loose for field attachment.

### Product Characteristics

- Natural characteristics of wood carved items are wider color range, irregularity of surface texture, and more noticeable variations in finish. It is imperative to understand the variations these characteristics entail and therefore will not be considered defective.

### Ordering Process

- To ensure product ships with the cabinet order, include on same order. Orders not placed together may not ship together.
- Express Response program is available for 12 day delivery.
- Must specify wood specie, finish, and technique, if different than the rest of the order.
- Since these items are ordered on an "as-required" basis, **no changes or cancellations will be accepted after 24 hours from acknowledgement of order.**

## TOUCH LATCH

## TOUCHLATCH

- Nylon grey mechanism with bumper tip.
- Face frame will need to be field drilled for insertion of the TOUCHLATCH, requires 25/64" (10mm) drill bit.
- Can be field adjusted for door gap depth, no tools required.
- For use on full overlay door styles only.
- Requires a soft touch to open the door, and door must be pushed closed to reset the TOUCHLATCH mechanism.
- Only for use on hinged doors, and can be used without decorative hardware. Not compatible with non-hinged doors such as pull-outs, Wall Vertical Lift (WVL). For drawers, pull-outs, and other non-compatible cabinets, PULLH70 and PULLH71 are recommended (see below).

## FINGER PULL, BRUSHED NICKEL

## PULLH70

## PULLH71

## PULLH70

## PULLH71

## TRUSS METAL CORBEL, STAINLESS STEEL

## CORBELTRSS

- Pre-drilled mounting holes for easy installation.
- 1/4" material thickness.
- Not intended for cabinet or freestanding countertop support. For substantial weight support, use a floor mounted support such as a Decorative Leg.
- Must be properly installed into a structural member of the wall.

## CRESCENT METAL CORBEL, BRUSHED NICKEL

## CORBELCRBN

- Matching screw caps included to hide the installation screws.
- Pre-drilled mounting holes for easy installation.
- 1/4" material thickness.
- Not intended for cabinet or freestanding countertop support. For substantial weight support, use a floor mounted support such as a Decorative Leg.
- Must be properly installed into a structural member of the wall.

## SHELF SUPPORT BRACKET, SATIN NICKEL

## SHELFBRKTSN

- Sold in pairs.
- Can be used with glass shelves 0.28"-0.75" (7-19mm) thick, or wood shelves 0.5"-1.61" (12-41mm) thick.
- Must be properly installed into a structural member of the wall.
- Maximum shelf load varies with shelf depth. For a 12" deep shelf, maximum shelf load is 50 lbs. each including shelf weight.

## CLEAR CASTER

## CASTERCLR

- Wheel diameter: 3 5/32".
- Fastening type: Swivel.
- Dynamic load rating is 110 lbs. per caster maximum. Not intended for heavy load applications such as islands with high storage capacity and heavy countertops.
- Does not have a locking feature.
- Sold in pairs.

## DESCRIPTION

## MODEL

### LIGHTING

- LEDs are a solid state lighting source. LEDs are more efficient, durable, and safer than older light sources.
- CW = Cool White (Kelvin rating: 5000)
- WW = Warm White (Kelvin rating: 3200)

### LED PUCK LIGHTING, STANDARD

#### PUCK18CW

#### PUCK18WW

- Contains 18 LED diodes with a life span of 50,000 hours.
- Measures less than 1/4" for low profile surface mounting.
- 65° beam angle.
- Compatible with Dimmable Driver (DIMM241512) and Power Extension Cable (CABL2500).
- Available in: warm or cool white in plastic housing with an aluminum color finish.
- Puck dimension is 2.56" x 2.56" (65mm x 65mm).
- Power usage: 1.25 watts.
- Voltage: 24V Compatibility.

### LED PUCK LIGHTING, HIGH DEFINITION

surface mount

flush mount

#### PUCK24CW

#### PUCK24WW

- Contains 24 LED diodes with a life span of 50,000 hours.
- Surface or flush mounted (remove ring for flush mounting).
- 50° beam angle.
- Compatible with Dimmable Driver (DIMM241512) and Power Extension Cable (CABL2500).
- Available in: warm or cool white light in aluminum housing.
- Puck diameter is 2.58" (65.5mm) and height is 0.41" (10.5mm).
- Power usage: 1.65 watts.
- Voltage: 24V Compatibility.

