

SOFFIT SYSTEM

WE HELP YOU BREATHE.

At VERSATEX, we continually look for new ways to help reduce labor and improve aesthetics during installation. In doing so, we developed the first ever Vented Cellular PVC Soffit System. The Vented Soffit features 10 square inches of free airspace per linear foot, making it one of the most superior airflow systems in the market.

AVOID INSECTS

Vents are cut in a manner to prevent nesting insect infiltration. However, our soffit can be screened when required by code.

VERSATEX FASCIA AND FRIEZE

The Notched Fascia requires no flashing or cover. Notched Fascia and Frieze boards have a 9/16" plowed pocket to accept 1/2" solid or vented VERSATEX Soffit.

SOFFIT

Actual Sizes	Vented	Solid
	18'	18'
1/2" X 12"	•	•
1/2" X 16"	•	•
