

How XOrbs™ Work

1

DESIGNED AS AN INTEGRATED SOLUTION

Hydrofinity cleaning process is built on extensive research and development.

Each component including chemistry, XOrbs, water, and digital programming was tested and specified to deliver superior cleaning results.

2

XOrbs

XOrbs are added to the drum to provide mechanical action and the ability to attract and absorb stains.

Agitation
(Mechanical Action)

Attraction / Absorption

Absorption of Stain into the XOrbs

5

THE END RESULT

A complete washing system.

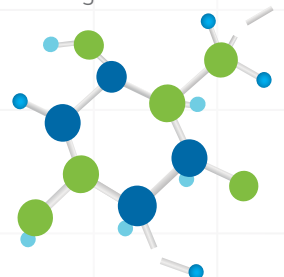

Hydrofinity machine works with our proprietary XOrbs and chemicals to give you a superior clean.

3

HYDROFINITY TAILORED DETERGENTS WORK WITH XOrbs

Hydrofinity scientists have developed detergent formulations to work with XOrbs and a small amount of water to give superior cleaning.

4

DESIGNED TO CLEAN WITH A SMALL AMOUNT OF COLD WATER

Hydrofinity delivers superior cleaning with cold water, and Hydrofinity uses up to 80% less water than a conventional washer.
