

The Vermont Natural Coatings Story

Thank you for your interest in Vermont Natural Coatings Böhme hybrid, natural oil wood finishes. Böhme is a water-based natural oil exterior line of finishes designed for project specific application based on wood species and type of project. Böhme technology has been available in Switzerland for more than 150 years. Vermont Natural Coatings, in partnership with Böhme, now manufactures and distributes Böhme throughout North America. Like all Vermont Natural Coatings finishes, Böhme is very low in VOC, contains no toxic ingredients and is safe for people, pets and the environment.

I started Vermont Natural Coatings in my hometown of Hardwick, VT from a conviction that the choices we make about materials used in our homes, schools and workplaces should include consideration for health and the environment. Vermont Natural Coatings has grown by building strong relationships with store owners, contractors, and homeowners. Each connection is based on providing the very best wood protection, while making application and living conditions dramatically better.

REVOLUTIONARY

NATURAL OIL AND WATER HYBRID

Premium Exterior Stain & Finish

BoMol Exterior Trim Stain

Protects wood from damaging UV rays and delivers a paint-like surface build with the penetration of a stain. Bomol is ideal for use on **trim, doors, windows and siding** and can be used on new and pre-stained wood. Available in 5 colors. Less than 30g/L VOC, and cleans up with soap and water. Available in quarts, gallons and 5-gallon pails.

Ligno Exterior Wood Stain

Penetrates the wood to provide premium exterior protection with excellent flow and uniform color. Ligno is for use on **all exterior applications except for decks and stairs** and can be used on new and pre-stained wood. Available in 4 colors. Less than 30g/L VOC, and cleans up with soap and water. Available in quarts, gallons and 5-gallon pails.

Terra Plus Exterior Deck Stain

Provides lasting protection against moisture, mold and mildew with a strong resistance to foot traffic. Terra Plus is for use on **decking and exterior stairs** and can be used on new or properly prepared decks. Available in 4 colors. Less than 30g/L VOC, and cleans up with soap and water. Available in quarts, gallons and 5-gallon pails.

Aging Stain

Aging Stain is a premium exterior wood treatment that provides an instant aged appearance while protecting and stabilizing the wood structure. For use on **new or bare exterior wood**, Aging Stain provides a natural looking aged gray finish and evens out differences in wood tone. Available in quarts, gallons or 5-gallon pails.

Suncare 900

Protects the lignin in wood and provides enhanced UV protection. Suncare 900 is an exterior pre-treatment for **new or bare softwood**. It penetrates deeply to provide a beautiful uniform look and increases the life of the topcoat. Less than 30g/L VOC, and cleans up with soap and water. Available in quarts, gallons and 5-gallon pails.

Hydro-Oil Primer

Stabilizes the wood structure and extends the life of bare exterior wood. Hydro-Oil Primer reduces the effect of water marks, provides a more even topcoat application, and protects the topcoat from tannin bleed. Ideal for use on **new or bare cedar and hardwoods**. Less than 30g/L VOC, and cleans up with soap and water. Available in quarts, gallons and 5-gallon pails.

All of Vermont Natural Coatings products meet the strictest environmental standards in all 50 states and Canada.
