

# Market-Leading Wash Quality

## The Benefits of XOrbs™

1

### Superior Stain Removal

XOrbs are like tiny little hands and deliver a **gentle mechanical** action that removes dirt and stains.

2

### Slighter Shrinkage

The increased weight from XOrbs keep fabrics **pinned down** leading to less shrinkage. Ambient temperatures also help.

3

### Reduced Creasing

The XOrbs mix in with the garments which results in less tangling. This **reduces** the amount of **ironing** needed.

4

### Decreased Colour Fading

Due to roll friction, XOrbs causes **less destruction** to the cotton fibres. XOrbs also reduce the re-deposition of dyes.

5

### Less Transfer Damage

Improved transfer damage with XOrbs as the **change in friction** gives a gentler mechanical action.
