blacklinesafety

www.BlacklineSafety.com

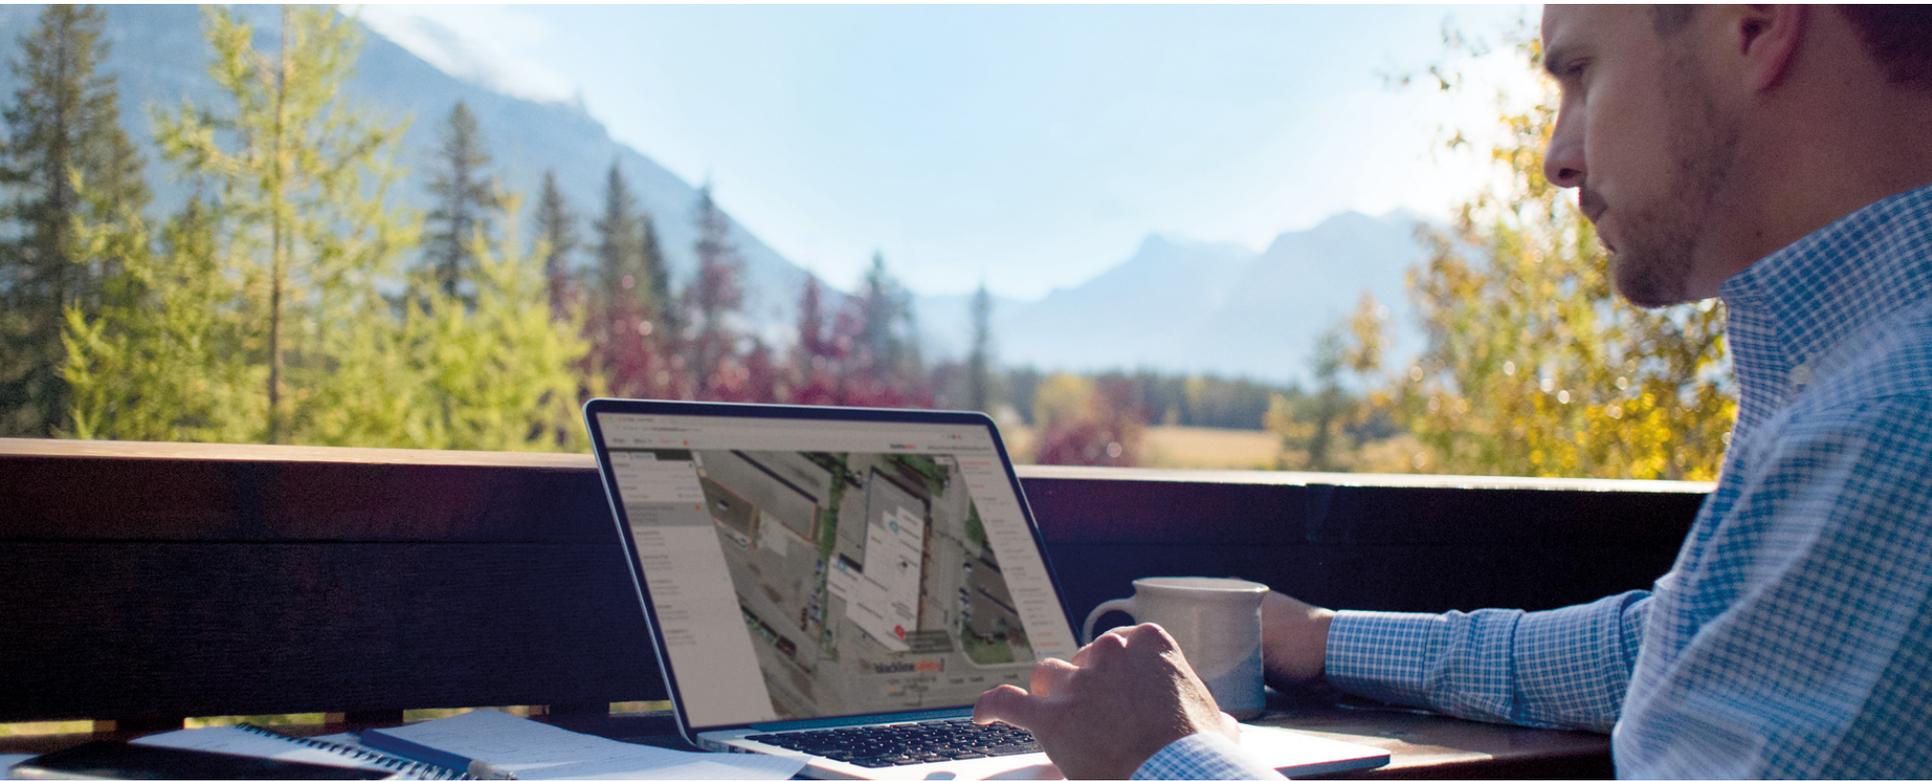

WHAT IS BLACKLINE LIVE?

