

## Our vision: Enable all children to reach their potential

Since opening our first lab school in 2013, our mission has been to make the best education the most available. We've made progress toward this goal by opening lab schools, co-developing a platform with educators and technologists, and partnering with forward-thinking schools.

Together, we're building a community dedicated to transforming education for all students.

### 2013 - 2014

#### AltSchool Founded

Opened our first micro-schools in San Francisco. Began developing our platform.

#### Modeled Better Business

Became a B Corp and public benefit corporation, voluntarily setting high standards for environmental responsibility, social contribution, and accountability.

### 2015 - 2016

#### Funding & Expansion

Raised additional funding to invest in the development of our platform, and opened our first school in New York.

#### Partner Program Announced

Invited schools to join our community and help improve education for all children.

### 2017 - 2018

#### Partner Program Launch

Onboarded public school districts and independent schools, who began using the platform to advance learner-centric education across the AltSchool network.

#### Year 6 in Lab Schools

Reached record highs in parent satisfaction (92%), student academic achievement (134% MAP score improvement), and social-emotional growth (92nd percentile in growth mindset).

### 2019 & Beyond

#### Partner Program Expansion

100% retention of Year 1 partners and continued platform development have led to national expansion of our partner program.
