WEBSITE CONTENT REVIEW & UPDATE

What You Need To Know

Are You Eligible?

If your current website is a WordPress site then you are eligible for this offer.

What Are The Costs?

\$870 + GST. XEN Solar will provide an invoice prior to the project commencing.

What Do You Get?

The Website Content Review and Update package involves:

- Discovery call: concerns and goals of your current site
- Back-end review of your current website
- Update pages with content/images/videos*

*content/images and videos must be supplied. If you require copywriting, photography or video creation this will be at extra cost

Why take up this offer?

- Many of the solar dealers we work use their website as part of their awareness and lead generation marketing goals. If you're site is not up to date and relevant, you are missing opportunities.
- Some dealers have had previous experience with content management but most find they do not have the time to maintain it. We take away the pain and update the content for you.
- We have experienced WordPress experts who know how to best optimise your site.

How To Get Started

If you would like to take up this Website Content Review & Update offer, please call Kylie on 0409 153 635 or email kylie@xensolar.com.au
