

3pp[®] ThumSpica[™]

The 3pp[®] ThumSpica[™] wrap-on splint supports the wrist and thumb to relieve pain from tendonitis or overuse problems. The 3pp ThumSpica is used to treat deQuervain's tenosynovitis, Gamekeeper's thumb and CMC joint arthritis. Gentle compression provides control while allowing for full hand function.

Features

- Contoured strap encircles the thumb to position it away from the hand for rest or allows the thumb to be positioned under the fingers for function.
- Flexible, breathable four-way stretch materials allows mobility while maintaining compressive support.
- Perfect to wear upon your return to work following rehabilitation or following thumb surgery.
- Thin enough to fit under work gloves.
- Hand or machine washable. Latex-free.
