## FASTENING CATALOG

# WHY BOSTITCH?

WE TORTURE OUR TOOLS TO MAKE THEM BETTER. WE DROP THEM, DRAG THEM, PUMMEL THEM, SHAKE THEM, AND EVEN FREEZE THEM UNDER SUB-ZERO CONDITIONS. WHY GO TO THESE EXTREMES? BECAUSE WE KNOW THAT YOU DEMAND SUPERIOR PERFORMANCE. BOSTITCH IS UP TO YOUR CHALLENGE; YOU CAN DEPEND ON US. . . NO EXCUSES.

MANUAL FASTENING TOOLS .....	43-45
AIR ACCESSORIES & AIR HOSES .....	47-51
FASTENERS .....	53-64

IMPORTANT – READ CAREFULLY

You, and others working around you, can be seriously injured by fastener driving tools if you do not follow the instructions provided on the tool and in the operations manual. Used properly, these tools provide easy, safe, and efficient methods for driving nails and staples for all kinds of construction projects.

REFER to your Operations Manual, Parts List, or call BOSTITCH® Customer Service: 1-800-556-6696 if any of the terms used below are unfamiliar to you.

EYE PROTECTION which conforms to ANSI Z87.1 specifications and provides protection against flying particles both from the FRONT and SIDE should ALWAYS be worn by the operator and others in the work area when connecting to air supply, loading, operating or servicing fastener driving tools. Eye protection is required to guard against flying fasteners and debris, which could cause severe eye injury.

THE CONTACT TRIP, SEQUENTIAL TRIP AND SELECTABLE TRIGGER

BOSTITCH® offers three types of triggers for pneumatic tools: Contact Trip (black trigger), Sequential Trip (silver-gray trigger) and Selectable Trigger. Each trigger has specific advantages. For example, the Contact Trip is best suited for high-volume, rapid nailing or stapling where exact placement of the fastener is not important. The Sequential Trip is best suited for applications where rapid nailing is not required or where the exact placement of the fasteners is important. You should evaluate your construction project to determine which trigger type is best for you. Tools equipped with selectable trigger allow easy selection of contact or sequential trip with the turn of a dial.

CONTACT TRIP

A BOSTITCH® tool with the Contact Trip (black trigger) installed will drive a nail whenever both the trip and the trigger are depressed at the same time.

The tool can be used to rapidly drive nails by holding the trigger pulled and repeatedly bumping the trip against the work to be nailed (Bump Nailing). A nail is driven each time the trip is bumped against the work.

The Contact Trip will not prevent a nail from being accidentally driven if the trigger is held, pulled and the trip is bumped against any object or person. Never hold or carry the tool with your finger on the trigger unless driving fasteners.

The Contact Trip can also be operated by holding the tool against the work with the trip depressed and then pulling the trigger (Place Nailing). When using a Contact Trip for Place Nailing, the tool may bounce due to recoil, and if the tool is allowed to recontact the work surface while you are holding the trigger pulled, a second nail will be driven. The operator should allow the tool to recoil far enough to release the trip and avoid a second cycle. Don't push the tool down extra hard; let the tool do the work.

SEQUENTIAL TRIP

The Sequential Trip (silver-gray trigger) offers a positive safety advantage since it will not accidentally drive a nail if the tool is bumped against any surface or anybody while the operator is holding the tool with the trigger pulled.

It also allows Place Nailing without the possibility of driving a second nail on recoil as described under "Contact Trip."

The Sequential Trip gets its name from the "sequence" required to operate the tool. To drive a nail, the operator must first depress the trip against the work and then pull the trigger. To drive a second nail, the operator must lift the tool from the work, release the trigger, and then repeat the above sequence.

If further information is required, call BOSTITCH® Customer Service at 1-800-556-6696 or write to: BOSTITCH® Customer Service, 480 Myrtle Street, New Britain, Connecticut 06053.

LIMITED WARRANTY — U.S. and Canada Only

Effective December 1, 2005 BOSTITCH® , L.P. warrants to the original retail purchaser that the product purchased is free from defects in material and workmanship, and agrees to repair or replace, at BOSTITCH® option, any defective BOSTITCH® branded pneumatic stapler or nailer for a period of seven (7) years from date of purchase, (two [2] years from the date of purchase for BOSTITCH® branded cordless gas nailers and staplers, one [1] year from the date of purchase for compressors and tools used in production applications). Warranty is not transferable. Proof of purchase date required. This warranty covers only damage resulting from defects in material or workmanship; it does not cover conditions or malfunctions resulting from normal wear, neglect, abuse, accident or repairs attempted or made by other than our national repair center or authorized warranty service centers. Driver blades, bumpers, o-rings, pistons and piston rings are considered normally wearing parts. For optimal performance of your BOSTITCH® tool, always use genuine BOSTITCH® fasteners and replacement parts.

