

SANDOWN DRIVE DAYS 2013

Matching Trucks to the Road Network 9am - 12 noon, Friday 8th March

VicRoads, Roads Australia and ARRB Group is hosting an important demonstration and briefing on "Matching Trucks to the Road Network" from 9am until noon on the 8th March 2013 at Sandown Racecourse in Melbourne. This event will showcase Performance Based Standards (PBS) trucks that can be used on both the local and state road networks. It will take delegates through the tools available to assess and protect the road network and provide first hand advice to technical staff and Councillor who attend. Trucks will be available to be inspected and in some cases it will be possible to either drive or be a passenger in some of the vehicles.

The session will focus upon many of the critical issues relevant to local government when considering heavy vehicle access to local roads. Such as;

- The new approach to heavy vehicle access management under the National Heavy Vehicle Regulator (NHVR)
- Discussions regarding planning for heavy vehicle access in new and existing industrial estates
- A demonstration of the highly successful PBS Route Assessment Tool for local governments
- The features of new PBS vehicles and their effect on local road infrastructure
- A demonstration of the most common types of PBS vehicles

Sandown Drive Days is organised by the Victorian Transport Association and has the active support of leading organisations, including VicRoads, the National Transport Commission, Transport Certification Australia, Transport Accident Commission, CityLink, EastLink, WorkSafe Victoria, ARRB Group, VACC, Roads Australia as well as leading truck manufacturers, Hino, Paccar, Mercedes-Benz, Scania and Volvo.

This is a great opportunity for local government practitioners and councillors to prepare for the upcoming changes to heavy vehicle access management under the NHVR, and experience the performance of these new vehicles as they demonstrate common turning and braking manoeuvres.

Matching Trucks to the Road Network is being staged specifically to inform local government, and is one of a number of programs being run over the two days of Sandown Drive Days. To learn more about the other programs being run on the 7th and 8th March at Sandown go to www.vtadrivedays.com.au

To register for the Matching trucks to the Road Network event, complete the attached registration form and return to reception@vta.com.au
