

Dust Collection System for Mixing Buckets

Product Information

This product information is provided in support of efforts being made to further reduce dust exposures for workers in the field.

The Ardex DustFree is a dust-reducing unit for 5 gallon buckets which connects them to a shop vacuum to help minimize the dust generated while mixing dry products (such as Thinset, grout, etc.).

Additional product information is available via the link to the product page provided below. Also provided is a link to a video demonstration of the product. Should you have any further questions, or if you need further assistance with reducing dust exposure for workers, please feel free to reach out to your ORCIG Safety Specialist.