This warranty IS IN LIEU OF ALL OTHER EXPRESS WARRANTIES AND with respect to compressors and tools used in production applications, limits to a period of one (1) year from the date of purchase all implied warranties INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. BOSTITCH® SHALL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES.

Some states and countries do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state and country to country.

To obtain warranty service in the U.S., return the product, together with proof of purchase, to the U.S. BOSTITCH® National Repair Center. In the U.S. you may call us at 1-800- 556-6696 or visit [www.BOSTITCH.com](http://www.BOSTITCH.com) for address information. In Canada please call us at 1-800-567-7705 or visit [www.BOSTITCH.com](http://www.BOSTITCH.com).

BOSTITCH® manufactures over 2000 types of fasteners. Each fastener is engineered for optimal performance in BOSTITCH® tools, and for exceeding the performance expectations of our customers. Our goal is to continually increase efficiency, productivity, and quality, and to ensure building code compliance through reports ESR-2020, ESR-1539, ESR-1482, ESR-2122 and ER-120. Our team of engineers leads the industry in innovation and design. Utilizing our advanced laboratory, our team of engineers conducts **environmental testing** to study the effects of storm forces and other weather conditions, **withdrawal testing** to evaluate new coatings, **penetration testing** to evaluate drive characteristics, and **development testing** to optimize withdrawal, shear and pull-through performance.

Selecting the Proper BOSTITCH® Nails

Examples of BOSTITCH® Stick Nails

**BOSTITCH® Stick Nails** are designed, engineered and manufactured in four different forms and are generally identified by collation material – plastic, wire, paper or adhesive. Adhesive collation is used on finish nails and brads for trim and fine woodwork. Finish nails and brads range in length from 3/8" to 2-1/2" with diameters ranging from 15 to 23 gauge. The plastic, wire and paper collated nails are used for general framing and crating applications. Stick nails range in length from 1-1/2" to 6-1/4" with diameters ranging from 0.113" to 0.165".

Examples of BOSTITCH® Coil Nails

**BOSTITCH® Coil Nails** are made at a 15° angle, joined together with wire or plastic, and range from 3/4" to 4" in length with diameters ranging from 0.080" to 0.148". Applications typically include roofing, siding, fencing, framing and crating.

There are three types of **nail shanks** – smooth, ring and screw.. A **smooth shank** has a withdrawal capacity that is adequate for most applications. During the manufacturing of smooth shank nails, a coating is applied, which eases penetration resistance and ultimately helps improve the holding power of the fastener. However, when more holding power is necessary, a ring or screw shank should be used. A **ring shank** is designed for increased withdrawal strength in softwoods. The **screw shank** works well at improving the withdrawal capacity in hardwoods.

The metal and coating used on the shank of the nail are important when selecting the proper nail for the application. BOSTITCH® offers nails manufactured out of cold-worked carbon steel, cold-worked hardened steel, aluminum and stainless steel. Cold-worked carbon steel is most commonly used when corrosion resistance is not a concern; cold-worked hardened steel is most commonly used when attaching material to very hard substrates; and aluminum and stainless steel are most commonly used when severe corrosion resistance is needed due to the wood or environment in which the nail is installed.

Exclusive to BOSTITCH® is the THICKCOAT™ galvanization which provides a consistent, high-performance, corrosion-resistant coating. BOSTITCH® THICKCOAT™, as recognized in the exclusive code report ESR-1482, is designed to meet or exceed the performance of ASTM A153 hot dipped galvanized nails. THICKCOAT™ fasteners are available in all sizes of wire weld, coil and stick, and are specifically designed for use in ALL pressure treated lumber and exterior applications.

Nail Point

There are four basic point styles to consider for an application – diamond, blunt diamond, chisel, and blunt chisel. Proper selection is important as the nail point can cause the wood to split, rob the tool of power or affect the withdrawal capacity of the nail.

Selecting the proper BOSTITCH® Staples

All staples are joined with an adhesive coating that holds the staple together, aids the staple in penetration and keeps it from withdrawing from the wood. Light wire staples are measured in thousandths and heavy wire staples are measured by gauge. Staple gauges range from 15 to 18 and the lengths range from 1/2" to 2-1/2". Both light wire and heavy wire staples are available in steel, coated, and stainless steel, and are typically classified by the crown width. In some cases, staples are less expensive and may reduce material splitting as compared to nails.