- Cloud-hosted web portal
- Visibility on all your workers and keeping your contact information up to date
- This is where you will find your main dashboard with associated devices, a live map, account settings, and configuration profiles.

- Accessing account settings
- Address book
- Device users
- Device configuration profiles
- Alert profiles
- Using maps
- Managing alerts

It is your responsibility to make sure the following are up to date:

- Contacts
- Device users
- Assigned devices
- Emergency response protocols

Organization A

- Team members
(account users and contacts)
- Devices
- Configuration profiles
- Alert profiles
- Notification profiles
- Beacons
- Floorplans

Organization B

- Team members
(account users and contacts)
- Devices
- Configuration profiles
- Alert profiles
- Notification profiles
- Beacons
- Floorplans

The screenshot shows the 'Organization details' page in the Blackline Safety portal. The header includes 'Maps', 'Menu', a link to 'Learn about Winter18's new look and features', the 'blacklinesafety' logo, and the email 'redboardroom@blacklinesafety.com'. The main content area is titled 'Organization details' and includes a sub-header 'An organization is the home of your company's Blackline devices and information.' Below this is a form with an 'Organization name' field containing 'Red Boardroom' and an 'EDIT' button. A text box contains the description 'This organization tracks the devices kept in the Red Boardroom'. At the bottom, there are two checkboxes: 'Display LSD map information' and 'Display NTS map information', both of which are currently unchecked. A 'BACK' link is located at the bottom left of the form.

Organization details

- Information about the organization
- Can be seen by all in an organization
- Can be edited only by the organization admin

The screenshot shows the 'My account settings' page in the Blackline Safety portal. The header is identical to the previous screenshot. The main content area is titled 'My account settings' and contains a form with several settings: 'Select Language' (a dropdown menu), 'Timezone' (a dropdown menu set to '(0700) MST - Edmonton'), 'Unit of measure' (a dropdown menu set to 'Kilometers'), 'Region selection for voice calling feature' (a dropdown menu set to 'North America'), and 'Alarm Volume' (a horizontal slider). At the bottom right of the form are 'CANCEL' and 'SAVE' buttons. A 'BACK' link is located at the bottom left of the form.

Account settings

- Information about how you view the portal
- Can only be seen and edited by you

Primary config

DELETE

This is a list of settings which determines how your devices will function. Features can be enabled, disabled or changed to customize the operation of devices depending on your needs. Multiple devices can be added to the same profile, ensuring that the selected devices function in the same way. When this profile is edited, the changes will be updated on each device listed in the profile.

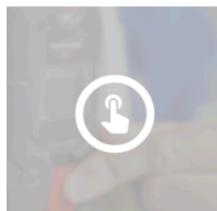

Functional settings

SOS alert

When the red latch is pulled an SOS remote alert will be sent. This is how you call for help.

After pulling down on the red latch the device lights will flash red and the beeper will sound an alarm.

Check-in

The Check-in Period determines how often your device will remind you to check-in.

If you are unable to check-in, the local alarm will continue for the duration of the Reminder Timeout. After this point a missed check-in alert will be triggered.

Check-in period + reminder timeout = total time before missed check-in alert

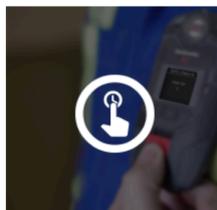

Check-in period (minutes)

60

Check-in reminder (min...)

60

Early Check-in

Pressing on the red latch button for the duration of 3 vibrations (5 sec) will send a check-in along with an updated location. When used in conjunction with the check-in system, the check-in period timer will reset.

Note that if the Silent SOS feature is also enabled, you will not be able to perform an early check-in.

G7c Demo

✓ Monitored by: Blackline Safety Operations Centre: 1-877-869-7213

Emergency Response Protocol

Steps

Formats **B** *I* U A

- Call the G7 device for the demo.
- If you do not connect try two more times.
- After three attempts document notes and resolve alert as demo/training.

Script

"Blackline Safety we have received a _____ alert. Are you okay?
Can I confirm who I am speaking with?
I will go ahead and resolve the alert. Is there anything else I can do for you?
Thank you and have a good day."

Emergency Response Contacts

These are contacts who are referred to in the Emergency Response Protocol. Their information must be entered in the Address Book in order to assign them to this profile. [+ Add Contact](#)

| Names | Phone Number | Priority |
|-------|--------------|----------|
|-------|--------------|----------|

Notified Contacts

Used primarily by self-monitored organizations, these are contacts who will automatically receive a notification of an alert via email or SMS. Their information must be entered in the Address Book in order to assign them to this profile. [+ Add Contact](#)

This is a test profile. No action is required

A dark, atmospheric landscape photograph of a mountain valley. In the foreground, a wide, light-colored river or stream flows through a valley. The middle ground is filled with dense evergreen forests on the slopes of the mountains. In the background, large, rugged mountains rise under a dark, overcast sky. The overall mood is somber and mysterious. The word "QUESTIONS?" is overlaid in the center in a white, sans-serif font.
