# IntelleChartPRO

ELECTRONIC HEALTH RECORDS

IntelleChartPRO

#1 No. of Registered Practices

IRIS® Registry EHR Collaborator

AMERICAN ACADEMY OF OPHTHALMOLOGY®

Nextech

THE #1 OPHTHALMOLOGY EHR

IntelleChartPRO, the industry's most intuitive web-based EHR, is designed to mirror the problem-driven workflow of your specialty practice. Pre-encounter tools paired with highly specified, time-saving charting features create an optimized clinical workflow that allows you to spend more face time with patients and provides the opportunity to generate additional revenue for your practice.

It's no wonder the American Academy of Ophthalmology's IRIS® Registry (Intelligent Research in Sight) has named IntelleChartPRO the #1 EHR Collaborator with the most registered practices.
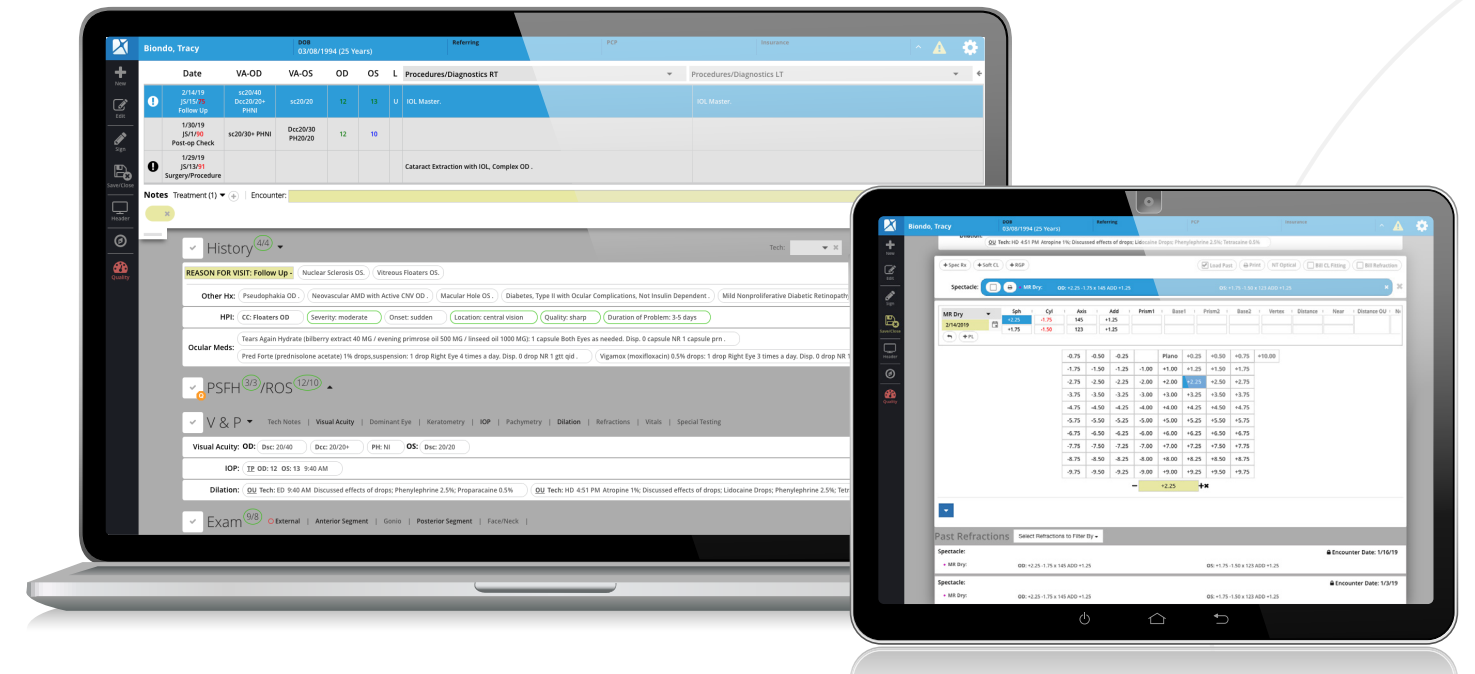

ENCOUNTER READINESS

Clinical Workflow Manager

Improve clinical efficiency with the ability to track every step of the patient journey from the time of check-in to the moment of checkout. You'll discover ways to reduce wait times, avoid bottlenecks and identify delays with built-in monitoring capabilities designed to help you provide a better patient experience.

