

Ophthalmology is your specialty.

Your practice is our specialty.

Improve efficiency, ensure accuracy.
Grow your practice.

**"You can tell MDIntelleSys,
a Nextech solution,
was designed by an
Ophthalmologist – someone
who understands what
we need."**

*Dr. Robert Benedett
Ozark Retina*

**Optimize practice performance with
Nextech's integrated solution suite**

Designed for Ophthalmologists...

Improve efficiency and ensure accuracy
with the top Ophthalmology EMR

Nextech's cloud-based, Ophthalmology specific solutions are intelligently designed to enhance productivity. Engineered to meet the intricate needs of any Ophthalmologist, the MDIntelSys EMR streamlines workflow, simplifies compliance and optimizes patient care.

Optimized for an Ophthalmology practice...

Maximize patient volume and revenue
management with end-to-end solutions

Maximize efficiency and accuracy with the intelligent, intuitive MDIntelleSys EMR

Intuitively designed, MDIntelleSys matches the problem driven workflow of your Ophthalmology office. Document each patient encounter with unmatched speed and specificity. Comprised of a collaborative online community of clinical users, the clinical content grows with each physician user. MDIntelleSys is the EMR created and continuously enhanced by Ophthalmologists.

Adaptive Template Technology

Patient specific templates increase charting speed without sacrificing accuracy. See only relevant, specific choices based on the patient history and problem list.

Shared Knowledge Base

Customize templates and drawings stored in the collaborative Knowledge Base to your individual preferences. Enhance the efficiency of your charts and the documentation of your encounters.

Enhanced drawing capabilities

Save time with automated drawings based on the findings within a patient's chart. Simplify editing and enhance accuracy with layered drawing capabilities.

“What I like about MDIntelleSys is that it flows correctly throughout the consultation and is structured very intelligently... it works in a very intuitive and clean way.”

*Dr. Gary Hirshfield
Hirshfield Eye
Associates*

A photograph of a doctor and a patient in a clinical setting. The doctor, on the left, is looking through the eyepiece of a microscope. The patient, on the right, is looking into the microscope's light path. The scene is overlaid with a teal color filter. The background shows a clinical room with cabinets and a clock.

"MDIntelleSys has been instrumental in making our practice efficient. Shared Care will increase that efficiency and improve communication with referring physicians!"

*Dr. Patrick Higgins
Retina Center
of New Jersey, LLC.*

Streamline referrals and securely exchange patient records through Shared Care

Easily, share patient information across the network of Nextech's MDIntelleSys users. Seamlessly refer patients and exchange records. Locate referring physicians and collaborate on treatment plans to improve patient care

Grow your network

Easily locate other practices already within the MDIntelleSys Shared Care Network. Increase patient volume by strengthening referring relationships. Identify new referring physicians within your community.

Securely exchange information

Sending patient information through Shared Care is completely secure and HIPAA compliant. Maintain control of what patient information is shared and eliminate wasted time through this safe and secure "intraoperability."

Enhance patient care

Shared Care enables MDIntelleSys users to automate the sharing of encounter notes. Instant access to the collaborative clinical record ensures patient efficacy and the continuity of care.

Enhance communication and care with Patient Engagement tools

Nextech allows Ophthalmologists to go beyond simple interaction by improving communication and patient education with features designed to promote the doctor/patient relationship.

Simplify compliance

Manage patient outreach and surpass Meaningful Use requirements with an integrated patient portal. Electronically communicate with patients and referring physicians through secure, HIPAA compliant exchanges.

Educate patients

Generate better outcomes for patients by involving them in their care. Facilitate patient education and provide online access to clinical and financial information through an easy to use patient portal.

Automate outreach

Maximize patient volume and minimize missed appointments with an integrated reminder system. Encourage patients to confirm their appointments and automatically update the physician's calendar in real-time.

**“More of each patient visit
is spent taking care of the
patient, and less taking
care of the chart.”**

*Dr. Antonio Capone,
Associated Retinal
Consultants*

**"The data is something
I'd never thought I'd see
in a medical practice, but
rather a corporation."**

*Dr. Dana Deupree,
The Macula Center*

Streamline productivity and profitability with intelligent, integrated Practice Management solutions

Optimize office operations and increase efficiency from front office scheduling to back office billing. Maximize patient volume and practice revenue through integrated solutions that ensure coding accuracy. Improve practice performance with Nextech's end-to-end solutions.

Maximize scheduling and billing

Synchronize real time accessibility with your smart phone or tablet and increase patient volume with queues and first available functionality. Streamline billing through EMR integration that ensures coding accuracy across the system.

Optimize revenue cycle management

Improve reimbursement rates with eligibility and claim management tools. Decrease denials with coding assisted EMR functionality. End-to-end integration, from practice management to optical shop to ASC and EMR, streamlines processes and maximizes profitability.

Intelligently grow your practice

Make informed strategic business decisions with advanced analytics. Keep the pulse of your practice with real time, instantaneous insight into practice management data.

Successfully grow
your business with Nextech...
where your practice is our specialty.
