### **HUNDREDS TO VISIT NEW LUXURY DISPLAY VILLAGE – GRAND OPENING THIS WEEKEND**

This weekend hundreds of house-hunters are expected to flock to the grand opening of the North West's newest luxury display village at Kellyville to view the latest trends in home living.

Ten of New South Wales' luxury house builders will showcase 10 modern architecturally designed housing types. The \$20 million HomeQuest display village is the fifth for the company in the North West region.

Richard Whitehead, Managing Director of Elderton Luxury Homes and spokesperson for HomeQuest said, "The premier village is a collection of Sydney's best luxury home builders who aim to provide buyers with bespoke, high end luxury homes that display high quality craftsmanship.

"Elderton Luxury Homes has had great success in the more affluent areas of the North West with its housing solutions in regions such as Bella Vista, Glenhaven and the Northern Beaches. For the first time we are showcasing our luxury home brand in a display village to reach a wider audience. The feedback has already been exceptional."

He added, "The North West corridor is one of the fastest growing areas in Sydney. Thousands of people are purchasing and moving to this region each year to capitalise on the significant private, federal and state government funding which is being invested in infrastructure and community facilities."

Elderton Luxury Homes is displaying the 58 Series with the Luxe façade. It is 58 squares and starts from \$768,000. The luxurious contemporary home boasts many opulent features. These include a mono string staircase with glass balustrade and stone base, side courtyard, home theatre with surround sound, twinkle light ceiling and terraced seating, continuous inside/out stone benchtop from the kitchen to the BBQ area and a pool adjacent to the house with a water feature and deck.

Builders represented in HomeQuest's Display Village include Elderton Luxury Homes, Bardane Homes, Buildcraft Constructions, Construction by Design, Elandra Homes, Homestead Homes, Horizon Homes, KDE Living, Roselea Homes and Young Homes.

The village is located at 5 Butler Avenue, Kellyville.