Patient Summary

Ensure appointment readiness with an easy to understand patient summary that provides a readily available snapshot of patient information, history and data over time before each encounter.
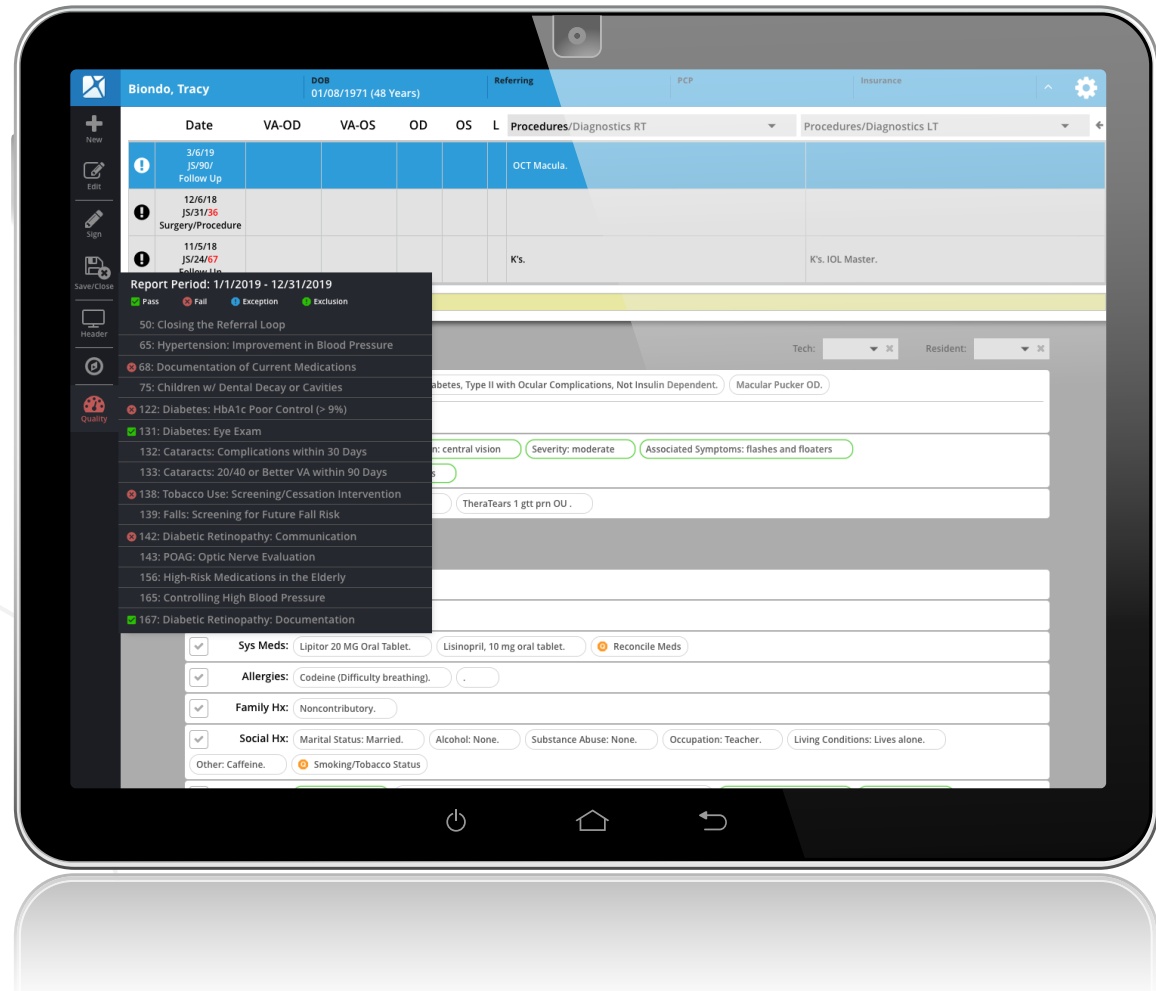

OPTIMAL CHARTING EXPERIENCE

Electronic Health Records

Chart with unmatched speed and specificity, improving documentation, performance and overall patient care. IntelleChartPRO is general and specialty specific, providing the optimal charting experience for every Ophthalmologist.