# CORDLESS NAILERS

## CORDLESS NAILERS

### Cordless 15 GA Angled Finish Nailer

- Energy efficient gas combustion engine
- Lightweight design
- Overmolded rubber grip maximizes comfort and minimizes fatigue
- Tool-free adjustable depth guide sets nails to desired depths
- Tool-free jam clearance allows for quick and easy fastener removal
- Belt hook allows user to hang tool when not in use
- Low nail lock-out prevents dry fire and extends tool life
- 3.6V li-ion battery charges in one hour

15<sup>GA</sup>  
BOSTITCH NAIL

SKU #	WEIGHT	POWER	MAGAZINE CAPACITY	FASTENER TYPE	FASTENER LENGTH
GFN1564K	4.2 lbs.	332 in-lbs.	100	"FN" 15 GA Angled	1-1/4" - 2-1/2"
				See Pg. 58	

### Cordless 16 GA Straight Finish Nailer

- Energy efficient gas combustion engine
- Lightweight design
- Overmolded rubber grip maximizes comfort and minimizes fatigue
- Tool-free adjustable depth guide sets nails to desired depths
- Tool-free jam clearance allows for quick and easy fastener removal
- Belt hook allows user to hang tool when not in use
- Low nail lock-out prevents dry fire and extends tool life
- 3.6V li-ion battery charges in one hour

# FRAMING NAILERS

## FRAMING NAILERS

### 30° Low Profile Paper Collated Framing Nailer

- Low profile design for getting in-between rafters & tight spaces
- Tool-free selectable trigger allows for single-drive (Sequential Nailing) or multi-drive (Bump Nailing) modes with the flip of a switch
- Tool-free depth of drive adjustment designed for precise sinking of fasteners
- Internal air filter protects engine from harmful contaminants such as dirt and debris
- Adjustable rafter hook designed so end-users can use both hands when needed
- Last nail retention magnet prevents last nail from dropping out of the nose

SKU #	WEIGHT	POWER	MAGAZINE CAPACITY	FASTENER TYPE	FASTENER LENGTH
LPF33PT	7.6 lbs.	840 in-lbs.	92	30° Paper Collated	2" - 3-1/4"
				See Pg. 54	

### 21° Low Profile Plastic Collated Framing Nailer

- Low profile design for getting in between rafters & tight spaces
- Tool-free selectable trigger allows for single-drive (Sequential Nailing) or multi-drive (Bump Nailing) modes with the flip of a switch
- Tool-free depth of drive adjustment designed for precise sinking of fasteners
- Internal air filter protects engine from harmful contaminants such as dirt and debris
- Adjustable rafter hook designed so end-users can use both hands when needed
- Last nail retention magnet prevents last nail from dropping out of the nose

SKU #	WEIGHT	POWER	MAGAZINE CAPACITY	FASTENER TYPE	FASTENER LENGTH
LPF21PL	7.6 lbs.	840 in-lbs.	64	21° Plastic Collated	2" - 3-1/4"
				See Pg. 56	

28° Low Profile Wire Weld Framing Nailer

- Low profile design for getting in between rafters & tight spaces
- Tool-free selectable trigger allows for single-drive (Sequential Nailing) or multi-drive (Bump Nailing) modes with the flip of a switch
- Tool-free depth of drive adjustment designed for precise sinking of fasteners
- Internal air filter protects engine from harmful contaminants such as dirt and debris
- Adjustable rafter hook designed so end-users can use both hands when needed
- Last nail retention magnet prevents last nail from dropping out of the nose

Nails available in brite

SKU #	WEIGHT	POWER	MAGAZINE CAPACITY	FASTENER TYPE	FASTENER LENGTH
LPF28WW	7.6 lbs.	840 in-lbs.	92	28° Wire Collated	2" - 3-1/4"
				See Pg. 53	

21° Plastic Collated Framing/Metal Connector Nailer

- Designed to drive into engineered lumber
- Patented push button adjustable depth guide sets nail to desired depths
- Lightweight magnesium design for durability
- Two nailers in one: optional quick change nose pieces (sold separately) to convert tool to either framing or metal connector applications

MCN-KIT2: Metal Connector Kit

Nails available in brite, galvanized and stainless steel

SKU #	WEIGHT	POWER	MAGAZINE CAPACITY	FASTENER TYPE	FASTENER LENGTH	FASTENER DIAMETER

				See Pg. 54		

35° Metal Connector Nailer

- Exposed nail tip places fastener point directly into connector holes for a fast and precise application
- Compact design fits easily into hard to reach spaces - MCN150 only 10-1/2" tall
- Lightweight design for minimal fatigue
- In-line magazine offers balance for maneuverability
- MCN250 also available with compact single stick magazine - MCN250S