### LED FLEXIBLE STRIP

#### FLEX12CW

#### FLEX12WW

#### FLEX36CW

#### FLEX36WW

- Linkable and trimmable in increments of either 3" (FLEX12..) or 3 1/4" (FLEX36..), not to exceed a total of 18'.
- Adhesive back.
- Compatible with Dimmable Driver (DIMM121512) and Flex Driver Connection Lead (LEADDFLX2500).
- Suggested use: installed over cabinet, under cabinet, in cabinet, and on the toekick.
- Available in: warm or cool white.
- FLEX12.. Dimensions: Length 11.81" (300mm), Width 0.31" (8mm), and Depth 0.1" (2.5mm).
- FLEX36.. Dimensions: Length 39.37" (1000mm), Width 0.31" (8mm), and Depth 0.1" (2.5mm).
- Power usage: 0.8 watts (FLEX12..) and 2.5 watts (FLEX36..).
- Voltage: 12V Compatibility.

## DESCRIPTION

## MODEL

### LED RIGID STRIP

#### RIGID12CW

#### RIGID12WW

#### RIGID24CW

#### RIGID24WW

- Linkable.
- Suggested use: straight runs (use link wires for corners).
- Available in 12 or 24 diodes per stick.
- Easy-to-clean, protective shell.
- Compatible with Dimmable Driver (DIMM121512) and Rigid Driver Connection Cable (CABLRIDG2500).
- Available in: warm or cool white.
- Includes brackets and screws for easy installation.
- 50,000 hour life span.
- Dimensions (12 Diodes): Length 11.81" (300mm), Width 0.31" (8mm), and Depth 0.24" (6mm).
- Dimensions (24 Diodes): Length 11.22" (285mm), Width 0.31" (8mm), and Depth 0.24" (6mm).
- Power usage: 0.8 watts (RIGID12..) and 1.5 watts (RIGID24..).
- Voltage: 12V Compatibility.

### BATTERY STRIP LIGHT

### BATT1T1

- Battery operated — (4) AAA batteries (not included).
- Motion activated.
- Low power usage (0.3W).
- Plastic aluminum finish.
- Dimensions: Length 11.93" (303mm), Width 0.67" (17mm), and Depth 0.55" (14mm).
- Easy adhesive install.

## DESCRIPTION

## MODEL

AC DIMMABLE DRIVERS  
(DAYBREAK)DIMM121512  
DIMM241512

- Compatible with most standard wall dimmers.
- Drivers can be hard wired or used with included plug head. Multiple drivers can be used with a single wall dimmer switch and voltages can be mixed.

	Voltage	Wattage (Max Load)	Connector Ports
DIMM121512	12	15	12
DIMM241512	24	15	12

## INFRARED LIGHT SWITCH

## IR1224

recess  
mountsurface  
mount

- Compatible with both 12V and 24V products.
- Can be installed inside or under a cabinet or recessed into moulding, turns on and off by passing hand in front of it or when cabinet door is opened or closed.

## LIGHTING ACCESSORIES

- LEDs are a solid state lighting source. LEDs are more efficient, durable, and safer than older light sources.

## POWER EXTENSION CABLE

## CABL2500

- Provides an additional 98.43" to reach those fixtures which are out of reach with the standard power leads.
- Features a male connector on one end and a female connector on the other.
- Compatible with PUCK18\_\_ and PUCK24\_\_.

FLEX DRIVER  
CONNECTION LEAD

## LEADDFLX2500

- Required part for each LED flexible strip series, connects the first LED flexible strip in the series to the driver.
- Lead length is 98".
- Compatible with FLEX12\_\_ and FLEX36\_\_.

