

Keeping everyone safe during Alert Level 3!

To keep our staff and customers safe during Alert Level 3, we are:

Washing our hands following the COVID-19 and industry regulations.

Disinfecting surfaces in the kitchen and premise regularly.

Avoiding face touching.

Keeping things contactless like payments and the delivery of food.

Staying home if we are coughing or sneezing, feeling sick, or if we have a sick family member at home.

Taking care of our staff. This is still a stressful and anxious time for everyone. We're supporting our staff in any way we can.