MCN250

Nails available in brite and galvanized

SKU #	WEIGHT	POWER	MAGAZINE CAPACITY	FASTENER TYPE	FASTENER LENGTH	FASTENER DIAMETER

				See Pg. 55		

15° Coil Sheathing/Siding Nailer

- Perfect for high-volume nailing of wall and roof sheathing
- Adjustable depth guide sets nails to desired depths quickly and conveniently
- Lightweight aluminum design
- Drives 15° wire weld collated and plastic inserted nails with shank diameters of .090" - .131"

Nails available in brite, galvanized and stainless

SKU #	WEIGHT	POWER	MAGAZINE CAPACITY	FASTENER TYPE	FASTENER LENGTH	FASTENER DIAMETER

				See Pg. 55		

21° Plastic Collated Heavy-Duty Timber Framing Nailer

- Drives plastic collated framing nails for timber framing and crating
- Tool-free adjustable exhaust to direct air away from users
- Smooth trip design for fast cycling
- Secondary handle for ergonomics and control
- Built-in hanging hook for high-production use
- No nail lockout to prevent dry fires and extend tool life

Nails available in brite

SKU #	WEIGHT	POWER	MAGAZINE CAPACITY	FASTENER TYPE	FASTENER LENGTH	FASTENER DIAMETER
BRT130	13.75 lbs.	1800 in-lbs.	50	21° Plastic Framing	4" - 5-1/8"	.131" - .165"
				See Pg. 56		

# ROOFING NAILERS

## ROOFING NAILERS

### 15° Coil Roofing Nailer

- Zero nail lockout feature eliminates dry-firing and indicates when to reload the magazine
- Nosepiece features carbide inserts for long-life performance
- Aggressive wear guards and skid pads protect the tool from damage on abrasive surfaces
- Quick-set adjustable depth guide sets nails to desired depths quickly and conveniently
- Patented, single-action, side-load canister for fast, one-step nail loading
- Adjustable shingle guide for quick shingle spacing

Nails available in galvanized and stainless steel

SKU #	WEIGHT	POWER	MAGAZINE CAPACITY	FASTENER TYPE	FASTENER LENGTH	FASTENER DIAMETER
RN46-1	4.9 lbs.	410 in-lbs.	120	15° Coil Roofing	3/4" - 1-3/4"	.120"
				See Pg. 57		

### 18 GA Wide Crown Roofing Stapler

- Jam-free magazine
- Power control valve adjusts power by 30%
- Aggressive wear guards and skid pads protect the tool from damage on abrasive surfaces
- Nosepiece features carbide inserts for long-life performance
- Over-molded rubber grip maximizes comfort and minimizes fatigue
- Adjustable shingle guide for quick shingle spacing

Staples available in brite, galvanized and stainless steel

15 GA "DA" Style Angled Finish Nailer Kit

- LED work-light for working in closets and dark spaces
- Rear exhaust to direct air away from the user
- Integrated air blower allows user to clear away debris from work surface
- Adjustable trigger with safety lock-out allows the user to choose between single or multiple fastener drive mode
- 16" on-center gauge flips out for quick and easy installation of baseboard
- Other features include: Oil-free operation, rear trip design for clear line-of-sight and dial-a-depth adjustment for precise fastener placement
- Kit includes: tool, carry case, fasteners, 2 standard no-mar tips, 4 profile no-mar tips, hose connection, and steel belt hook
- Drives 15 GA "DA" style angled finish nails

18 GA 2in1 Brad Nailer/Finish Stapler Kit

- Drives both 18-gauge brads and narrow crown finish staples for versatility
- Adjustable depth guide sets nails to desired depths quickly and conveniently
- Tool-free adjustable exhaust conveniently directs exhaust away from the user
- Kit includes: nailer, 1/4" air fitting, fasteners, carrying case, & extra no-mar tip

Nails available in coated and stainless steel

SKU #	WEIGHT	POWER	MAGAZINE CAPACITY	FASTENER TYPE	FASTENER LENGTH	
SB-2IN1	2.6 lbs.	135 in-lbs.	100	18 GA Brads	5/8" - 1-5/8"	See Pg. 59
				18 GA "SX" Staples	1/2" - 1-1/2"	See Pg. 59