## FLEX INTER CONNECTIONS

## CONNFLXCRN50

## LEADFLXIC500

## LEADFLXIC1500

## CONNFLXCRN50

LEADFLXIC500  
LEADFLXIC1500

- Used with the LED flexible strips to connect strips together while allowing a gap between sections.
- CONNFLXCRN50 is 1.97" (50mm) and is recommended for the connection of two flexible strips around a corner.
- LEADFLXIC500 is 19.69" (500mm), suggested use is around small obstructions.
- LEADFLXIC1500 is 59" (1500mm), suggested use is around large appliances such as microwaves and refrigerators.
- Compatible with FLEX12\_\_ and FLEX36\_\_.

## DESCRIPTION

## MODEL

RIGID DRIVER  
CONNECTION CABLE

## CABLRIGD2500

- Required to connect the first LED strip in a series to the driver.
- Cable length is 98".
- Compatible with RIGID12\_\_ and RIGID24\_\_.

## RIGID INTER CONNECTIONS

## CABLRIGCRN30

## CABLRIGIC300

## LEADRIC1500

## CABLRIGCRN30

## CABLRIGIC300

## LEADRIC1500

- Used with the LED rigid strips to connect strips together while allowing a gap between sections.
- CABLRIGCRN30 is 1.18" (30mm) and is recommended for the connection of two rigid strips around a corner.
- CABLRIGIC300 is 11.81" (300mm).
- LEADRIC1500 is 59" (1500mm), suggested use is around large appliances such as microwaves and refrigerators.
- Compatible with RIGID12\_\_ and RIGID24\_\_.

## RIGID STRIP END CAP

## ENDRIG

- Used to provide a clean and professional termination of the rigid strip light series.
- Compatible with RIGID12\_\_ and RIGID24\_\_.

QUATTRO DIMMING  
RECEIVER

## QDIMREC

- Wireless RF control for an easy, no wire installation.
- Unlimited receiver locations per zone.
- Up to 100' of wireless operation even through obstacles like walls.
- 256 levels of extra smooth dimming.
- Soft start On/Off for gradual dimming.

QUATTRO WALL  
CONTROLLER

## Q4ZONECON

- Wireless RF control for an easy, no wire installation.
- Unlimited receiver locations per zone with Quattro Dimming Receiver.
- Up to 100' of wireless operation.
- Detachable face for easy handheld remote operation and battery changing.
- Up to 100' of wireless operation even through obstacles like walls.
- Multiple switches per zone for easy 2, 3, or 4 way control.
- Can be ganged (grouped) with wall switches or outlets behind a single cover plate.
- Includes low cost, long life lithium 3V battery for up to 10 years of operation.

## DESCRIPTION

## MODEL

## ANGLED HEAT SHIELDS

**ANGLHEATSHIELD**  
**ANGLHSHIELDSS**

- ANGLHEATSHIELD is a pair of 1/16" thick, white powder coated metal shields.
- ANGLHSHIELDSS is a pair of 1/16" thick, stainless steel metal shields.
- Heat Shield is used to deflect heat from self-cleaning ovens away from cabinet doors and drawer fronts.
- For use when additional 1/8" cannot be added to the oven manufacturer's recommended space requirement.
- Cabinet door cannot be hinged on the same side as the angled heat shield, not compatible with double door cabinets. Installs on the front of the face frame of each cabinet adjacent to the oven.

## STRAIGHT HEAT SHIELDS

**STRTHEATSHIELD**  
**STRTHSHIELDSS**

- STRTHEATSHIELD is a pair of 1/16" thick, white powder coated metal shields.
- STRTHSHIELDSS is a pair of 1/16" thick, stainless steel metal shields.
- Heat Shield is used to deflect heat from self-cleaning ovens away from cabinet doors and drawer fronts.
- For use when additional 1/8" can be added to the oven manufacturer's recommended space requirement.
- Installs on the side of the face frame of each cabinet adjacent to the oven.