- An intuitive **single-page layout** captures and automatically saves as you chart, ensuring you never lose charting progress.

- Customize user-specific templates with easily **configurable charts** to include only the sections and subsections that person needs.

- Dynamically accommodate encounter changes on the fly with **adaptive template technology**.

- **One-click replace** enables quick selections from dropdown menus automatically populated with relevant choices for each field.

- Easily perform side-by-side comparisons of a patient's image history over time with the built-in **image viewer**.

- Generate a modifiable **layered drawing** directly in the chart, eliminating the need to recreate drawings at the time of each visit.

- Subspecialty-specific features such as **cataract surgery planner** ensure charting and workflow efficiency for every segment of Ophthalmology.

- **Dual signature** allows multiple providers to sign off on a chart, as well as residents or fellows, making it easy to track their work.

- Avoid having to navigate to a different area to view follow up information, with an easy-to-view **patient summary** built directly in the chart.

STREAMLINED REGULATORY FEATURES

Assisted Compliance

Manage compliance performance in real time, avoiding penalties and significantly improving your odds for achieving the highest score possible.

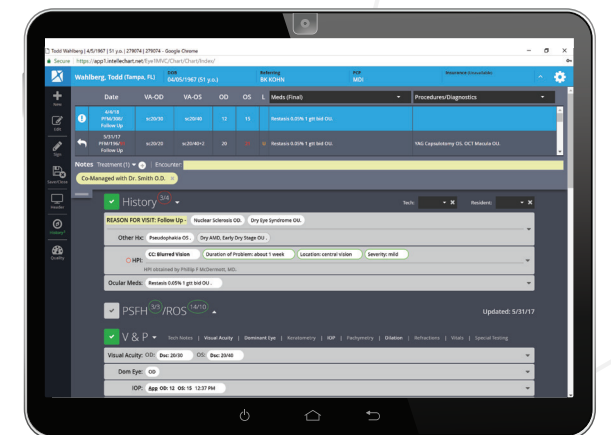

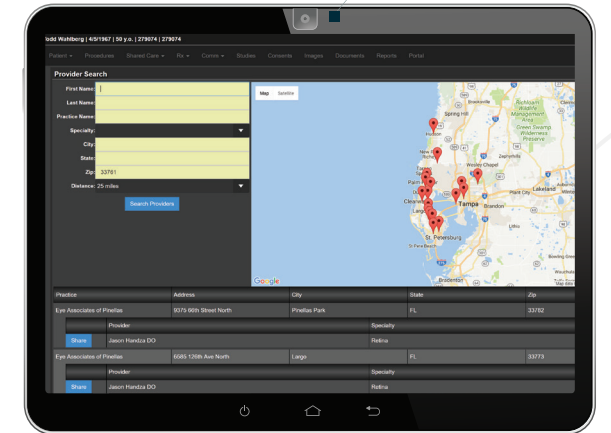

- Automatically identify patients and encounters that qualify for any **quality measures** in which your practice participates.

- **Completion scores** for all compliance measures are displayed for each encounter.

- Receive **prompts for reassessment** of patients that do not meet compliance measure criteria.

PROVIDER COMMUNICATION TOOLS

Shared Care

Securely exchange HIPAA-compliant patient records, including digital images, with other IntelleChartPRO users with this unique and innovative industry first feature.

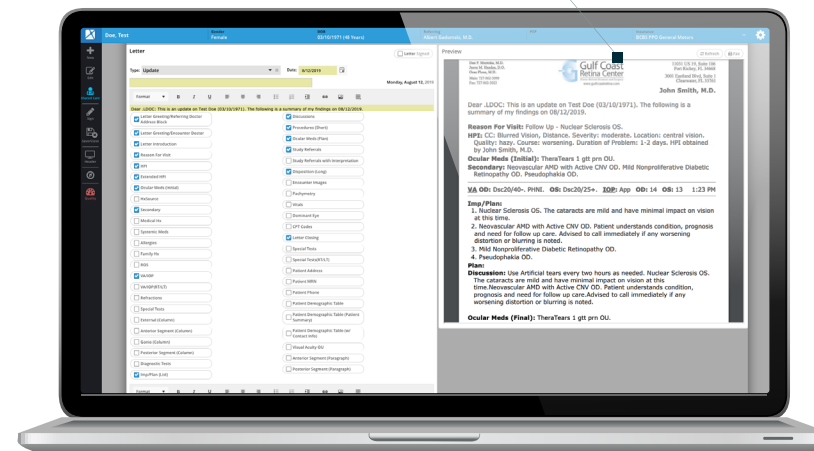

- Receive instant access to thousands of **referral opportunities** powered by Google Maps, locally and nationwide, to assist with specialty referrals, patient relocation, time away and more.