23 GA Headless Pin Nailer Kit

- Adjustable high/low power control sets pin depth without changing compressor setting
- Low profile nosepiece tapers down to contact point for clear line-of-sight
- Kit includes: nailer, 1/4" air fitting, fasteners, carrying case, & belt hook

Nails available in coated

				See Pgs. 61, 62		

### 18 GA Cap Stapler

- Designed to be the preferred method of securing felt, house wrap and thin foam
- Adjustable depth of drive sets staples to desired depths quickly & conveniently
- Selectable trigger operation converts from sequential to contact operation
- Includes internal air filter for maximum reliability
- 1" diameter caps offer holding power for productivity
- The BOSTITCH® Cap method can work faster than nailing by hand

18<sup>GA</sup>  
BOSTITCH STAPLE

#### Staples available in coated

				See Pgs. 61, 62		

Mini Impact Nailer

- Rubber grip designed to insulate and reduce vibration
- Weighs only 1 pound
- 360° Swivel exhaust fitting for maximum accessibility
- Front exhaust directs air away from user's palm

SKU #	WEIGHT	FASTENER TYPE
PN50	1.0 lbs.	Bulk Finish, Framing & Timber Nails

15° Coil Sheathing-to-Steel Nailer

- Designed for fastening sheathing to light gauge steel studs
- Sheathing types – gypsum, steel, plywood, osb
- Optimized pneumatic engine for high production and power to drive through steel
- Fastener centering jaws for drive quality in all sheathing products
- Tool-free depth of drive adjustment designed for precise sinking of fasteners
- One-piece nail canister door for faster loading
- Driving guidance to preserve sheathing

SKU #	WEIGHT	POWER	MAGAZINE CAPACITY	FASTENER TYPE	FASTENER LENGTH	FASTENER DIAMETER
SF150C	6.8 lbs.	430 in-lbs.	200	15° Coil	1" - 1-1/2"	.100"

Impact Nailer Kit

- Ideal for driving common bulk nails into confined areas or nailing metal connectors and joist hangers
- Magnetic nose with recessed nail slot holds nails stable for accurate fastener placement
- Hardened steel nose for durability
- Kit includes: impact nailer, standard nose, finish nail nose, large bore nose, leather comfort glove, nose wrench, hex wrench, tool lubricant and spare o-rings

SKU #	WEIGHT	FASTENER TYPE
PN100K	2.9 lbs.	Bulk Finish, Framing & Timber Nails

Concrete Nailer

- Lightweight aluminum design for added durability
- High-speed pneumatic power increases productivity over other fastening methods
- Makes fastening of wood furring strips to concrete fast and easy
- High-capacity magazine reduces reload time

Nails available in hardened & stiff

SKU #	WEIGHT	POWER	MAGAZINE CAPACITY	FASTENER TYPE	FASTENER LENGTH	FASTENER DIAMETER

# COMPRESSORS & COMBO KITS

## COMPRESSORS & COMBO KITS

### 1.2 Gallon, 150 Max PSI, Oil-Free, High-Output Trim Compressor

- High-output oil-free pump delivers 2.8 SCFM @ 90 PSI and 150 max PSI operating pressure for multiple finish tool operation
- 1.5 max HP (Running) motor draws 12 amps for easy start up without tripping circuit breakers
- 1.2 gallon compact design weighs 23.5 lbs. for easy portability
- Integrated control panel with roll cage protects gauges from jobsite damage
- LED ON/OFF switch lets you know when the compressor is on to eliminate low-pressure misfires
- On-board tool and hose storage
- Convenient storage pocket for hand tools, fasteners and fittings
- Integrated cord wrap for easy storage
- Non-marring rubber feet

### 2.5-Gallon, 150 Max PSI, 2-Man Trim Compressor

- 2.0 SCFM\* delivered @ 90 PSI pump, 2.5 gallon tank and 150 max PSI enables many nails to be fired with quick recovery
- Durable oil-free pump provides extended maintenance-free operation
- Low 82 dBA\*\* allows for quiet operation
- Roll cage and control panel provide protection to key compressor components
- BOSTITCH® high efficiency/low amp motor for easy start up in cold weather or extension cord application [12GA 50 ft. (15.2 m) or less]
- Lightweight (32 lbs), thin (13") and compact design is easy to carry and store
- Ball valve drain allows for quick and thorough tank draining
- Two quick couplers to easily support 2 nailers
- BOSTITCH® high flow regulator and couplers to maximize nailer performance

Can be run in either vertical (higher pick-up) or horizontal position (Low CG)