**K-CUP®\* INSERT**
**WBCPOKCUP**

- Holds 44 K-Cups®, compatible with K-Cup® pods only.
- Wire K-Cup® rack for easy field installation on either the left or right side. Compatible with all heights of 3" wide box column pull-outs (WBCPO., see pages 141 and 142). Depending on height of pull-out, shelves can be used above or below insert for additional storage: 30" and 33" high include 4 shelves, not compatible with insert. 36" and 39" high include 5 shelves, one shelf recommended for use with insert. 42" high includes 6 shelves, two shelves recommended for use with insert.

\*K-Cup® is a registered trademark of Keurig Green Mountain, Inc.

- For use in 36" wide drawer base cabinets in 6 3/8" or 10" deep drawers, trimmable for cabinets less than 36" wide. Not recommended for use in roll trays.
- Pegged Board is 19/32" thick.
- 29 15/16" x 19 1/2".
- Posts are 6" high.

## POTS &amp; PANS PULL-OUT

**PPP**

- For use in 24" wide cabinets.

**PPP30**

- For use in 30" wide cabinets.

**PPP****PPP30**

## DESCRIPTION

### POWERGLIDE™ COMPACT DRAWER OUTLET

## MODEL

### DRWPWR1

- Outlet has a total rated capacity of 15 amps.
- Includes two 120V electrical plug-ins and two 2.1 amp rated USB charging ports.
- Cord has 3 ft. of length hanging freely from back mounting bracket. The cord is 14 gauge wire and features a standard 3-prong plug and is required to be plugged into an approved AFCI/GFCI dual function outlet for all applications.
- Outlet is ETL approved-compliant for electrical and other safety standards to U.S. and Canadian safety including UL standards.
- Requires field installation including a 4.25" x 2.13" square hole to be cut into the back of the drawer box.
- Outlet face plate measures 5.22" x 2.3" and will extend 3/4" into drawer box.
- A minimum drawer box height of 2 5/8" is required for installation.
- For use in base cabinet widths of 18" to 36".
- For use in cabinet depths of 15", 18", 21", and 24".
- Also available as an installed modification, see DRWPWR on page 43.

## POWER POD

LOGIX

JPWRPODBK (Black)

JPWRPODSS (Stainless Steel)

JPWRPODGM (Gun Metal Black)

- Includes: independent power switch, three electrical sockets, and two USB ports (*located above power switch*).
- 18" of clearance required below surface mount location; and 3 9/16" diameter hole is required in countertop to install.
- This item requires field installation. This accessory cannot be installed above drawers.
- Safe for countertop installation: rated IP54-splash proof from splashing water and water jets per IPX waterproof specifications; and is ETL approved-compliant for electrical and other safety standards to North America safety including: UL, ANSI, CSA, ASTM, and NFPA standards.
- When installed, top lip of strip sits on top of countertop with a pivoting handle. Handle is pulled up to bring bottom of power strip to countertop.
- Cord is 8 ft. long and features a standard 3-prong plug for use in any household outlet. 10 amps.

## SINK BASE CADDY

LOGIX

## SBCADDY

- Caddy is removable and portable.
- Recommended for use in cabinets 18" and wider.
- Caddy dimensions are: 9 15/16" wide x 18 5/16" tall x 18 5/8" deep.
- Caddy fits in cabinets with a **minimum**: 12" wide x 20 1/2" high frame opening x 21" deep cabinet.

## DESCRIPTION

### SLIDING TOWEL RACK

## MODEL

### STR

- Metal.
- 5" wide x 17 3/4" long x 1 1/2" high.
- Fits in any sink cabinet.

## SPICE RACKS

## SRCH12

## SRCH15

## SRCH18

## SPICE RACK PULL DOWN

LOGIX

## SPD18

- Spice Rack Pull Down dimensions: 8 15/16" high x 14 13/16" wide x 10 5/16" deep.
- Maximum Weight Capacity: 15 lbs.
- Must be installed on the floor of the cabinet. Cannot be installed on an adjustable shelf.

## SHELF PULL DOWN

LOGIX

## SHLFPD36

- Shelf Pull Down dimensions: 18 11/64" high x 28 1/4" wide x 8 1/2" deep.
- Clearance dimensions: 19 3/8" high x 15 3/8" wide.
- Maximum Weight Capacity: 26 lbs.
- Must be installed on the floor of the cabinet. Cannot be installed on an adjustable shelf.

