

## *Flagger Training and Certification Requirements by State*

We all have a situation on our projects where we have to use a flagman for deliveries or for traffic control. In most cases, the foreman puts a laborer out to perform the flagging operations who has little to no training. However, there are state requirements that we all have to meet besides the OSHA standards.

Please click on the following link to see each states requirements for flagging operations. There is no guarantee for accuracy of the information provided here. If in doubt, check with your state department of transportation. The list is for reference purposes only.
