

Protexgloves Grip

Covered in oval shaped silicone grips for superior mobility and grip power, Protexgloves benefit those with Arthritis, Scleroderma, Raynaud's Syndrome or Ehlers Danlos Syndrome. A great aid for patients who experience compromised hand strength.

Features

- Help control mild swelling and help protect delicate skin while aiding grip strength and maintaining dexterity
- Protexgloves are form-fitting and lightweight enough for small motor tasks yet durable enough for rugged and prolonged use
- Soft, pliable silicone grip ovals for non-slip holding power
- These glove preserve dexterity making them ideal for work related tasks, for improved ADL performance and for day or nighttime wear
- Lab certified 50+ UPF rating for maximum sun protection
- Sold one pair (two gloves) per package