## TABLET HOLDER

LOGIX

## TABLETHLDR

- Mounts under 15" wide cabinet or wider.
- Designed for cabinets 12" deep or deeper.
- Features an acrylic mounting base and pull-down tablet holder tray.
- Tray is movable forward and backward with a slight side to side rotation, and can be utilized at any position.
- Tray has side cut-outs for a charging cord and can be used to store most tablets when closed, depending on overall thickness, width, height, and weight of the tablet.
- Maximum dimensions for tablet: 11 1/4" x 8 1/2" x 1 1/8" thick. Maximum tablet weight is 3 1/2 lbs.
- Tablet Holder has an overall height of 1 17/32" when installed and in closed position (measured from the bottom panel of the cabinet), 0.78" visible from front of cabinet when closed.
- Installation instructions included.

## DESCRIPTION

## MODEL

TOEKICK VACUUM  
and BAGSCABVAC  
VACBAG

- 120V compact vacuum cleaner for field installation into the toekick area of base cabinets. Toekick area must be routed for vacuum to be inserted and screwed into place.
- Flooring installation must be compatible with the vacuum by ensuring the bottom of the cabinet is flush with the top of the flooring to allow clearance for the tray to open for changing the bag. The flooring should either be installed under the cabinets or the cabinets can be raised to the flooring level.
- Vacuum is 120V-60Hz, rated current of 5 amps, and rated input power is 650W.
- Cord is 10 ft. from the right side of the unit and features a standard 3-prong plug for use in any household outlet.
- Built-in switch can be gently tapped to turn the unit on, a 10 second timer will automatically turn the unit off.
- Should not be installed in a sink base, bathroom, outdoors, or in other wet environments. Do not expose to moisture, rain, or snow. Do not pick up water or sweep water into the vacuum.
- For installation in the front toekick, cabinet must have a minimum depth of 22" and a minimum width of 18". For installation in an end panel, cabinet must have a minimum depth of 21" and a minimum width of 21".
- CABVAC includes a 0.5 gallon vacuum bag and filter installed along with five replacement bags and one replacement filter. Also Includes two plastic covers for field installation (stainless steel look and white).
- VACBAG includes five replacement bags and one replacement filter.
- CABVAC is available included with modifications VACTK, VACL, and VACR which prepares the cabinet for the CABVAC installation by routing the toekick area in the center of the front toekick or end panel (see page 48).

TILT-OUT TRAYS,  
PLASTICTOT15  
TOT18

- Kit includes two white plastic trays and one pair of tilt-out hinges that attaches to the inside of the false panel.
- One tilt-out tray per false panel on cabinets less than 30" wide and greater than 36" wide, two tilt-out trays attached to one false panel on 30"-36" wide cabinets.
- Clean using a mild soap and water. Avoid scalding water.

## HINGES

## HINGES

**38NPOHINGE Integrated Soft Close, 6-way Adjustable, 1/2" Partial-overlay, 107° Hinge**

All cabinets not specified by other hinges.  
For use on full overlay styles: Base Transition Cabinets (BTC), Wall Transition Cabinets (WTC), Stacked Wall Transition Cabinets (STWTC), Diagonal Wall (DW) and Base (DAB) Cabinets, Angled Corner Sink Bases (ACS) & Fronts (ACSF), and Wall Top Hinge (WTH) Cabinets with Modified Full Overlay (MFO).

**38CFOHINGE Integrated Soft Close, 6-way Adjustable, Full-overlay, 107° Hinge**

All cabinets not specified by other hinges

**38BFOVHINGE Integrated Soft Close, 4-way Adjustable, Full-overlay, Face-mount 107° Hinge**

OCD, OMC, and OCS cabinets  
36" and 42" high WBMW, full and partial overlay

**32049HINGE 90° Corner Self-Closing Center Hinge**

Center Hinge for ER, BLS, SLS, BER, BERAS, and CS

**942HINGE 170° Hinge**

BSC, BLS, SLS, BER, BERAS, CS, and ER

**7299HINGE Mirror Hinge**

TV and MC cabinets

- Sold in pairs.