- Improve the **co-management process** with the ability to restrict and/or provide open-ended shared encounter access.

- Simultaneously view **multiple patient encounters**, providing a comprehensive overview.

- **Eliminate time-consuming tasks** such as printing, faxing and calling.

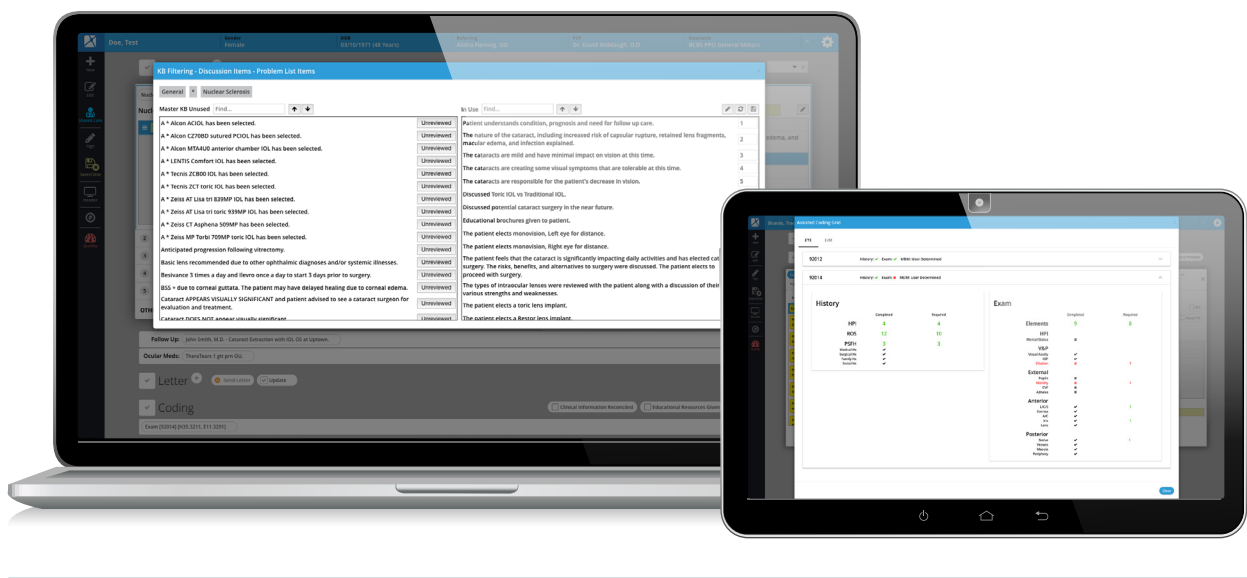

Automatic Letter Generation

Generate multiple letters from a single encounter in seconds, addressed to individual contacts with single or mass send options.

- **Letters prepopulate** based on encounter findings and are fully customizable, with the ability to quickly add or remove data for each letter type.

- Quickly **search for contacts** from your contact list, populating letters in real time.

