

- Decision makers in organizations need to see analytics presented visually, so they can grasp difficult concepts and/or identify new patterns, interactively drill down into charts and graphs for more detail.
- Oracle Data Visualization Cloud is designed to deliver business innovation through data exploration and mashups.
- OneGlobe will provide 6 Visual Graphics connecting to your data using Oracle Data Visualization in Oracle Public Cloud within a period of 3 weeks.
- You only pay support fees for the months used with no long-term contract commitment.
- Flexibility to convert to a Long-term contract at reduced prices, if you choose to do so.
- Pricing may vary depending on the complexity of your requirements.