BOSTITCH® Heavy Duty Staple Gun

- Heavy Duty with convenient handle lock for storage
- Chrome plated steel construction is durable and weather resistant
- Bottom-load magazine saves reload time and prevents loss of pusher

SKU #	WEIGHT	CAPACITY	FASTENER TYPE	FASTENER LENGTH	REF. PAGE
BT110	1.67 lbs.	84	BTA700 or Arrow® T50 HD Staples	1/4" – 9/16"	See Pg. 63

BOSTITCH® 2-in-1 Heavy Duty Staple/Brad Gun

- Aircraft grade aluminum housing is lightweight and durable
- Easy-squeeze handle reduces hand fatigue
- Bottom-load magazine saves reload time and prevents loss of pusher
- High/Low power switch for added versatility

SKU #	WEIGHT	CAPACITY	FASTENER TYPE	FASTENER LENGTH	REF. PAGE
BT160HL	1.36 lbs.	84	BTA700 or Arrow® T50 HD Staples	1/4" – 9/16"	See Pg. 63
			18 GA. Brads	1/2" – 5/8"	See Pg. 63

BOSTITCH® 2-in-1 Heavy Duty Cable Tacker

- Ideal for stapling low voltage wires such as telecom, alarm systems, and bell wire
- Built-in guide prevents damage to wires
- Aircraft grade aluminum housing is lightweight and durable
- Bottom-load magazine saves reload time and prevents loss of pusher
- High/Low power switch for added versatility

SKU #	WEIGHT	CAPACITY	FASTENER TYPE	FASTENER LENGTH
BCT10X	1.36 lbs.	84	STANLEY CT100 Series Round Crown Cable Staples	3/8" – 9/16"
			STANLEY CT300 Series Flat Crown Cable Staples	3/8" – 1/2"

BOSTITCH® Manual Hammer Tacker

- Durable heavy duty steel construction
- Comfortable rubber handle adds grip and reduces arm fatigue
- Uses Heavy Duty (BTA700 or T50) staples 1/4", 5/16" and 3/8"

SKU #	WEIGHT	CAPACITY	FASTENER TYPE	FASTENER LENGTH	REF. PAGE
BHT150	2.07 lbs.	168	BTA700 or Arrow® T50 HD Staples	1/4" – 3/8"	See Pg. 63

BOSTITCH® Heavy Duty Hammer Tacker

- Chrome-plated steel construction frame for corrosion resistance and durability
- Bottom-load magazine saves reload time and prevents loss of pusher
- Surface guard prevents underlayment damage
- Ergonomic comfort rubber handle minimizes fatigue and maximizes comfort
- Uses Heavy Duty staples, 5/16", 3/8" and 1/2"

SKU #	WEIGHT	CAPACITY	FASTENER TYPE	FASTENER LENGTH	REF. PAGE
BHT250	2.41 lbs.	168	BTA700 or Arrow® T50 HD Staples	5/16" – 1/2"	See Pg. 63

INDUSTRIAL FITTINGS

Pre-applied thread sealant for airtight connections. Simplifies field installation by eliminating the need for thread sealant tape  
Plated steel construction with drag guard for jobsite durability and reliability (all plugs and couplers)  
6-ball coupler design for balanced, strong, secure connections

# BOSTITCH®

**Get to the  
POINT.**

## Smart Point™ Nailers

# Smart Point™ Technology

**Improves Visibility\***

Easy to see where nail is driven

**Reaches Tight Spaces**

80% smaller nose than  
current BOSTITCH nailers

**Reduces Work  
Surface Damage**

No need to push against  
work to actuate tool

\*Compared to current BOSTITCH nailers

# Smart Point™

## Additional Features

### Maintenance Free & Protection

Oil-free operation requires no oil be added to the nailer

Front & side bumpers

### Ease of Use

Tool-free jam release

Selectable trigger

Rear exhaust

Dial-a-Depth® control

Tool-free adjustable belt hook

15 GA Nailer Only: air blower and 16" on-center gauge

# Smart Point™ Line-up

## AutoFeed Fasteners

PAMFast AutoFeed Fasteners are designed for a variety of wood and steel frame applications. Each fastener is engineered to deliver speed, ease, and strength benefits.