PEER DRIVEN CLINICAL CONTENT

POWERFUL INTEGRATIONS
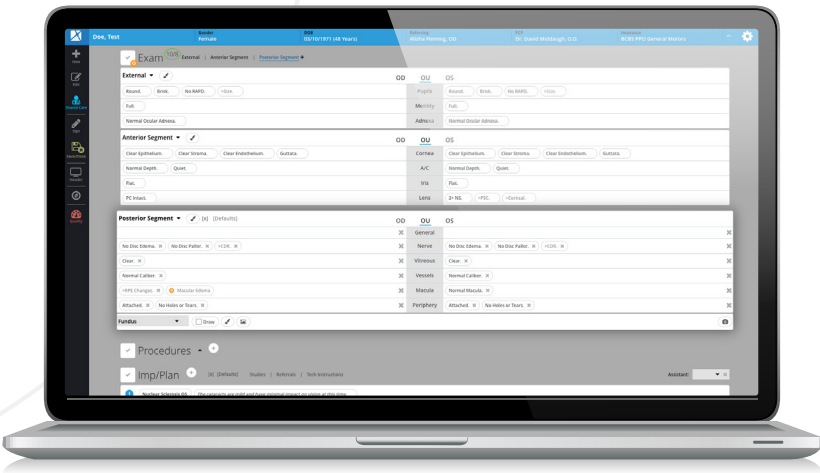

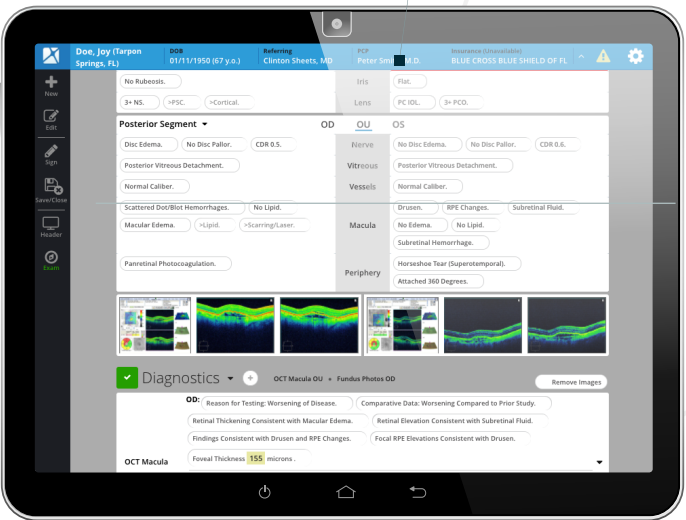

Devices

IntelleChartPRO integrates with most Ophthalmology devices, allowing continued use of existing equipment and the ability to import data from devices directly into the patient's record.
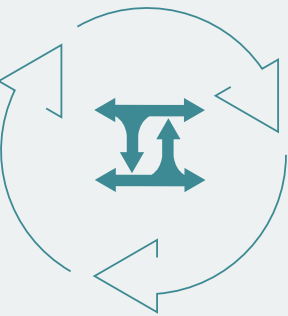

e-Prescribing

Bidirectional e-prescribing allows users to electronically send prescriptions to pharmacies, for both controlled and non-controlled substances, directly from the EHR.

Practice Management

Nextech's comprehensive Practice Management solution seamlessly integrates with IntelleChartPRO, allowing you to run your practice more efficiently with advanced scheduling, centralized billing, robust reporting, real-time inventory management, optical shop and more.

Knowledge Base

No need to "reinvent the wheel." IntelleChartPRO's built-in shared Knowledge Base will do the legwork for you.

- New **diagnoses and exam notes are automatically added** as doctors across the country enter their findings into IntelleChartPRO.

- Pull up an impression plan, **generate a problem list** or compare your discussion items to other users.

- **Confirm diagnoses** based on current and past choices made by fellow Ophthalmologists.

- Import items from the **Knowledge Base** directly into your problem list with drag & drop functionality.

WORKFLOW EFFICIENCY TOOLS

Clinical Operations

Improve practice performance with operational efficiency tools and the ability to customize workflows by both location and provider, accommodating the needs of any size practice.

- Easily view patients and associated tasks on a **user-friendly dashboard**.

- Send **intraoffice messages** to defined groups of staff, such as billers or technicians, streamlining communication.

- **Notifications** make it possible to track the clinical responsibility of all users in the practice.

- Analyze critical practice information with the ability to pull **productivity reports** by encounter type.

## IMPLEMENTATION & PRACTICE DEVELOPMENT

Implementation

Easily transition your practice to IntelleChartPRO with little to no downtime. Nextech's unmatched implementation speed helps maintain the flow of your practice, avoiding schedule interruptions and revenue loss. Built in, clinically proven specialty profiles are intuitive and easy to understand, allowing your staff to be up and running with minimal training. Nextech also offers discrete clinical data conversions that make IntelleChartPRO the turnkey EHR solution for Ophthalmology.

Professional Services

With decades of combined practice management, clinical and industry experience, our team of experts can help take your specialty practice to the next level. When you partner with Nextech, you have access to personal guidance on how to streamline workflows, improve operational efficiency, generate additional revenue and grow your practice.

IntelleChartPRO

ONC Certified HIT
