### INDUSTRY LEADING EHR

Nextech's SRSPro, the 2018 top-rated KLAS Orthopedic EHR, helps Orthopedists grow their practices, increase revenue and reduce physician burnout. SRSPro's intuitive, efficiency-adding tools are custom tailored to suit the unique needs of Orthopedic practices, taking care of the business side of medicine so providers can focus on patient care.

### ENCOUNTER READINESS

#### Patient Journey Tracking

Improve clinical efficiency with the ability to track every phase of the patient's journey from the moment of check-in to the time of checkout. Providers always know where patients are located, in any procedure or process, without the need to involve staff. Discover ways to reduce wait times, avoid bottlenecks and identify delays, helping you provide a better patient experience.

#### **Patient Summary**

Ensure encounter readiness with an easily accessible summary of prior notes, including test and imaging results, as well as pertinent patient information such as family history, recent procedures and common complaints.

## OPTIMAL CHARTING EXPERIENCE

#### **Electronic Health Records**

Chart with both accuracy and efficiency while improving documentation and the patient care experience.

- Streamlined clinical notes provide easy-to-reference documentation and simplify communication with other practices.
- Automatically create clinical notes by pulling in data previously entered by support staff.
- Effortlessly customize templates for each physician's preferences, allowing for individuality among providers.
- Clinician-friendly code search delivers search functionality without the use of complex templates.
- Spend less time charting with intuitive dictation, available in the chart or on the go with the Tx mobile app.

- Safeguards improve patient safety by providing alerts for both drug-to-drug interactions and drug allergies.
- Formulary checks make it possible to confirm patient coverage prior to pharmacy submission, and simultaneously displays both brand name and generic options.
- Easily pull down and act on a **patient's medication** history.
- Quickly locate patient education materials specific to the entered diagnosis code, fulfilling a needed compliance requirement.

### STREAMLINED REGULATORY

## PRACTICE PERFORMANCE

### **Simplified Compliance**

Feel confident charting with an ONC certified solution designed to streamline regulatory tasks such as PDMP checking and MIPS attestation,

- PDMP checking is seamlessly integrated in the e-prescribing workflow, which sends documentation to the state database showing the provider checked the record for a specific patient.
- Comprehensive CPOE results provide greater detail and order type specificity to ensure MIPS compliance.
- Easily exchange data across multiple healthcare systems or networks via a secure data exchange platform, supporting interoperability.
- SRSPro can be used with all available registries providing a robust integrated outcome solution that effortlessly collects the necessary data to provide evidence-based care.

#### Workflow Efficiency

Improve performance with operational efficiency tools and customized workflows that can accommodate the needs of any size practice.

- Smart workflows minimize repetitive data entry across multiple users within a practice, streamlining data collection.
- Customized order sets can be accomplished in just a few clicks, ensuring necessary materials are ordered and available ahead of any procedure.

- Easily assign tasks to staff and **automatically initiate** orders for necessary materials, all from a single userfriendly dashboard.
- Processes are designed to require the fewest clicks
   possible, reducing time spent on data capture.

### **POWERFUL INTEGRATIONS**

#### **Devices**

SRSPro integrates with most devices, allowing continued use of existing equipment. The flexibility of this integration makes it possible for devices to send results and data directly to the EHR. Additionally, seamless PACS integration enables users to securely store and transmit images as well as clinically-relevant reports.

#### **Patient Portal**

portal, improving communication while reducing the administrative workload for staff and front desk personnel.

### e-Prescribing

Experience mobile prescription management with an e-prescribing application that allows providers to work anytime, anywhere on a mobile device. SRSPro's robust e-prescribing functionality streamlines the medication management process and facilitates compliance with an intuitive, unified interface that allows users to write prescriptions for both controlled and noncontrolled substances.

SRSPro comes equipped with a fully integrated patient

#### Partners

Nextech has developed an ever-expanding network of industry leading partners in both technology and healthcare, so users can partner with third-party companies while meeting the Common Clinical Data Set as designed by ONC.

### **IMPLEMENTATION & PRACTICE DEVELOPMENT**

### Implementation

Nextech's proven implementation strategy consists of a series of key phases that ensure users experience both immediate and long-term success. We've leveraged decades of experience to create our methodology, providing scalable and repeatably successful outcomes for our customers, resulting in a 96% customer satisfaction rating in overall experience.

#### **Professional Services**

With decades of combined practice management, clinical and industry experience, our team of experts can help take your specialty practice to the next level. When you partner with Nextech, you have access to personal guidance on how to streamline workflows, improve operational efficiency, generate additional revenue and grow your practice.

## THE COMPLETE SOLUTION

#### **Practice Management**

Nextech's comprehensive Practice Management solution seamlessly integrates with SRSPro EHR, allowing you to run your practice more efficiently with advanced scheduling, centralized billing, robust reporting, real-time inventory management, marketing capabilities and more.

# **SRSPro**

## SPECIFIC. EFFICIENT. PROVEN.

Nextech offers complete healthcare technology solutions for specialty providers. Since 1997, Nextech has been focused on delivering intelligent, intuitive, integrated solutions that empower specialty physicians to maximize efficiency, optimize charting accuracy and increase overall practice profitability. Nextech services more than 11,000 providers and 4,000 practices in the clinical specialties of Ophthalmology, Plastic Surgery, Dermatology and Orthopedics.