**HINGE ANGLE RESTRICTION CLIP****HINGERESCLIP**

- For use in applications with cabinets installed at varying depths to prevent the door damage caused by opening into an adjacent cabinet.
- Restricts hinges to 86° opening capability.
- Works only with the 38NPOHINGE and 38CFOHINGE.
- Not recommended for cabinets with roll trays specified in partial overlay styles.
- Sold in pairs.

**NEW HINGE SHIM****HINGESHIM5**

- Install between the face frame and hinge to allow additional adjustment of doors. Can be used to reduce gap between butt doors.
- Pack of 5 metal shims.
- Compatible with all hinges except face-mount.

**LIDSTAY****LIDSTAY**

- Sold in pairs.
- Recommended for field installed wall top hinge applications up to 18" high.

**LIDSTAY - HEAVY DUTY****LIDSTAYHD**

- One heavy duty lid stay hinge required per cabinet.
- Recommended for field installed wall top hinge applications of 21" high cabinets.

## DESCRIPTION

Dear Diamond Customer,

Congratulations on your selection of Diamond cabinetry with an Heirloom finish. Because of its unique characteristics, this finish is quite different from other cabinetry finishes you may be familiar with. Your satisfaction is important to Diamond, and we want you to fully understand the characteristics that make an Heirloom Finish unique.

Our heirloom technique is available on the following finishes: Black, Forest Floor, Juniper Berry, Maritime, Moonstone, Oasis, Seaside, Storm, and Tidal Mist. The finish will be sanded through the base coat to expose the surface of the wood. This type of sand through on the edges and profiles creates a naturally worn appearance. If a finish is chosen with a glaze, the glaze will be applied after sanding has been done. This will enhance those areas of exposed wood to take on the darker characteristics of the applied glaze.

Normal Characteristics of Painted, Sand-Through Finishes include:

- Hairline Cracking
- Visible textures of natural grain patterns
- Variation in rub through and wear techniques

Accordingly, we ask that the following agreement be signed for Heirloom Finish orders.

I have read the foregoing and find the characteristic variations of wood with Heirloom finish are desirable. As such, I agree not to hold Diamond and/or the Diamond dealer listed below responsible in the event that these characteristics are later found by me to be less desirable than I had expected.

Dear Diamond Customer,

Congratulations on your selection of Diamond cabinetry in an Opaque or Opaque with Glaze finish. Because of its unique characteristics, this finish is quite different from other cabinetry finishes you may be familiar with. Your satisfaction is important to Diamond, and we want you to fully understand the characteristics that make painted finishes so distinctive.

It is important to realize that the beauty of wood cabinetry comes from the natural qualities of wood itself. Diamond utilizes only select solid hardwoods and hardwood veneers. The beauty of these genuine woods lies in the variation of the grain. The textures of those natural grain patterns often remain visible with paint finish and should be accepted as inherent characteristics when selecting painted cabinetry.

Seam lines and hairline cracking at stile, rail and panel joints are a normal characteristic of painted/opaque finishes and should not be considered a reason for product replacement. When ordering painted Maple 5-piece styles, the door's center panel will be constructed of MDF material. Over time, there may be a slight color shift in the paint finish due to the continued exposure to natural and artificial light sources. We mention these characteristics because neither Diamond nor your Diamond dealer can be responsible for these conditions and variations.

*Example of front joint separation*

*Example of front joint separation*

*Example of end joint separation*

Accordingly, we ask that the following agreement be signed for Paint Finish orders.

I have read the foregoing and find the characteristic variations of wood with painted finish are desirable. As such, I agree not to hold Diamond and/or the Diamond dealer listed below responsible in the event that these characteristics are later found by me to be less desirable than I had expected.