### PAMDrive Bit System

- PAMDrive is a tapered, 12-lobe drive system that eliminates bit stripping and cam-outs
- PAMDrive delivers solid bit engagement, resulting in much longer bit life and a smoother overall drive

### TORX® ttap® Drive System\*

- Strip-out resistant #20 TORX® ttap® drive system offers stick-fit wobble free installation
- TORX® ttap® drive system eliminates strip-out during installation or removal

\* Available only in TrapEase 3

### SubFloor

PAMFast SubFloor screws are designed for traditional OSB and Plywood subfloors

- Fast thread design drives up to 43% faster
- PAMDrive recess eliminates bit grinding and cam-outs
- Available in 1 1/4" – 3" lengths

### SubFloor High Density

PAMFast High Density SubFloor screws are designed for AdvanTech® subfloors

- Unique design ensures correct fastening in high density panels
- PAMDrive recess eliminates bit grinding and cam-outs
- Available in 1 1/4" and 2" lengths

### CopperHead

PAMFast CopperHead screws are designed for pressure treated lumber decking

- X-Point design and CopperHead coating eliminate splitting and corrosion
- PAMDrive recess eliminates bit grinding and cam-outs
- Available in 1 1/4" – 3" lengths

### TrapEase® 3

PAMFast TrapEase 3 screws are designed for AZEK PVC decking, Trex Transcend, and Trex Select

- Available in Gray, Brown, Dark Brown, and Red to match leading board colors
- TORX® ttap® drive system eliminates bit grinding and cam-outs
- Available in 2 1/2" length

### CementBoard

PAMFast Cement Board screws are designed for cement board underlayment.

- Thread design and modified wafer head deliver consistent countersink and holding power
- PAMDrive recess eliminates bit grinding and cam-outs
- Available in 1 1/4" and 1 5/8" lengths

### RoofTile

PAMFast RoofTile screws are designed for attaching roof tiles to wood substrates.

- Miami-Dade approved Corrosion-resistant for the life of the project
- PAMDrive recess eliminates bit grinding and cam-outs
- Available in 2 1/2" and 3" lengths

### Drywall Wood Studs

PAMFast DryWall screws are designed for attaching drywall panels to wood studs

- Thread design ensures quick penetration into wood studs
- Standard #2 Phillips drive recess
- Available in 1 1/4" – 2 1/2" lengths

### Drywall Steel Studs

PAMFast DryWall screws are designed for attaching drywall panels to steel studs.

- Thread design ensures quick penetration into steel studs
- Standard #2 Phillips drive recess
- Available in 1 1/4" and 1 5/8" lengths

AutoFeed Screw System

## PAMFast drives productivity

The PAMFast AutoFeed System is engineered to be smooth, fast and easy for the professional contractor. Its simple but rugged design is built to last and delivers smooth, consistent driving every time!

PAMFast can be used while standing or as a handheld system thanks to its removable extension pole design. This enables faster installation and eliminates the hassle of loose screws.

PAMFast drives short screws (3/4"– 3") in a wide range of wood and steel frame construction.

### Features:

- Smooth: No Jams and No stripping out bits
- Fast: 50 screws per strip = less reloading
- Easy: Adjust screw length, countersink depth, then drive!
- Dependable: Built for speed, versatility, and heavy use
- Can be used while standing or as a handheld system
- Extension pole is removable.

**PAMFast™** AutoFeed System

## P13KDE

### Decking & Subflooring

1"-3" Fasteners | 6.5 Amps | 2500 RPM | 140 mm Bit

## P13KUE

### Decking & Subflooring

1"- 3" Fasteners | 6.5 Amps | 2500 RPM | 140 mm Bit

Can be used with or without the extension

## PAM Autofeed Screwdriving Systems

### Versatile Tools

## IM325XP Cordless Impulse XP Framing Nailer

*Portable freedom  
on the jobsite  
without hoses or  
compressors*

### INCLUDES

Cordless Li-ion Framing Nailer, Model IM325XP  
Rechargeable 7.4V Li-ion battery  
Li-ion battery charger  
Rugged carrying case  
Owner's manual  
Safety glasses  
5/32" Hex Wrench

### DESCRIPTION/SUGGESTED SPECIFICATIONS

#### *Cordless Impulse XP Framing Nailer—*

**IT'S MORE THAN A NAILER, IT'S A NAILING SYSTEM THAT GETS THE JOB DONE RIGHT.**

The Paslode Lithium Ion cordless Impulse nailer has provided framers and renovators the ability to wood frame without air hoses for over 25 years. New Li-ion battery technology drives 50% more nails per charge. 2-times faster charge time; 2 minute quick charge drives up to 200 nails. Tool free depth of drive adjustment, non slip grip, dual position utility hook, sequential operation triggers.

