

MODERNISING ENTERPRISE BI

Are you bearing high cost for your legacy BI?
 Are your users unhappy with long time-to-value on their reports & dashboards?
 Are your users able to take action on their insights?
 Are your users using old, clunky visualisations?

“Save a massive 75% in people days by moving to a new age data platform.”

Based on Acrotrend client data

Acrotrend

Customer insights & analytics

We can help you modernise the state of your BI and move away from your legacy platform.

We will assess your current state, run a rapid PoC to provide quick value and optionally also chart out a roadmap with cost savings to move away from your legacy enterprise BI platform

WHAT WE NEED

Time with stakeholders to understand reporting needs

1-2 dashboards from your legacy BI platform to be migrated for a PoC (we can help you shortlist them)

Access to your semantic layer to reverse engineer your models

Access to data environments, or an anonymised version of your dataset

WHAT WE DO

Understand your BI requirements & recommend the right tool to meet your needs

Migrate your dashboards and reports from legacy BI into recommended tool

Evaluate current implementation & assess migration complexity

WHAT WE DELIVER

A robust plan with a quantifiable ROI for modernising your organisation's BI

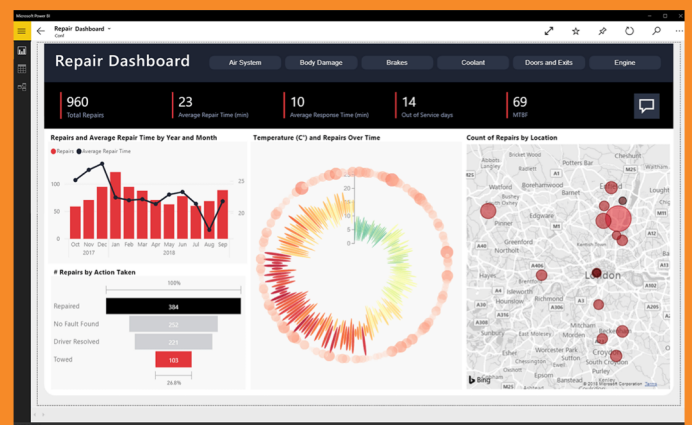

What You Get Avg. delivery 2 to 4 weeks

Migrated dashboards & reports in recommended tool with a 2 week trial including support

Roadmap & business plan for migrating/transforming historic reports

Our consultants are certified on various visualisation tools including Looker, PowerBI, Qlik & Tableau, with extensive experience & expertise on legacy BI platforms. We currently support all versions of Oracle Business Intelligence Enterprise Edition (OBIEE) and SAP Business Objects for migration

Example repair dashboard highlighting severity and locations of areas requiring attention.

About Acrotrend: We are a Customer Insights & Analytics consultancy who uses the right technology, the right data and ask unusual questions to get better business outcomes.
