

## IT'S ALL WE DO.

VERSATEX is totally dedicated to cellular PVC trim, and is the leader in innovation, quality and technical assistance in the market. This translates to thickness tolerances half the industry norm and the development of revolutionary products. Because trim is all we do, we offer a level of product quality, service and expertise others can only dream of.

### GET THE LOOK YOU WANT

We offer two finishes: Smooth Matte and Timber Ridge. VERSATEX Trimboards can be ordered either Smooth/Smooth or Smooth/Timber Ridge.

### MORE LIKE REAL WOOD

Timber Ridge is designed with a more natural surface texture to compliment fiber cement and cedar.

### VERSATEX EDGES ARE "RIGHT"

VERSATEX Trim is cut with a proprietary system to keep the edges "sealed," clean, and dimensionally accurate with true 90° angles.

### THICKER OPTIONS

Our 1 1/2" Trim makes it easier to create thick pergola rafters, custom mouldings, and window casings.