#### LIGHTWEIGHT

#### QUICK LOADING

#### EASY ACCESS

### ADVANTAGES

- Portable, freedom on the jobsite without hoses or compressors
- Heavy-duty rafter/belt hook for taking jobsite abuse
- Non-slip grip provides comfort and reduces hand fatigue
- Tool free depth-of-drive nail adjustment changes nail depth in an instant – even while wearing gloves
- Nail lockout feature prevents blank driving
- Compact size fits between 16" o.c. studs, joists and roof trusses
- Li-ion battery – provides 50% longer run time (up to 9,000 nails per charge) than NiCd battery
- 1-hour Full Charge; 2-minute Quick Charge for Up to 200 shots
- Lightweight – 7.2 lbs. including battery for better comfort and control
- Works in cold temperature down to -10°C

## DESCRIPTION/SUGGESTED SPECIFICATIONS

### S200-S16 Framing Air Stapler—

**WITH THE RIGHT STAPLER AND STAPLES, YOU'LL HAVE THE JOB DONE IN NO TIME.**

Paslode staples drive flush into even the hardest woods. And, because Paslode staples are made for Paslode air staplers, you'll have fewer jams, fewer misfires and faster loading only a Paslode stapling System can deliver.

#### POWERFUL

#### FAST

#### LIGHTWEIGHT

## ADVANTAGES

- Extended bumper life, over 600,000 cycles without failure
- Versatile, drives 3/4" – 2" standard crown staples
- Two finger trigger provides more control
- Top load magazine for easy reload and reduced nail waste
- Quick-clear nose to clear jams quickly

## DESCRIPTION/SUGGESTED SPECIFICATIONS

### 18 Gauge Brad Nailer—

#### WE'VE GOT THE FACTS NAILED.

When you need precision in tight spaces, reach for the lightweight Paslode Cordless Finishing Nailing System. It gives great maneuverability to place the nail exactly where you want it wherever you're working: overhead, on ladders or on your knees. Our portable finish nailer, finish nails and fuel cells are designed to work in tandem so you get the job done right, right away

#### POWERFUL

#### PRECISE

#### PRODUCTIVE

#### PENNIES PER SHOT

## ADVANTAGES

- Li-Ion for 50% more shots (12,000) per charge
- Quick charge to 80% in 30 minutes
- New battery standby position conserves charge
- New easier depth of drive thumbwheel
- New reversible belt hook
- 8% lighter – 4.5 lbs with battery (compared with Ni-Cad battery)

## SELECTION CHART

### 18 Gauge Fuel and Finish Nail Packs

# T250S F16 16 Gauge Finish Nailer

*Precise  
placement  
Lightweight  
Compact*

## DESCRIPTION/SUGGESTED SPECIFICATIONS

### T250S F16 – 16 Gauge Finish Nailer—

**PRECISION AND POWER, LIKE OUR FINISHING NAILER AND NAILS, MAKE A GREAT PAIR.**

Our Pneumatic Finishing Nailer is designed to deliver consistent power to drive nails flush, while our finishing nails feature a chisel point design to help prevent wood splitting. When a system works together this perfectly, the results are easy to see.

#### LIGHTWEIGHT

#### PRECISE

#### PROFESSIONAL

## ADVANTAGES

- Consistent power even in hard to reach spots.
  - Compact, open line of sight drives nails where you want it to even in tight spots
  - Reliable power, delivers consistent drive energy in all types of wood
  - 16 gauge reduces wood splitting and nail visibility
- Tool-free depth of drive nail adjustment
- Powerful performer drives 3/4" – 2 -1/2" nails into the hardest woods
- Nail lockout prevents misdrives and surface damage
- Rotating exhaust cap easily moves dust out of the way

## ***Take Advantage of these Contractor Services from ITW Construction Products Canada***

From job sites to engineering firms, from Safety Seminars to on-site services, we hope you take advantage of our many contractor services—at no charge! After all, it's one thing to offer the quality products you need to do your job. It's another to provide you with superior service, engineering expertise and total product support.

At ITW Construction Products Canada, we are proud of the partnerships we have built through the years with our distributor network and contractors. Thanks to quality products, innovative services and on-time delivery, we will continue to build new relationships and strengthen existing ones today... and into the next century.

- Factory representatives with years of training and service experience will go out to your job site to provide you with product, service and technical assistance.
- We provide architects and engineers with complete submittal packages which gives them the technical data needed to specify ITW Construction Products Canada products. Contact your ITW Construction Products Canada Distributor or your nearest Customer Service location to request submittal packages.

## ***Technical Application Assistance:***

- Our staff of application specialists are ready to assist you with any type of application or code approval question during any phase of your project. Call 1-800-387-9692 between 8:00 a.m. and 5:00 p.m. EST, Monday through Friday.