Dear Diamond Customer,

Congratulations on your selection of Diamond cabinetry in Rustic Alder. Because of its unique characteristics Rustic Alder is quite different from other wood types you may be familiar with. Your satisfaction is important to Diamond, and we want you to fully understand the characteristics that make Rustic Alder so distinctive.

It is important to realize that the beauty of wood cabinetry comes from the natural qualities of wood itself. Rustic Alder is characterized by its light brown and reddish undertones and may contain a variety of pin holes, open and closed knots of various sizes and colors, small cracks, bird pecks, mineral streaks, and grain variation. Some knots may have small holes through the panel. Larger holes will not be filled. In addition, the wood will contain color difference caused by variations in minerals found in the soil, creating visible mineral tracks. However, those characteristics that might compromise the structural integrity of the door will not be included.

Sound Closed Knot (not moveable) – Expected in Rustic Alder up to approximately 3” diameter.

Sound Knot with Cracks – Expect sound knots with open cracks up to approximately 1” in length.

Open Knot (through door) – Expected in Rustic Alder with open area up to approximately 3/4” diameter.

Note: 3/4” diameter is about the size of a penny. Holes created by open knots pass completely through the door and are desirable for this rustic look.

Unsound Knot (moveable core) – Not to be expected.

Knot Cluster (cluster of tight sound knots) – To be expected in Rustic Alder.

Worm Holes/Pin Holes (can go through door) – Can be expected on Rustic Alder up to approximately 1/4” diameter.

Worm Tracks – Can be expected on Rustic Alder in sizes up to approximately 1/8” wide by 8” long.

Rustic Alder as described is featured for doors, drawer fronts, and selected mouldings. Other areas of the product will utilize standard hard Alder. Customers should expect a much lower occurrence of rustic characteristics in these other areas. Also, the natural characteristics mentioned occur randomly in Rustic Alder. All doors, drawer fronts, and selected mouldings will contain some combination of the common Rustic Alder markings; however, it will be uncommon to find all markings on any single piece.

The natural characteristics of wood described above and variations in grain patterns and color are not considered reasons for product replacement. We mention these characteristics because neither Diamond nor your Diamond dealer can be responsible for these conditions and variations.

Accordingly, we ask that the following agreement be signed for Rustic Alder orders.

---

I have read the foregoing and find the characteristic variations of wood with Rustic Alder are desirable.

As such, I agree not to hold Diamond and/or the Diamond dealer listed below responsible in the event that these characteristics are later found by me to be less desirable than I had expected.

## NOTES

## NOTES

## NOTES

## **OUR COMMITMENT TO CHANNEL PARTNERS, DESIGNERS AND CONSUMERS**

Diamond's Express Response™ program is designed to expedite orders when customers need product faster than normal lead times to correct problems with an existing order.

Below is an overview of the program and what you can expect from Diamond's commitment to superior service.

### **GUIDELINES**

- Order must be associated with a previous order number.
- All orders received by 12 NOON E.T. Monday-Friday will be automatically scheduled for Express Response that same day. Orders received after the cutoff time will be processed on the next business day.
- Lead time calculation is based on receipt of a clean order on a credit-worthy account. Clean orders are orders in which all information is provided and accurate.
- There are no cancellations or returns once order is received.
- Due to the special nature of Special Orders and Appliance Panels, they are excluded from the Express Response program and will be processed as a standard lead time order.
- Express Response is available within the continental United States. Should Alaska, Hawaii or international shipments be required, customer service representatives are ready to assist by providing shipping information and determining lead times.

### **LEAD TIMES**

#### **12 WORKING DAYS OR LESS FROM ORDER TO DELIVERY** (channel partner or home delivery agent):

- Items shipped via LTL (via SuperPAC™) or truckload.
- Includes all catalog items except those that can be expedited through the 5-day program listed below.

#### **5 WORKING DAYS FROM ORDER TO DELIVERY:**

- Qualified items are designated in the Pricing/Specification Guide with an icon .
- Items will ship via parcel ground.
  - Lead time calculation allows for 2 days parcel ground shipping time. Some geographic areas may require additional shipping time.
- For orders containing both 12 day and 5 day items, the longer lead time applies.
