|--------------------------------|--|--------------------------------|
| <b>Date:</b>                   |  | <b>Job #</b>                   |
| <b>Existing: Ford E-450</b>    |  | <b>New Chassis: Ford E-450</b> |
| <b>FPEV Demo/PRAN<br/>VIN:</b> |  | <b>Sales Contact: K Clark</b>  |

| <b>Component Description</b> | <b>Description - Notes</b>   |  |
|------------------------------|--|--|
| Base                         | Prepare all ambulance body systems for transfer.   |  |
| Base                         | Remove the ambulance module from the existing chassis, supply and install all new mounting hardware. Install module body to new chassis in accordance with chassis manufacturer's requirements.          |  |
| Base                         | Modify the front wall of the ambulance body, roof, and back wall of chassis as may be required to mount the module for correct fit and seal. Mount with new cab seal and hardware to tighten to OEM spec |  |
| Base                         | Remove and Inspect rear step bumper. Original assembly reinstalled on the new unit.  |  |
| Base                         | Inspect all exterior compartments for major defects.   |  |
| Base                         | Inspect all exterior compartment doors for proper alignment.   |  |
| Base                         | Inspect all drains and compartment venting for proper operation.   |  |
| Base                         | Inspect and Lubricate all exterior compartment latches and locks.  |  |
| Base                         | Inspect and Clean the flooring and ceiling of Module.  |  |
| Base                         | Inspect and clean all upholstery   |  |
| Base                         | All interior cabinetry cleaned and inspected.  |  |
| Base                         | Inspect and Clean all Formica / laminate surfaces  |  |
| Base                         | Inspect and Clean all work surfaces.   |  |
| Base                         | Inspect all interior cabinets for proper security and operation.   |  |
| Base                         | Inspect and Clean Interior moldings.   |  |
| Base                         | Supply and Install New Heater/AC Tie Ins to New Chassis.   |  |
| Base                         | Inspect Heater/AC System for Proper Operation.   |  |
