

# The Vermont Natural Coatings Story

Thank you for your interest in Vermont Natural Coatings PolyWhey® wood finishes. PolyWhey uses whey protein, a byproduct of cheese making, as its transformative ingredient to deliver safe, durable protection to all your wood surfaces. We manufacture our products in my hometown of Hardwick, Vermont, where my family operates an organic dairy farm. I started the company from a conviction that the choices we make about materials used in our homes, schools and workplaces should include consideration for health and the environment. Vermont Natural Coatings has grown by building strong relationships with store owners, contractors, and homeowners. Each connection is based on providing the very best wood protection, while making application and living conditions dramatically better. I look forward to hearing your Vermont Natural Coatings story and suggestions for new, naturally derived products that reflect our values and commitment to community, the environment and the better whey of doing business.

Thank you.

## PolyWhey® Floor Finish

This durable, safe clear wood finish resists water, chemicals and scratches. Easy to apply on bare wood or as a topcoat. Dries quickly, stays clear and cleans up with soap and water. Available in quarts, gallons and 5-gallon pails.

**Sheens:** Matte, Satin, Semi-Gloss

## PolyWhey® Furniture Finish

This grain-enhancing finish is recommended for all interior bare wood or previously stained/coated wood. Durable and safe enough for application on furniture, trim, toys, cupboards, tables and doors. Can be applied over oil-based stain or finish. Dries quickly. Apply with brush, paint pad or spray gun. Available in quarts, gallons, and 5-gallon pails.

**Sheens:** Satin, Semi-Gloss, Gloss

## Exterior Penetrating Wood Stain with PolyWhey®

Delivers color deep into wood for lasting beauty, waterproofs, and provides protection against mold, mildew and UV rays. Exterior Penetrating Stain with PolyWhey® technology is a durable, element repelling stain, sealer and topcoat for siding, decks, fences, furniture and other outdoor wood surfaces. Easy application, dries in an hour, soap and water cleanup. Available in quarts, gallons and 5-gallon pails.

## Penetrating Water Proofer Infused with Juniper

Stabilizes and seals wood from the inside, extending wood life by controlling moisture flow to reduce mold, mildew and decay. Penetrating Water Proofer is clear, allowing wood color to age naturally. Non-toxic, zero VOCs, and cleans up with soap and water. Juniper is nature's most powerful natural wood preservative, making Penetrating Water Proofer Infused with Juniper the ideal and most effective water proofer for decks, siding, docks, fencing and all outdoor wood projects. Available in quarts, gallons and 5-gallon pails.

## Heirloom Wipe-On PolyWhey®

Delivers the luxurious look and feel of hand rubbed finishes. Apply multiple coats on furniture, cabinets and craft items for a rich, durable finish. Easily applied with brush, cloth, synthetic brush or pad. Non-yellowing and less than 30g/L VOC. Available in quarts.

**Sheens:** Satin, Gloss

## Vermont Natural Coatings Wood Cleaner

Biodegradable, safe and strong, this cleaner removes dust, dirt, grease and stains from all wood surfaces. Ideal for residential and commercial use. Comes in handy 32 oz. spray and gallon concentrate.

## All-in-One Stain & Finish

Delivers vibrant color and uncompromising durability. Easy to use and soap and water cleanup. Establishes new performance and environmental standards in the stain & finish category with less than 30g/L VOC. Available in quarts and gallons.

## Pre-Stain Wood Conditioner

Prevents streaks and blotches when staining interior wood projects. It is an essential treatment to prepare bare wood for uniform acceptance of Vermont Natural Coatings Stain & Finish. No odor, less than 30g/L VOC and quick drying. Available in quarts and gallons.

*All of Vermont Natural Coatings products meet the strictest environmental standards in all 50 states and Canada.*
